# Introduction

## The 2025-2026 Catalog

The Dakota College annual catalog is published each year. It presents an outline of the organization, its history and scope, members of the faculty for the current year, and descriptions of the various courses of study to be offered during the academic year.

### Disclaimer

Catalogs and bulletins of educational institutions are usually prepared by faculty committees or administrative officers for the purpose of furnishing prospective students and other interested persons with information about the institution. Announcements contained in such printed material are subject to change without notice and may not be regarded as binding obligations on the institution and the State. As these announcements are prepared some time in advance, changes are sometimes necessary during the academic year. Dakota College administration and faculty reserve the right to make changes in curricula, academic guidelines and other rules and regulations at any time.

### Non-Discrimination Statement

Dakota College does not engage in discrimination or harassment against any person because of race, color, religion or creed, sex, gender, gender identity, pregnancy, national or ethnic origin, disability, age, ancestry, marital status, sexual orientation, veteran status, political beliefs or affiliations, or information protected by the Genetic Information Nondiscrimination Act (GINA); and complies with all federal and state non-discrimination, equal opportunity and affirmative action laws, orders and regulations, including remaining compliant and consistent with the Civil Rights Act, the Americans with Disabilities Act, the Rehabilitation Act of 1973, and Title IX of the Education Amendments of 1972. This policy on non-discrimination applies to admissions, enrollment, scholarships, loan programs, participation in Dakota College activities, employment, and access to or participation in, and treatment in all programs and activities. Dakota College prohibits retaliation against any individual or group who exercises the rights or responsibilities protected under the provisions of state law, federal law and/or institutional policy. Employees or students who violate this policy may face disciplinary action up to and including separation from Dakota College. Third parties who commit discrimination or harassment may have their relationships with Dakota College terminated and/or privileges of being on premises withdrawn.

Questions, comments, or complaints regarding sexual discrimination or sexual harassment may be directed to the Title IX Coordinator. All other forms of discrimination (e.g., racial) or harassment may be directed to Human Resources, as appropriate.

Sara Abrahamson

### Equal Opportunity

Dakota College is fully committed to equal opportunity in employment decisions and educational programs and activities, in compliance with all applicable federal and state laws for all individuals without regard to race, color, national origin, religion, gender, disability, age, sexual orientation, marital status or veterans' status. Inquiries concerning compliance may be directed to the College's Equal Opportunity Officer ([dcbhuman.resources@dakotacollege.edu](mailto:dcbhuman.resources@dakotacollege.edu)) or the Office of Civil Rights, U.S Department of Education, John C. Kluczynski Federal Building, 230 S. Dearborn Street, 37th Floor; Chicago, IL 60604, Telephone: 312-730-1560, fax (312) 750-1576 or [OCR.Chicago@ed.gov](mailto:OCR.Chicago@ed.gov).

Student inquiries concerning the Americans with Disabilities Act may contact Lynn Bristol, Disability & Accessibility Services, located in the Academic Center for Excellence in Thatcher Hall.

### Title IX Compliance

Title IX policy is required by federal law (Title IX, Education Amendments of 1972) and implementation of this policy is guided by the U.S. Department of Education, Office of Civil Rights. In accordance with Title IX, Dakota College does not discriminate based on sex or gender identity in educational program and activities.

Sexual misconduct and discrimination are prohibited in all forms, regardless of intent to harm. This includes sexual violence, sexual assault, sexual exploitation, coercion, and sexual harassment. All of these are examples of sexual discrimination and sexual misconduct, and all are prohibited.

Also prohibited under Title IX is any rule violated on the basis of the recipient's sex/gender which is severe enough to cause a discriminatory effect. (Examples of this may include but are not limited to bullying, cyber-bullying, relationship violence, and stalking.)

## Dakota College at Bottineau in Brief

**ACCREDITATION:** Dakota College is accredited by the Higher Learning Commission ([hlcommission.org](http://hlcommission.org)), a regional accreditation agency recognized by the U.S. Department of Education, 230 South LaSalle Street, Suite 7-500, Chicago, IL, 606041411; 312-263-0456.

**CALENDAR:** The academic year is based on the traditional semester system with two 16-week semesters and a summer session.

**CAMPUS ENROLLMENT:** Fall Enrollment: 1,206 (2024-2025)

**MANAGEMENT:** Dakota College is one of the 11 campuses in the North Dakota University System which is governed by the seven-member North Dakota State Board of Higher Education.

**FOUNDED:** 1906

**CURRICULA:** The college offers 32 career/technical programs or options leading to AAS, CERT, and CoC degrees. Also offered are comprehensive university parallel/transfer coursework leading to AA or AS degrees.

**LOCATION:** Bottineau is a city of 2,200 residents located in north central North Dakota near the Turtle Mountains. Although the mountains are rolling, wooded hills interspersed with lakes, they provide a setting for a variety of recreational activities within easy commuting distance of Bottineau and give substance to the area's reputation as a "Four Seasons Playground." Lake Metigoshe, The International Peace Garden, Bottineau Winter Park, J. Clark Salyer Refuge, Lake Metigoshe State Park, and the Turtle Mountain State Forest are just some of the natural assets that surround Bottineau and provide recreational opportunities as well as acres and acres of outdoor learning laboratories.

## Introduction

**CAMPUS:** The 35-acre campus is located on the northern edge of the city of Bottineau. It consists of classroom buildings, residence halls, a student and dining center, and an administrative building.

**ADMISSION REQUIREMENTS:** Enrollment is open to high school and GED graduates.

**LIBRARY:** The library is a member of ODIN, the Online Dakota Information Network. The library houses over 36,000 volumes, in addition to a wide variety of daily, weekly, monthly, and annual periodicals.

**CAMPUS AFFILIATION:** Minot State University, Minot, North Dakota.

**SCHOOL NICKNAME:** Lumberjacks

# Academic Calendar 2025-2026

## Fall Semester 2025

Date	Event
August 22	Residence halls open for freshmen
August 23	Residence halls open for returning students
August 23-24	First Year Experience
August 25	Classes begin at 4:00 PM
August 26	First day of full classes
August 28	Last day to add/drop/withdraw without record - 100% refund (8wk1)
September 1	Labor Day observed; campus closed
September 3	Last day to add/drop/withdraw without record - 100% refund (16wk)
September 10	Tuition/fee payment deadline
September 11	Last day to withdraw from school with 75% refund (8wk1)
September 22	Enrollment census date
September 25	Last day to withdraw from school with 50% refund (8wk1)
October 3	Last day to withdraw from school with 75% refund (16wk)
October 3	Last day to withdraw/drop with record (8wk1)
October 13	Professional Development Day
October 16-17	Final Exams (8wk1)
October 20	Midterm grades due
October 20	Classes begin (8wk2)
October 20	Grades must be entered by 12:00 PM (noon) (8wk1)
October 20-24	Pre-registration for Spring 2026
October 23	Last day to add/drop/withdraw without record - 100% refund (8wk2)
November 2	Last day to withdraw from school with 50% refund (16wk)
November 3	Incompletes change to "F" (8wk1)
November 6	Last day to withdraw from school with 75% refund (8wk2)
November 11	Veteran's Day; campus closed
November 14	Last day to withdraw/drop with record (16wk)
November 14	Fall graduation applications due
November 20	Last day to withdraw from school with 50% refund (8wk2)
November 24	Last day to withdraw/drop with record (8wk2)
November 26-28	Thanksgiving; no classes - campus closed November 27

## Introduction

Date	Event
December 11-12	Final Exams (8wk2)
December 15-19	Final Exams (16wk)
December 22	Grand must be entered by 12:00 PM (noon) (8wk2, 16wk)
December 22 - January 11	Winter break; campus closed December 24 (noon), December 25 & January 1
December 29	Incompletes change to "F" (8wk2)
January 19	Incompletes change to "F" (16wk)

## Spring Semester 2026

Date	Event
January 11	Residence halls reopen
January 12	Classes begin at 4:00 PM
January 13	First full day of classes
January 15	Last day to add/drop/withdraw without record - 100% refund (8wk1)
January 19	Martin Luther King Jr. Day; campus closed
January 22	Last day to add/drop/withdraw without record - 100% refund (16wk)
January 28	Tuition/fee payment deadline
January 29	Last day to withdraw from school with 75% refund (8wk1)
February 9	Enrollment census date
February 12	Last day to withdraw from school with 50% refund (8wk1)
February 16	President's Day; Campus closed
February 17	Professional Development Day
February 19	Last day to withdraw/drop with record (8wk1)
February 23	Last day to withdraw from school with 75% refund (16wk)
March 5-6	Final Exams (8wk1)
March 9	Midterm grades due
March 9	Grades must be entered by 12:00 PM (noon) (8wk1)

## A Message from the Interim Dean

Dakota College at Bottineau is dedicated to student success and rooted in community values. For over 100 years, we've proudly served northcentral North Dakota. Today, we are one of eleven public institutions in the North Dakota University System and proudly affiliated with Minot State University. Our mission is clear: we provide *"a quality education in a caring environment."*

In this catalog, you'll find a wide range of programs tailored to meet diverse student needs. If you're undecided about your path, we provide opportunities to explore courses and careers. If your goal is to pursue a university degree, we ensure easy access and smooth transfer options. If you're aiming for a high-demand career, we offer certificates, two-year degrees, and strong ties to local employers.

At Dakota College at Bottineau, students come first. Our commitment to student success is at the heart of everything we do while we support, encourage and empower them every step of the way.

Our graduates leave with a strong education and lasting connection to our college and the people that work here. They go on to make a difference across the globe, always carrying a part of Dakota College with them. We invite you to become a Lumberjack and join our proud alumni family.

Best wishes,

Corey Gorder

## History and Mission of Dakota College at Bottineau

### History

A referendum in 1894 stated that a School of Forestry be in Bottineau, North Dakota, to provide, in addition to forestry, comprehensive junior college curriculums. The North Dakota Century Code identified a special niche for the college by mandating it to offer programs in agriculture, forestry, and horticulture. Since then, the college not only has expanded its natural resource programming, but it has also added programs in numerous other areas that serve the need of its constituents — most notably in Allied Health and the online delivery of instruction.

The relationship between the School of Forestry and North Dakota State University was first established in 1969 when the Board of Higher Education approved the "administrative attachment" of the two institutions. The School of Forestry became known as North Dakota State University-Bottineau Branch and Institute of Forestry at that time. In 1987, the name was modified to North Dakota State University-Bottineau.

In April of 1996, the North Dakota State Board of Higher Education affiliated the college with Minot State University, and the name of the school was changed to Minot State University-Bottineau Campus. This realignment continues to be productive and has resulted in many collaborative efforts.

In the summer of 2006, the college celebrated a century (1906-2006) of excellence commemorating the determination, strength, and resourcefulness of our students, faculty, staff, and community. For 100 years, as the North Dakota School of Forestry, NDSU-Bottineau, and MSU-Bottineau, the institution prepared men and women to become contributing members of society. Campus aspirations were reflected in the centennial motto: Rooted in the past, growing towards the future.

On August 1, 2009, MSU-Bottineau became Dakota College at Bottineau. The new name gives the institution a unique identity in a way that reflects its location; history; mission; and ongoing Nature, Technology, and Beyond focus, but does not change the college's affiliation with Minot State University. The new name describes the college's unique spirit and vibrancy. The campus remains a place that provides students with a quality education in a caring environment.

### Institutional Mission

Dakota College at Bottineau provides a quality education in a caring environment.

### Vision

Dakota College at Bottineau adapts to the changing educational landscape to empower students and impact communities.

### Values

Dakota College at Bottineau is student-focused and community centered. We value: Integrity, Engagement, Inclusion and Passion.

### Campus Focus: "Nature, Technology and Beyond" Defined

Established as the School of Forestry in 1906, Dakota College at Bottineau has consistently utilized the biological diversity of the region: Turtle Mountain Forest, prairie pothole region, J. Clark Salyer National Wildlife Refuge, International Peace Garden, and Lake Metigoshe. Using these as natural laboratories to strengthen the educational experience and continuously expanding academic and career programming, Dakota College at Bottineau integrates technology to prepare students not only for the present but also to go beyond and improve the future.

Dakota College at Bottineau's diverse, natural surroundings provide examples of how and why everyone must care for the environment. Technology aids in determining appropriate methods to solve problems and creates the change necessary to maximize positive consequences to all life.

Through these and other appropriate actions, Dakota College at Bottineau will endeavor to leave students with an ethic of concern and care for the world.

### Graduate Profile

Graduates of Dakota College are self-confident and possess skills that promote life-long learning. When Dakota College graduates leave the nurturing environment the campus provides, they can successfully continue their education or effectively enter the workforce. By utilizing the knowledge gained and the interpersonal and communication skills learned on campus, graduates will become contributing members of society. Dakota College develops responsible graduates who can be successful in life while using and protecting our natural and human resources wisely.

## Notification of Rights Under FERPA

The Family Educational Rights and Privacy Act (FERPA) affords students attending post-secondary institutions certain rights with respect to their education records. An "Education Record" is defined as a record that is directly related to a student and is maintained by Dakota College. FERPA rights include:

The right to inspect and review the student's education records within 45 days of the day the College receives a request for access.

- A student should submit a written request to the Office of the Registrar that identifies the record(s) the student wishes to inspect. An institutional official will arrange for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the Office of the Registrar, the institutional official responding to the request shall advise the student of the correct department and individual to whom the request should be addressed.

The right to request the amendment of the student's education records that the student believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA.

- A student who wishes to ask to amend a record should write to the institutional official responsible for the record, clearly identify the part of the record the student wants changed and specify why it should be changed.
- If the institution decides not to amend the record as requested, the institution will notify the student in writing of the decision and of the student's right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when the student is notified of the right to a hearing.

- The right to provide written consent before the institution discloses personally identifiable information from the student's education records, except to the extent that FERPA authorizes disclosure without consent, as described below. Dakota College will not disclose information from a student's education record without the student's written consent, except in the following situations:

Dakota College discloses education records without a student's prior written consent to school officials with legitimate educational interests.

- A "school official" is a person employed by the institution in an administrative, supervisory, academic, or support staff position (including Public Safety personnel and health staff); a person or company with whom Dakota College has contracted as its agent to provide a service instead of using employees or officials (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. School officials include employees of the North Dakota Attorney General's Office providing representation to Dakota College.
- A school official has a legitimate educational interest if the official needs to review an education record to fulfill his or her professional responsibilities for the College.
- Upon request, the College also discloses education records without the student's consent to officials of another school in which a student seeks or intends to enroll, if the disclosure is for the purposes related to the student's transfer or enrollment in such institution.
- Disclosure to authorized representatives of the Comptroller General of the United States, the Attorney General of the United States, the U.S. Department of Education, state/local educational authorities, organizations conducting studies for or on behalf of the College, and accrediting organizations. Disclosures under this provision may be made in connection with an audit or evaluation of Federal or State-supported education programs, or for the enforcement of or compliance with Federal legal requirements related to those programs. These entities may make further disclosures of Personally Identifiable Information to outside entities that are designated by them as their authorized representatives to conduct any audit, evaluation, or enforcement or compliance activity on their behalf.

Disclosure is in connection with a student's application for, and receipt of, financial aid, if the information is necessary to determine eligibility for the aid, determine the amount of the aid, determine the conditions of the aid, or enforce the terms and conditions of such aid.

- Disclosure is to comply with a judicial order or lawfully issued subpoena.
- Disclosure is to parents of dependent students, as defined by the Internal Revenue Code of 1986, Section 152. (While FERPA permits disclosure of records to parents of dependent students without student consent, it does not require such disclosure. The parent must provide a copy of their most recent federal income tax return establishing the student's dependency. Full rights under the Act shall be given to either parent, unless the institution has been provided with evidence that there is a court order, or other legally binding document relating to such matters as divorce, separation or custody that specifically revokes those rights.)
- Disclosure is to appropriate parties in the event of a health or safety emergency.
- Disclosure of information designated as "Directory information", as more particularly described below.
- Disclosure is to a victim of a crime of violence or a non-forcible sex offense, when such disclosure is the results of any disciplinary proceedings conducted against the alleged perpetrator of such crime or offense.
- Disclosure to the public of the results of a disciplinary proceeding, if the institution determines that the student is an alleged perpetrator of a crime of violence or non-forcible sex offense and the student has committed a violation of the College's Code of Conduct with respect to the allegation made against him or her.
- Disclosure is to the student's parent about the student's violation of any Federal, State, or local law, or any policy of the College which governs the use and possession of drugs or alcohol, but only if the student is under 21 years of age.

The right to file a complaint with the U.S. Department of Education concerning alleged failures to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, DC 20202 Additional information about the Family Educational Rights and Privacy Act may be obtained on the United States Department of Education website: <https://www2.ed.gov/policy/gen/guid/fpco/ferpa/index.html>

## Directory Information

FERPA requires that Dakota College, with the exceptions outlined above, obtain a student's written consent prior to disclosing to a third party any personally identifiable information about that student. Dakota College may disclose information designated as "directory information" without prior written consent of the student. Directory information is generally considered information that is not harmful or an invasion of privacy if released. Dakota College has designated the following items as directory information:

- Student name (not to include preferred name)
- Hometown (city, state)

- Campus email address
- Major field of study (all declared majors)
- Class level
- Dates of attendance
- Enrollment Status (withdrawn, half-time, or full-time)
- Participation in officially recognized activities and sports (released as part of a team roster)
- Height, weight, and photos of athletic team members (released as part of a team roster)
- Honors/awards received (academic honors/awards released at the end of the term and graduation released at the end of the term or as part of graduation/commencement events)
- Degree earned (all degrees earned)
- Date degree earned (dates of all degrees earned)
- Directory photos, photographs and video recordings of students in public or non-classroom settings (photographs from classrooms or class-related activities are NOT directory information)

The main purpose of designating the above information as “directory” is to permit Dakota College to include this information in certain publications, such as: listing your name on the graduation program, submitting your awards and accomplishments for publication in a local newspaper, or printing your name in a playbill should you participate in a theater production on campus. The institution does not release any directory information to commercial entities seeking to conduct solicitations or fund-raising activities.

Dakota College honors its duty to protect the confidentiality of student records. However, the institution may disclose a student’s “directory information” without obtaining student’s written consent, unless the student has submitted a written “opt out” request, to the Office of the Registrar not to release any directory information pertaining to them. Please note that submitting an “opt-out” request will not prevent the institution from requiring students to display or disclose their ID card when engaging in college-related activities and transactions.

### Negative Consequences of Opting Out

Students who choose to restrict access to their Directory Information should be aware that doing so may result in unintended negative consequences. For example, organizations such as potential employers, scholarship agencies, members of the press, loan agencies, educational organizations and others will not be given access to the student’s directory information and will not be able to contact the student. Opting out of directory information classification may mean that students will miss out on valuable employment, educational, cultural, and other opportunities.

# Admission

Students who are considering attending Dakota College should complete the online application for admission as early as possible. This allows ample time for the admissions office to communicate requirements and process documents so that the student may enroll in courses before the semester begins.

## Admission of First-Year Students

A first-year applicant is one who has not attended a postsecondary institution after high school graduation. First-year applicants who are seeking admission to Dakota College must submit the following materials:

1. A completed application for admission and housing form, if applicable.
2. A \$35 application fee. This fee is not refundable.
3. An official high school transcript as proof of high school graduation.
4. An official transcript of high school equivalency examinations authorized as high school equivalency in the state in which it is earned may be accepted in lieu of high school transcript.
5. Evidence of immunization against measles, mumps, rubella and, if under 21 years old, meningococcal disease. The North Dakota State Board of Higher Education requires that all students attending North Dakota state institutions demonstrate immunity to these diseases. Such immunity can be proven by: a) presenting evidence of two doses of measles, mumps and rubella vaccine, no less than one month apart, from a licensed physician or authorized representative of a state or local health department, b) presenting documentation of titers proving immunity, c) documentation of immunity, under subsection 2 in SBHE policy 506.1, means evidence for meningococcal disease can be proven by means of evidence of at least one dose of meningococcal conjugate vaccine at age 16 or older for students age 21 and younger. In accordance with NDUS Policy 506.1, students enrolled only in distance learning courses, courses taught off campus, continuing education or noncredit courses, and students in attendance at camps, workshops or programs and classes delivered under contract to a third party are exempt from this policy. Campuses shall grant additional exemptions upon application to and approval by the authorized institution official, under established campus procedures, when: (a) immunization is contraindicated by illness, pregnancy, allergies, or other medical condition certified by a licensed physician; (b) the student has had one immunization and agrees to have a second one no less than one month later; or (c) the student's beliefs preclude participation in an immunization program. In addition, Dakota College also exempts benefited employees from the policy as well as students enrolled in college credit in high school courses.
6. Applicants may elect to submit scores from the American College Test (ACT) or Scholastic Aptitude test (SAT). They will be used for advisement and placement purposes.
7. Criminal background checks are required for the following programs: Nursing, Medical Assistant, Paramedic Technology, Diagnostic Medical Sonography, Dental Assisting, Dental Hygiene, Child Development Associate, and Paraprofessional Education.
8. These admission requirements are to be met by the first date of enrollment. Students whose admission requirements are not fully satisfied will not be able to register until all admission requirements are met.

## High School Diploma/GED Validation Policy

In the event Dakota College has reason to believe a high school diploma is not valid or was not obtained from an entity providing secondary school education, the institution will conduct additional research to determine if the diploma is valid. This applies to First Year and Transfer students.

Additional research may be performed when:

- No apparent state legal authority for high school or G.E.D.
- Limited curriculum/instructors
- High school diploma given for a fee within a short period of time
- High school diploma date/place not consistent
- High school diplomas/transcripts/GED's that were issued by a school that bears a non-traditional name that does not end in "high school", such as "academy", or "center"
- High school diplomas/transcripts/GED's that were purchased and/or completed online

- High school diplomas/GED's that have names and/or dates that have been written on the diploma, and those where "whiteout" type corrections have been made

Should any of the above exist, Dakota College will conduct additional research to include:

- Checking the National Center for Education Statistics (NCES) website for information relative to the validity of the school, and if the school in fact provides secondary school education. If Dakota College is unable to obtain the required information, the institution will contact the state where the school is in an attempt to obtain the appropriate documentation.
- Determining if the school has previously been identified as a high school diploma mill, via internet research and existing lists the school maintains.
- Determining if the diploma or transcript was purchased online with little work expected by the student, or if it was earned via brick-and-mortar traditional high school.

Ultimately, if it is not reasonably certain a high school diploma or G.E.D. is valid, the student will not be admitted as a degree seeking student and is ineligible for federal student aid. Dakota College's decision relative to the validity of a particular high school diploma or G.E.D. is final, and not subject to appeal.

## Admission of Transfer Students

A transfer applicant is one who has attended one or more postsecondary institutions following high school graduation. Transfer applicants who are seeking admission to Dakota College must submit the following material:

1. A completed application for admission and housing form, if applicable.
2. \$35 application fee. This fee is not refundable.
3. An official transcript of all previous college work. No part of previous college record may be disregarded. Violation of this regulation will be considered a serious offense and may result in the student's dismissal. Transfer applicants who have completed less than 24 semester or 36 quarter hours of transferable credit must also submit an official high school transcript and may elect to submit the results from the American College Test (ACT) or Scholastic Aptitude Test (SAT). Students academically suspended from other institutions of higher education ordinarily will not be permitted to enroll at Dakota College at Bottineau until one year has elapsed since their suspension or until the suspending institution would reinstate them. However, exceptions to this regulation may be made on an individual basis. Prospective applicants who wish to enroll at the college before their period of suspension has elapsed should contact the Student Services Office. The admission of transfer credit is based on work which is comparable to that at Dakota College or of such a nature as to prepare students to continue in an equivalent program at the college. Other courses will be evaluated regarding their applicability to the student's major area.
4. Evidence of immunization against measles, mumps, rubella and, if under 21 years old, meningococcal disease. The North Dakota State Board of Higher Education requires that all students attending North Dakota state institutions demonstrate immunity to these diseases. Such immunity can be proven by: a) presenting evidence of two doses of measles, mumps and rubella vaccine, no less than one month apart, from a licensed physician or authorized representative of a state or local health department, b) presenting documentation of titers proving immunity, c) documentation of immunity, under subsection 2 in SBHE policy 506.1, means evidence for meningococcal disease can be proven by means of evidence of at least one dose of meningococcal conjugate vaccine at age 16 or older for students age 21 and younger. Benefited employees are also exempt from this policy. In accordance with NDUS Policy 506.1, students enrolled only in distance learning courses, courses taught off campus, continuing education or noncredit courses, and students in attendance at camps, workshops or programs and classes delivered under contract to a third party are exempt from this policy. Campuses shall grant additional exemptions upon application to and approval by the authorized institution official, under established campus procedures, when: (a) immunization is contraindicated by illness, pregnancy, allergies, or other medical condition certified by a licensed physician; (b) the student has had one immunization and agrees to have a second one no less than one month later; or (c) the student's beliefs preclude participation in an immunization program. In addition, Dakota College also exempts benefited employees from the policy as well as students enrolled in college credit in high school courses.
5. Criminal background checks are required for the following programs: Nursing, Medical Assistant, Paramedic Technology, Diagnostic Medical Sonography, Dental Assisting, Dental Hygiene, Child Development Associate, and Paraprofessional Education. These admission requirements are to be met by the first date of enrollment. Students whose admission requirements are not fully satisfied will not be able to register until all admission requirements are met.

## Online Application

Students may complete and submit an electronic application for admission via the website at [www.dakotacollege.edu](http://www.dakotacollege.edu). Other admissions documents should be sent as soon as possible after the electronic application is submitted.

### [Apply for Admission](#)

The \$35 application fee must be paid before the application for admission is processed. The fee can be paid through the online application process.

## Continuing Enrollment

Students who have completed a program and wish to return to Dakota College to enroll in another program without a break in enrollment must complete the continuing enrollment form. The continuing enrollment form can be found on the Dakota College website [here](#).

## Readmission of Former Students

Former students who intend to return to the college should notify the Student Services Office at least 30 days before the expected date of re-enrollment. If they haven't attended Dakota College for one year, they must complete a new application for admission form. Readmission of former students who leave the institution and have attended any other institution of higher learning between the time they left and the term they wish to be readmitted is based on the student's entire academic record.

## Admission of Part-Time Students

Students who choose to enroll for less than 12 credits are classified as part-time students. Degree-seeking part-time students will be required to submit the same materials as Full-time first-year or transfer applicants. Part-time students taking classes for self-enhancement and not seeking a degree may have some admission requirements modified.

## Admission of International Students

Dakota College is authorized to accept international students. There is specific documentation that international students must provide to be considered for acceptance. International transcripts and credentials need to be evaluated before they are used for admission purposes. Such an evaluation is the sole responsibility of the applicant, and it must be performed by the Foreign Credentials Service of America (FCSA), a member of the National Association of Credential Evaluation Services (NACES), or the Association of International Credential Evaluators (AICE). All documentation must be translated into English and be received by the admissions office.

Admission requirements are to be met by the published deadlines for non-Canadian international students. Students whose admission requirements are not fully satisfied will not be issued an I-20 immigration form or be able to register until all admission requirements are met.

**Fall Semester Deadline: July 15th (recommended to apply by June 1st)**

**Spring Semester Deadline: December 15th (recommended to apply by Nov 1st)**

## College Credit in High School

High school students may enroll at Dakota college while still in high school. Students wishing to enroll in college credit courses will be required to apply for admission to Dakota College and complete additional paperwork. Dual credit allows high school students to take a college class and earn both high school and college credit for the class.

## Registration

Registration is the process where students enroll in classes and pay their tuition and fees. Registration is held at specific times during each semester; these dates are posted on the [website](#).

At the time of registration, follow these steps:

1. Each student, with the assistance and approval of an advisor, prepares a schedule of classes and completes the necessary forms.

2. Students register online using Campus Connection.
3. The student pays the appropriate tuition and fees at the Business Office at the assigned time. Students whose fees have not been paid are not considered to be officially enrolled.

## Orientation

Orientation is held in conjunction with registration during the fall and spring semesters. At the orientation sessions, students are made aware of important policies and procedures that govern their academic lives. Lack of familiarization with these policies and procedures will not exempt students from whatever penalties they may incur. Thus, it is imperative that all students new to Dakota College attend the required orientation session.

## Student Email Policy

The Dakota College campus community is increasingly dependent upon electronic communication among faculty, staff, and students. Because of its convenience, cost-effectiveness and speed, email has replaced much of the paper correspondence of the past. Because of this acceptance of and reliance upon electronic communication, email is considered an official form of communication at Dakota College. A student's campus-assigned email address will be the only one recognized by the campus for official mailings. The liability for missing or not acting upon important information conveyed via email because of a failure to access a campus-assigned email address rests with the student.

# Summary of Costs

## Payment of Fees

All tuition, fees, books, and room and board charges are payable in full each fall and spring semester by the 12th day of class. Registrations may be cancelled if payment of tuition and fees is not received by the 12th day of class unless prior arrangements have been made with the Business Office. The North Dakota State Board of Higher Education reserves the right to change tuition and other rates at any time.

*The fees listed in this catalog reflect the costs that were in effect at the time the catalog was edited in July 2025.*

## Charges and Expenses

### 2024-2025 Tuition and Fees for Full-Time Enrollment at Bottineau Campus

(12 - 18 credits) Students enrolled in over 18 credits will be charged per credit for all credits over 18.

State of Residency	Per Semester	Academic Year
North Dakota*	\$2745.48	\$5490.96
Minnesota**	\$2745.48	\$5490.96
South Dakota, Montana***	\$22745.48	\$5490.96
WUE States**** (AK, AZ, CA, CO, HI, ID, NM, NV, OR, UT, WA, WY)	\$3204.22	\$6408.44
MSEP States***** (IN, KS, MO, NE, OH, WI)	\$3204.22	\$6408.44
Nonresident	\$3204.22	\$6408.44
Canada	\$2745.48	\$5490.96
International	\$3204.22	\$6408.44

\*The State Board of Higher Education has approved a tuition incentive program for nonresident dependents and spouses of North Dakota University System (NDUS) campus graduates. The program allows qualifying students to attend an NDUS institution at a rate of 150% of the resident tuition rate plus all applicable fees.

\*\* North Dakota/Minnesota Reciprocity Program

\*\*\* Contiguous States Program

\*\*\*\* Western Undergraduate Exchange Program

\*\*\*\*\* Midwestern Student Exchange Program

### Tuition and Fees for Part-time

(11 or less credits)

Students enrolled for less than 12 credits will be charged per credit; the charge is prorated on the tuition and fees assessed full-time students.

State of Residency	Per Credit Hour Charge
North Dakota	\$228.79
Minnesota	\$228.79
South Dakota, Montana	\$228.79
WUE States	\$267.02

## Summary of Costs

State of Residency	Per Credit Hour Charge
(AK, AZ, CA, CO, HI, ID, NM, NV, OR, UT, WA, WY)	
MSEP States (IN, KS, MO, NE, OH, WI)	\$267.02
Nonresident	\$262.43
Canada	\$228.79
International	\$266.62

## Room (Double occupancy)

Room	Per Semester	Academic Year
Gross Hall	\$1563.00	\$3126.00
Mead Hall	\$1563.00	\$3126.00
Milligan Hall	\$1715.00	\$3430.00
Remodeled Room Rate	\$1927.50	\$3855.00
Single Room (Gross/Mead)	\$2180.00	\$4360.00

## Board

All students who reside in a residence hall must purchase a board contract. Both meal plans allow students to dine Monday through Sunday each week.

No deductions are made for absence during the week or holidays.

Meal Plan	Per Semester	Academic Year
15 meal plan	\$2731.16	\$5462.32
19 meal plan	\$3074.11	\$6148.22

## Special Fees

In addition to the charges listed previously, the following fees are charged when and if they apply. These special fees add to the student's cost of attendance. Thus, a review of these special costs is necessary to make an inclusive estimate of attendance costs.

### Application Fee

Fee	Cost
A nonrefundable fee which must accompany each application for admission	\$35

### Auditor's Fee

Levied to individuals who wish to take a course for no credit. This fee shall be 50% of the regular fee for the course. Persons 65 years of age or older may audit courses on the regular class schedule at no charge on a space available basis.

### Housing Application Fee

Fee	Cost
A nonrefundable fee must accompany each residence hall application fee	\$50.00
<b>Parking Registration Fee</b> A nonrefundable fee charged to any student parking a vehicle on campus	\$40.00

## Academic Fees

Fee	Cost
Diagnostic Medical Sonography program fee per semester	\$500.00
Paramedic Technology Program fee per semester	\$500.00
Nursing Program fee per semester	\$500.00
Dental programs fee per semester	\$500.00

## Nursing Fee

Fee	Cost
Assessed to students registered for NURS 122, NURS 124	\$480.00*
Assessed to students registered for NURS 277, NURS 237	\$743.00*

\*Fee changes each year. Fees are updated in July. Contact the institution for the most up-to-date fees.

## Books and Supplies

Expenditures for textbooks, instructional material and supplies must be figured into the total cost of attendance. This figure will vary depending upon a student's curriculum. The Financial Aid Office uses the following figure when estimating the cost of materials for an academic year: \$1000.00

## Miscellaneous Expenses

Students must estimate the amount of money they will spend for such diverse items as recreation, clothing, etc. The amount will vary by individual student. The Financial Aid Office uses the following figure when estimating miscellaneous expenses for an academic year: \$2200.00

## Transportation Expenses

Students must estimate the amount of money they will need to travel to and from college. Financial Aid Offices uses the following figure when estimating transportation expenses for the 2025-2026 Academic Year: \$1382

# Calculating College Costs

From the cost information given, students can estimate their total college expenses. The following groups of expenditures should be recognized when planning a college budget: (1) tuition, fees, and instructional material; (2) room and board; (3) miscellaneous expenses – recreation, clothing, etc. (4) transportation expenses. Because of individual differences among students, cost of attendance can show considerable variation, even at the same college. However, an approximation can be made using the information presented.

# Refunds of Tuition and Fees

## Course Drops (withdraw from some, but not all classes; remain enrolled):

Any student who drops a class within 8.999% of the calendar days for a class shall receive a 100% refund of tuition and fees for the credit hours dropped below 12 credits. There is no refund if the student has 12 or more credits (units) after dropping. After 8.999% of the calendar days of a class, or proportionate period of a term, no refund shall be made for a class which is dropped. However, classes of the same or fewer credits (units) may be substituted for the dropped class at no additional tuition and fee charge. If adding classes results in an increase in credit (unit) hours or if an added class requires a special course fee, the institution shall charge the student for the additional credits (units) and any special course fee.

## Official Withdrawal (withdraw from all classes; no longer enrolled):

Official withdrawal is the process used by students when they drop all coursework in a semester by completing the Cancel/Withdraw to Zero eForm located in Campus Connection. Refunds of tuition and fees can be estimated by using the following information:

- 100% refund through 8.999% of the class length
- 75% refund from 9.00% through 34.999% of the class length
- 50% refund from 35.00% through 59.999% of the class length

- 0% refund from 60.00 % through 100% of the class length

If a student drops courses after 8.999% but does not withdraw from all courses, the student will only receive the tuition and fee refund on the classes still enrolled when the official withdrawal is processed.

## Resident/Nonresident Tuition

Students who are not residents of North Dakota but wish to declare residency for tuition purposes will be required to complete the Resident Student Status eForm located in Campus Connection. The completed form will be used to determine residence for tuition purposes.

## Minnesota Tuition Reciprocity

Legal residents of Minnesota who have been accepted into the reciprocity program will pay reduced tuition at Dakota College. The tuition rates are reviewed periodically and are subject to change. Minnesota residents must complete the application for reciprocity benefits. Contact the Student Service Office or go to [www.ohe.state.mn.us](http://www.ohe.state.mn.us)

## Contiguous States Tuition Policy

The North Dakota State Board of Higher Education has approved a “contiguous states” policy for students from Montana and South Dakota. Under this program, students from these states pay a “contiguous states” rate.

## Western Undergraduate Exchange States Tuition Policy

The Western Undergraduate Exchange (WUE) provides for a special tuition rate for nonresident students from participating states. Currently, the following states participate Alaska, Arizona, California, Colorado, Hawaii, Idaho, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming.

## Midwestern Student Exchange Program Tuition Policy

The Midwestern Student Exchange Program (MSEP) provides a special tuition rate for non-resident students from participating states. Currently, the following states participating are Indiana, Kansas, Missouri, Nebraska, Ohio, and Wisconsin.

## Tuition Incentive Program

The State Board of Higher Education has approved a tuition incentive program for non-resident dependents and spouses of North Dakota University System (NDUS) campus graduates. The program allows qualifying students to attend an NDUS institution at a rate of 150% of the resident tuition plus all applicable fees.

---

# Student Services and Campus Life

## Financial Aid at Dakota College at Bottineau

Dakota College, through federal financial aid programs and local resources, attempts to provide adequate financial assistance to students who demonstrate a legitimate financial need. The Free Application for Federal Student Aid (FAFSA) must be completed by all students requesting assistance from Dakota College. The application is available online at [studentaid.gov](https://studentaid.gov).

Students interested in applying for financial aid should go to: <https://www.dakotacollege.edu/admissions-financial-aid/apply-financial-aid>. Students should contact the Financial Aid Office for questions.

### Applying for Aid

**All students are urged to apply for aid!**

Applicants must:

1. Complete the Free Application for Federal Student Aid (FAFSA). The application is available electronically at [studentaid.gov](https://studentaid.gov). Dakota College's code is 002995.
2. Respond immediately to any request for additional information needed by the Financial Aid Office.

Federal financial aid applications for fall enrollment that are processed on or before our priority/processing date will be given first consideration for federal, state, and institutional financial assistance. Applications received after our priority/processing date will be considered on a fund available basis.

Students should apply as soon as possible after the FAFSA opens each year. **SOME FUNDS ARE LIMITED!** Priority processing dates may change based on the federal FAFSA opening date.

### Financial Aid Programs Available

Programs requiring the FAFSA application for determination of eligibility are:

1. **Federal Pell Grant** - A federal entitlement program, Pell grant provides funds to students who demonstrate a financial need in meeting college costs. As a grant, it does not need to be paid back if students adequately meet eligibility standards.
2. **Federal Supplemental Educational Opportunity Grant (FSEOG)** - These grants are available to a limited number of undergraduate students with exceptional needs and will be offered only to students who qualify for Pell Grants.
3. **Federal Work Study (FWS)** - Students eligible for financial aid may receive FWS for the year. A variety of jobs are available on campus and a list of positions is made available to students upon being offered work study.
4. **Direct Loans (Subsidized Federal Stafford Loan)** - Students may be eligible to receive a fixed low interest guaranteed student loan from the federal government. Currently, depending upon eligibility a student may be able to borrow up to \$3,500 per year as a freshman or \$4,500 as a sophomore.
5. **Unsubsidized Federal Stafford Loan** - The Unsubsidized Stafford Loan is a non-need-based loan program. Students who may not be eligible for any or all of the Subsidized Stafford Loan Program may be offered a loan through the Unsubsidized Loan Program. Interest will not be deferred while the student is attending college; therefore, the student must pay the interest while attending college.
6. **North Dakota State Grant** - The program provides grants to undergraduate students. To be eligible, the student must be a resident of North Dakota, a high school graduate, or hold the Graduate Equivalency Diploma (GED), and be able to meet all requirements for admission as a student of an eligible institution. The FAFSA serves as the application for the program.

### Aid Programs Requiring Additional Applications:

1. **Federal Parent Loan for Undergraduate Students (FPLUS)** - Parents may be able to borrow low-interest educational monies for their children to attend college. Repayment begins 60 days following the disbursement.

2. **Alternative Loan** - If the amount of financial aid offered is not enough to cover educational expenses, alternative loans are available. Alternative loans are offered by for-profit loan companies. While payments may be deferred during the time a student is enrolled in college, interest on the loan will accrue. Therefore, students should exhaust all other possible resources (e.g., income from a job, parental assistance, money from savings, etc.) before seeking an alternative loan.
3. **Part-Time Employment** - Dakota College provides several part-time jobs not associated with any federal program. Jobs are on campus and include maintenance, library work, secretarial work, food service, teachers' aides, and many more.
4. **Scholarships** - Students may qualify for any number of scholarships offered by both private parties and the Dakota College Foundation or Alumni Association. Scholarships are funded from the income of endowed funds as well as annual gifts.

If interested in additional information concerning institutional scholarships and applications, contact the Financial Aid Office. Dakota College uses one scholarship application form which students can use to apply for institutional scholarships. The scholarship application is located on the website at [www.dakotacollege.edu](http://www.dakotacollege.edu).

## Financial Aid Offers

The target date for financial aid offers is June 1. However, students must have submitted ALL information needed before offers can be made.

Offers are based upon federal appropriations and may be reduced or increased proportionately depending upon the availability of funds and a student's enrollment status at any time during the academic year. It is not always possible to offer students the amount or type of aid which they request or for which they are eligible. Federal regulations make it necessary to combine various forms of aid to best meet the needs of the students. However, students have the right to accept or decline any or all the aid offered. Students accept or decline their offers through their Campus Connection Account.

Admission requirements as stipulated in the college catalog must be met before any funds can be released to the student for payment of fees. OFFERS MAY BE CANCELLED IF THE STUDENT DOES NOT RESPOND; however, if extenuating circumstances prevail, exceptions may be made.

## Satisfactory Academic Progress

### Requirements

To ensure compliance with federal regulations, the following policies governing standards of satisfactory progress for all students attending Dakota College and requesting federal student financial assistance are effective with the beginning of classes for the academic year. They are as follows:

1. **Qualitative Academic Standards Grade Point Average (GPA)**
  - a. At the end of each semester, all student GPAs are evaluated at Dakota College. To meet the GPA average requirements, a student will need to have a cumulative grade point average of the following:
    - Minimum Cumulative GPA Required:
      - 1st Semester: 1.60
      - 2nd Semester: 1.75
      - After 3rd semester students must have a cumulative GPA of 2.00.
2. **Maximum Time Frame** - Students enrolled at Dakota College are eligible to receive federal student financial assistance for the maximum number of earned and attempted credits specified below:
  - One-Year Program: 45 credits
  - Two-Year Program: 90 credits

*These guidelines are approximate and can vary by individual program requirements.*
3. **Completion of Attempted Credits** - To maintain satisfactory academic progress for federal financial aid purposes, undergraduate students must complete a minimum of two-thirds (i.e., 66.67%) of the credits attempted in an academic year and reflect a grade average at the end of each term that is equal to or greater than the College's Academic minimum requirements. Grades of Failed (F), Unsatisfactory (U), Incomplete (I), and Withdrawn (W) count as credits attempted but not completed and will be applied toward the maximum number of credits specified in the policy.

## Appeal Procedures

Students who wish to appeal the cessation of funds must complete and submit a Satisfactory Academic Progress Appeal Form, located in Campus Connection > DCB eForms > Financial Aid and indicate the reason for failing to meet the progress requirements. Students can reestablish eligibility for federal programs by meeting the criteria outlined in the Standards of Satisfactory Progress Policy which will be provided upon request and at the beginning of each academic year.

## Frequency and Means of Payment for Students Who Receive Financial Aid

Dakota College uses financial aid crediting to disburse financial aid to students each semester. Students must be registered for classes before aid can be disbursed.

Students who accept employment under Federal Work Study or part-time work will be paid by check/EFT twice a month. New hire paperwork must be completed before a paycheck is processed. Hours worked will be tracked by punches in and out of the HRMS system.

Federal Stafford Student Loans are electronically transmitted and credited to the student's account for disbursement.

## Refund and Repayment Policy Statement

A student who received funds under federal student aid programs during an academic year may be expected to repay a portion of these funds should the student officially or unofficially withdraw from classes before the 60% completion date.

Furthermore, any refunds of tuition and/or room and board payable to a student who withdraws during this period will be applied to this repayment obligation unless the student opts to pay the amount due in full at the time of withdrawal. Should the amount of the student's refund exceed the repayment obligation, the excess amount shall be paid to the student. The refund/repayment policy is available upon request at the Business Office.

## Student Housing and Food Services

Student housing facilities at Dakota College include three residence halls: Mead Hall (men only), Gross Hall (women only), and Milligan Hall (co-ed). All students residing in campus housing are required to purchase a meal plan contract.

## College Residence Halls

All full-time unmarried students under the age of 21 who do not have dependents residing with them are required to live and board in college housing or live at home with their parents or legal guardians and commute to school. See Residence Life Handbook for exceptions to the Housing Policy. Commuting students will be required to complete a form verifying that they are living at home. Dependents are defined as individuals claimed on the most recent federal tax forms. Newly admitted students must provide documentation of all immunizations in accordance with NDUS policy 506.1.

College residence halls for men and women are designed to provide comfortable living quarters for students while they are enrolled and promote the personal and social development of students through group living. Each residence hall has a full-time Head Resident, assisted by student Resident Assistants.

Hall and room assignments are made in accordance with an established priority system. Furnishings include study desks, individual beds, dressers, and chairs. Internet access and a mail service is also provided.

## Payment and Refund/Room and Board

Students residing in the residence halls sign a contract which is in effect for the entire academic year. Students make payment on a semester basis. Students vacating their assigned room before the end of the contract term can be held responsible for the entire charges of the contract period.

Students whose registration is cancelled for any reason are required to vacate their rooms immediately. Only enrolled students may occupy residence hall rooms. Before the 60% point of an enrollment period, room and board will be refunded on an instructional week pro rata basis. If a student uses the residence hall or food service one day into an instructional week, this will constitute an entire instructional week and the student will be charged accordingly. Refunds are made only after a student has properly checked out of the residence halls and has returned their room keys. After the 60% point of an enrollment period, there will be no refund of the room fee; board refunds will be made on a pro rata basis to the end of the term.

## Bookstore

The bookstore is in Thatcher Hall. Students may purchase books and other school supplies in this facility. The bookstore also sells Dakota College clothing, novelties, and a variety of drinks and lunch items.

## The Library

The library is located on the first floor of Thatcher Hall. In addition to leisure reading areas, the library provides the students with computer access, printing, and study areas including separate cubicles for quiet study of group work. The physical book collection numbers more than 15,000 items; in addition, the library has access to multiple subject database collections to provide students with the most up-to-date information.

The Dakota College Library is a member of the Online Dakota Information Network (ODIN). This computerized state-wide database allows instant access to holdings of more than 70 North Dakota libraries including public, college, school, and special libraries. The library also houses Tutoring Services for students. The primary purpose of the Dakota College Library is to support the mission of the institution. The library provides services and resources necessary to meet the education and informational needs of the Dakota College community, as well as the needs of Bottineau and the surrounding communities.

## Counseling Service

Dakota College at Bottineau provides the opportunity to students, part-time and full-time, the ability to reach out for free Mental Health Services. These services are provided within a timely manner and can be utilized throughout the entirety of a student's time at DCB. Services are primarily provided in Molberg Room #6, also known as DCB's Relaxation Room. This space provides students with a quiet peaceful place to relax and find their inner momentum to continue on in their journey. DCB Mental Health Services Team is comprised of Corey Gorder, MS, LPCC and Hannah Hoffert, MS. Their offices can be found in Thatcher Hall, Hannah's office is located near the elevator on the first floor.

## International Health Insurance

International students are automatically enrolled by semester in the student health insurance plan by their institution. A student may opt-in to NDUS health insurance coverage prior to automatic enrollment to expedite confirmation of coverage. The premium cost is billed to the international student's Campus Connection account. If an international student wants to waive this health insurance coverage, comparable coverage must be in place and verified through the waiver process.

## Student Responsibility in Academic Advising

To be assigned an advisor, students must first complete all admission requirements for their intended program. An advisor is initially assigned to a student during the student activation process by the Admissions Office.

Academic advisors are assigned based on the student's selected degree and subplan.

Students are responsible to do the following:

- Clarify personal values, abilities, interests, and goals.
- Contact and make appointments with advisors at least twice per semester when required or in need of assistance. If it is not possible to keep a scheduled appointment, the advisee must notify their advisor.
- Become knowledgeable and adhere to institutional policies, procedures, and requirements.
- Inform advisor of academic progress and meet with advisor before making schedule changes that may affect academic progress.
- Prepare for advising sessions and bring appropriate resources and materials.
- Follow through on actions identified during each advising session.
- Strive to meet a minimum GPA of 2.5. If GPA falls below 2.0 or midterm grades are a C or below, advisees must meet more frequently with advisor to develop a plan of action.
- Check email account daily and respond promptly to all messages including emails, texts and phone calls from academic advisor.
- Participate in tutorial services as recommended.
- Request re-assignment to a different advisor when there is a conflict or program change.
- Accept final responsibility for all decisions.

## Student Concerns

### Dakota College at Bottineau Student Complaint Policy

As a regionally accredited institution, Dakota College at Bottineau has a [Student Complaint Policy](#). The Student Complaint Policy, also published in the [Student Handbook](#), outlines the appeal process for administrative and academic concerns and is applicable to all Dakota College students.

### The North Dakota University System and Higher Learning Commission of the North Central Association of Colleges and Schools

Student complaints not resolved through the College's procedures above may be presented to the North Dakota University System by calling 701-328-2960 or going to the [North Dakota SARA Portal](#).

Concerns regarding the college's compliance with the [Standards for Accreditation](#), not a specific student complaint, may contact Dakota College at Bottineau's regional accrediting agency, the North Central Association of Colleges and Schools. For information on this process, please consult [Complaints Against Affiliated Institutions](#). For guidance on filing a complaint, email [complaints@hlcommission.org](mailto:complaints@hlcommission.org).

### The Department of Education Oversight

The Higher Education Opportunity Act (Public Law 110-315) (HEOA) was enacted on August 14, 2008, and reauthorizes the Higher Education Act of 1965, as amended (HEA). The Higher Education Opportunity Act of 2008 (HEOA) contains numerous federal reporting and disclosure requirements for information from various administrative areas of higher education institutions.

### Dakota College at Bottineau Response

Dakota College at Bottineau is currently working cooperatively with higher education authorities in other states and U.S. jurisdictions to ensure compliance with the authorization requirements that govern online courses and programs offered in those states or jurisdictions. Dakota College at Bottineau monitors authorization requirements the states and jurisdictions in which it enrolls online students, and, if authorization or licensure is or becomes necessary, works with those jurisdictions to obtain approval. In addition, Dakota College complies with federal regulations by publishing complaint processes on its campus website.

### Complaint Resolution for Online, Out-of State Students

Dakota College at Bottineau is required to have contact information on its website for out-of-state students who want to file a complaint within their home state. This list is subject to change and the college is working with a number of national organizations to update it as needed.

To find the complaint form for your state's Department of Higher Education, open this [online document](#), then locate and select the link for your home state. If an agency is not listed for your state, you may contact the Department of Education, Department of Higher Education, or the Attorney General's office in your home state. This option is available regardless of whether or not Dakota College at Bottineau is required to be registered in the state.

## Student Conduct

Each student has a responsibility to observe and to maintain a code of personal behavior and social relationships which will contribute to the educational responsibility of Dakota College. The conduct of a student is expected to reflect a responsible attitude toward campus regulations as well as the laws of the community, the state, and the nation. These standards apply to all students for as long as they are a part of the academic community and may be higher than the behavioral expectations of society at large. Cases of misconduct will be investigated by the Student Conduct Committee and the Associate Dean for Student Services. When necessary, appropriate actions will be taken to sanction students who violate the school's conduct code. The written policies on student conduct are published in the Student Handbook and on the website at <https://www.dakotacollege.edu/handbook/>

## Student Senate

The Student Senate organization represents the student population at Dakota College. It is comprised of a president, a vice president and secretary/treasurer who are elected during the fall semester. The organization acts as a liaison between the students and the administration, faculty, and the State Board of Higher Education. The Senate promotes student participation in all college activities.

## Student Center

This facility includes the dining center, game room, theatre room, and lounge area with two large screen TVs. Games tables include billiards, ping pong, foosball, and air hockey. The Campus Nurse's office is in the Student Center.

## Varsity Athletics

Dakota College strives to provide a comprehensive intercollegiate athletic program for both men and women. The team names are the Lumberjacks. The men participate in basketball, baseball, and hockey. The women participate in basketball, volleyball, fast-pitch softball, and women's hockey. Clay Target Shooting is a club sport which is co-ed. The basketball teams, baseball team, volleyball team and fast-pitch softball team are members of the Mon-Dak Athletic Conference. All teams are members of the National Junior College Athletic Association, except for hockey which is a member of the American Collegiate Hockey Association (ACHA). Any student who is academically and socially eligible and who qualifies under National Junior College Athletic Association regulations may try out for a varsity sport.

## Intramural Athletics

A program of intramural athletics is provided, and any enrolled student may participate in intramural sports. Activities the program has sponsored include but are not limited to floor hockey, volleyball, basketball, flag football and dodgeball.

## Eligibility/Representing Dakota College

Students may not represent Dakota College unless they are enrolled in 12 or more credit hours. (In special cases, group or organization advisers can make exceptions to this general regulation.) Representing Dakota College in intercollegiate athletics or other extracurricular activities is a privilege awarded only to students of good academic and social standing, although exceptions may be granted by the College Dean in unusual cases. Good academic standing includes meeting performance and attendance standards set by instructors for their courses and successful performance in most classes as demonstrated by midterm progress reports. In a like manner, good social standing involves more than merely being free from disciplinary probation. It includes a record of good conduct, both on and off campus. Students who are involved in frequent or serious misconduct, whose activities lead to arrest or detention by civil authorities, or whose overall demeanor and attitude are subject to sanctions will prohibit them from representing the institution. Advisors to student groups, instructors who sponsor field trips, and coaches of intercollegiate athletic teams reserve the right to set standards for their students. DCB follows the standards set forth by the NJCAA and ACHA.

## Military Students

Dakota College offers many benefits to provide a seamless college education, regardless of location. The following is a listing of benefits pertaining to military students, spouses, and veterans:

- Credit for Basic Training
- CLEP Exams
- Reduced Tuition (selected courses)
- Online Programs
- Online Advising
- VA Education Benefits
- Tuition Assistance

In compliance with the Veterans Benefits and Transition Act of 2018, section 3679 of title 38, Dakota College will permit any covered individual to attend or participate in the course of education during the period beginning on the date on which the individual provides to the educational institution a certificate of eligibility for entitlement to educational assistance under chapter 31 or 33 (a "certificate of eligibility" can also include a "Statement of Benefits" obtained from the Department of Veterans Affairs' (VA) website – eBenefits, or a VAF 28- 1905 form for chapter 31 authorization purposes) and ending on the earlier of the following dates:

1. The date on which payment from VA is made to the institution.
2. 90 days after the date the institution certified tuition and fees following the receipt of the Certificate of Eligibility (COE).

NOTE: A covered individual is any individual who is entitled to educational assistance under chapter 31, Vocational Rehabilitation and Employment, or chapter 33, post-9/11 GI Bill™ benefits.

Dakota College will not impose any penalty, including the assessment of late fees, the denial of access to classes, libraries, or other institutional facilities, or the requirement that a covered individual borrow additional funds, on any covered individual because of the individual's inability to meet his or her financial obligations to the institution due to the delayed disbursement funding from VA under chapter 31 or 33."

## Academic Center for Excellence (ACE)

The Academic Center of Excellence provides supportive services to help students achieve their academic and career goals by providing academic, disability, and career services. Students are encouraged to utilize an array of services available. Academic support is provided for all students free of charge and individualized or small group tutoring sessions are available in all subjects. The Academic Center for Excellence is in Thatcher Hall, Room 1104 and the Library.

- Advising
- Assistance with class scheduling
- Basic computer assistance
- Blackboard assistance
- Career services
- Disability support services
- Free tutoring
- Library services
- Math Lab
- Study space
- Writing Center

## Career Services

Career services including career guidance, employment announcements and job search assistance are available Through the Academic Center of Excellence. Students can participate in individually structured guidance activities or take career development classes for college credit. The goal of both the individualized guidance sessions and the career development classes is to help students make career decisions and develop educational plans.

## Accessibility Services

Disability Support Services is here to assist students with documented disabilities under Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990. We offer needed support services and reasonable accommodations, provide options for equal access and opportunity, and collaborate with students, faculty, and staff on delivery of accessibility resources to ensure your successful experience at Dakota College.

---

# Academic Information

## Full-Time Student

A full-time student is one who has satisfied admission requirements and is enrolled in at least 12 semester hours of credit.

## Part-Time Student

A part-time student is one who has satisfied admission requirements and is enrolled in less than 12 semester hours of credit.

## Non-Degree Student

A non-degree student is any student who is not pursuing a degree or has not met admission requirements. Non-degree students who later decide to earn a degree must submit a new application for admission to select a program of study and satisfy admission requirements.

## Freshman/Sophomore

A Freshman is a student who has satisfactorily met all entrance requirements and has earned less than 24 credits.

A Sophomore is a student who has satisfactorily met all entrance requirements and has earned 24 or more credits.

## Auditor

An auditor attends class as a listener without the privilege of participating in regular class work. An auditor may participate in class activities at the discretion of the instructor. A student may change their status in a course from “credit” to “audit” or vice versa up through the last day to add for the term. This must be done on the form Request to Audit a Class, available on the website under Student Forms. No credit is awarded for an audited course, and an auditor may not later establish credit in that course by taking a special examination. An auditor must meet entrance requirements and follow all standard admissions procedures. An auditor pays 50% of the regular, per credit tuition charge for the course. No financial aid will be awarded for courses that are audited. Persons 65 years of age or older may audit on-campus courses at no charge on a space available basis.

## Prior Learning

Students possessing professional training, certificates and licenses may earn degree credit. Dakota College uses ACE (American Council on Education) guidelines to evaluate prior learning.

### Student Responsibilities

1. Review and identify listing of professional training and certificates recognized by ACE.
2. Gather documentation of successful completion of professional training or certificates.
3. Complete an application for prior learning, indicating the ACE recognized certificate/training for which evaluation is requested. It is important to indicate for which Dakota College course the training/certificate aligns with.
4. Submit materials to the program advisor.

### Program Advisor Responsibilities

1. Confirm the training documentation aligns with the Dakota College course per the “ACE/DCB Matrix” and indicate whether the request is approved/disapproved.
2. Provide a copy of the completed application and documentation to the Registrar.
3. Maintain a copy of the application on file.

### Degree Credit Quick View

If the method is:	The process includes:	Fees associated with this method:
Advanced Placement (AP) College Level Examination (CLEP) International Baccalaureate (IB) DANTES Specialized Subject Tests (DSST)	Students complete the exams and submit results to the Registrar. College credit is awarded based on NDUS Policy 403.7.4 Common Credit by Exam Guidelines	Students pay for all fees associated with the AP, CLEP, IB and DSST courses and/or exams. Dakota College does not charge transcription fees for these credits
Professional Training/ Certification Credit	Students provide a copy of the certification or training. Dakota College uses CAEL and ACE recommendations for recognized training and certificates. Course instructors may require an assessment to calculate a grade for the course which prior learning is requested.	Portfolio Evaluation: \$30 per credit hour Articulated Credit Fee: \$30 per credit hour
Military Training	Provide an official copy of military transcripts according to the branch of military service. The registrar's office processes military transcripts. Exception: Successful completion of basic military training is accepted as transfer as HPER 100 Concepts of Wellness and Fitness.	Provide an official copy of military transcripts according to the branch of military service. The registrar's office processes military transcripts. Exception: Successful completion of basic military training is accepted as transfer as HPER 100 Concepts of Wellness and Fitness.
Experiential Learning Portfolio	Students must have five years of documented work experience in a directly related field. Students successfully complete CARS 110 Experiential Learning Portfolio Development to develop an Experiential Portfolio. Dakota College content experts evaluate student experience per the Experiential Learning Portfolio guidelines.	Students pay tuition for CARS 110  Experiential Learning Portfolio Development (1 credit). Students successfully complete 50% of current N.D. resident tuition rates.

## First Year Experience

All new freshman students at Dakota College are required to enroll in UNIV 105 First Year Experience. An exception to this requirement will be made for transfer students who have earned 24 college-level credits prior to attending or who have successfully completed a similar freshman orientation course for credit at another higher education institution. The course orients students to college and examines topics that are important for student success and positive student outcomes.

## Student Placement into College Courses

Dakota College uses ACT, SAT, Accuplacer, and other approved test scores to determine the placement of students into English and mathematics courses as outlined in NDUS Procedure 402.1.2. For placement purposes, ACT and SAT scores have an expiration date of five years and Accuplacer scores have an expiration date of two years. As a school that subscribes to and believes in open access, Dakota College admits students at varying developmental and skill levels. To help foster student success, it is important that students are placed in the appropriate level of mathematics and English coursework.

## The Unit of Credit

Dakota College defines a credit hour as an amount of work represented in intended learning outcomes, and verified by evidence of student achievement that reasonably approximates not less than:

1. Forty-five to fifty (45-50) minutes of classroom or direct faculty instruction and a minimum of two hours of out-of-class student works each week for approximately fifteen weeks during one semester.
  - a. Over a sixteen-week semester this is equivalent to one 45-50-minute period of classroom or direct faculty instruction and two hours of out-of-class work each week for approximately 15 weeks plus a final exam period for all classes requiring a final exam.
  - b. Classes scheduled as shorter sessions will meet the equivalent amount of classroom or direct faculty instruction time per credit as full semester length classes.
2. At least an equivalent amount of work as required in paragraph (1) of this definition for other academic activities as established by Dakota College, including laboratory work, internships, practicum, studio work, and other academic work leading to the award of credit hours.

## Grades

The following marks or symbols will appear on students' grade reports and transcripts; they indicate quality of work:

Grade	Quality
A	Excellent
B	Good
C	Average
D	Poor
F	Failure
S	Satisfactory
U	Unsatisfactory
I	Incomplete
W	Withdrawal - This grade will be assigned when a student drops a course after the 10 <sup>th</sup> calendar day of fall semester and 11 <sup>th</sup> calendar day of spring semester (summer and eight-week session dates are prorated). If a student is administratively withdrawn from a class due to non-attendance after the 12 <sup>th</sup> calendar day of the semester (summer and eight-week session dates are prorated) this grade will be assigned. The published refund policy will apply to administrative withdrawals. This grade is also assigned when students withdraw from the institution, regardless of date.

## Grade Point Average and Points

The grade point average serves as an index number for measuring the scholastic average of students. A 4.00 system is used with different levels of grades carrying different numbers of points:

Grade	Points per credit/unit
A	Four points per credit/unit
B	Three points per credit/unit
C	Two points per credit/unit
D	One point per credit/unit
F	Zero points

The grades "I," "W," "S" and "U" are not used in calculation of the grade point average. Grades from courses numbered 99 or below are also not used in the calculation of the grade point average.

The semester grade point average is obtained by dividing the number of points earned by the number of credits/units attempted in a particular semester at Dakota College. The cumulative grade point average is obtained by dividing all points earned throughout enrollment at Dakota College by the number of credits attempted throughout enrollment.

A summary of credits accepted from other institutions appears on the official Dakota College transcript; transfer courses and grades are not listed on the official transcript. Transfer courses and grades are, however, listed on the unofficial transcript. Grades from transfer courses accepted are not included in the cumulative grade point average. The exception to this policy is for collaborative students whose cumulative grade point average will include grades from transfer collaborative courses.

## Credit by Exam

### Advanced Placement (AP) and College Level Examination

Program (CLEP) - Results from AP and CLEP tests may yield scores which earn credit at Dakota College. Interested students may inquire at the Student Services Office regarding what scores are required and how AP and CLEP credit could be applied toward degree requirements. AP and CLEP credits are graded "S." Thus, they do not affect the student's grade point average.

## Internship

An internship is required of most students who intend to graduate from a Career & Technical Education (CTE) program. However, participation in the program is not limited to any specific major. Students in any major can participate in the program. The internship program integrates classroom education with successive, career related work placements.

## Incomplete Work

Incomplete grades (I) are assigned only to students who have been in attendance and performed satisfactory work up to a time within three weeks of the close of the semester, and whose work is incomplete for reasons acceptable to the instructor. The student must fulfill all requirements of the course 30 calendar days from the date that final grades were due in the semester in which the “I” was received. Eight-week sessions have a 15-calendar day requirement. If the “I” is not removed by this time, the grade is automatically changed to “F.” Students are responsible for removing incomplete grades from their record.

## Course Repetition

A course may be repeated; however, previous course work will not be removed from students’ records. When a course is repeated, only the last grade earned will be used in the cumulative grade point average. All credits attempted, including repeated courses, will be used in determining satisfactory financial aid progress. Credits will not be duplicated for repeated courses.

## Course Cancellation

The college administration reserves the right to cancel any course that appears on a semester class schedule that it deems to have insufficient enrollment.

## Academic Forgiveness

A former student who has not completed a Certificate of Completion, Certificate, Diploma, or Associate Degree and has not attended Dakota College for four or more years, may request to exclude from GPA calculations all grades earned in selected full quarters or semesters completed prior to the four-year interval. Such courses and grades will remain on students’ academic record, but grades will be excluded from GPA calculations. Excluded courses cannot be used to satisfy any academic requirements. Academic forgiveness may affect eligibility for federal financial aid. Prior academic standing of a student will not change because of Academic forgiveness.

A student may exercise this option only once by submitting the academic forgiveness form to the Registrar’s office. If approved credits, honor points, and grades will be excluded from grade point average calculations, but courses and grades will remain on the student’s record. The student will be notified of the results; this process may take up to four weeks.

## Grade Appeals

A grade appeals procedure has been established for cases in which a student believes their grade does not reflect academic performance. Within three calendar weeks following the issuance of the grade in question, the student shall confer with the instructor who issued the grade and outline the reasons why they believe the grade is incorrect. Following the student-instructor conference, the instructor shall advise the student of the outcome of the course grade review and shall process a grade change if appropriate.

If the student still considers the grade to be incorrect, the student may appeal the grade to the Associate Dean of Academic Affairs within fourteen calendar days following the student-instructor conference. The complete grade appeals policy and procedure is available in the Student Handbook found on the website at [www.dakotacollege.edu](http://www.dakotacollege.edu). Students may also contact the Associate Dean for Academic Affairs regarding questions relating to the grade appeals policy.

## Final Exams

A final examination will be given in all classes that are scheduled at a specific time and a specific day on the semester class schedule. Instructors who choose not to give a final examination will acquire prior approval from the Associate Dean of Academic Affairs; they will inform the Associate Dean of Academic Affairs what instrument they are using in lieu of a final exam. The rescheduling of a test for an entire class will necessitate prior approval from the Associate Dean of Academic Affairs.

## Midterm Deficiencies and Final Grades

Instructors submit midterm grades for all students during the 8th week of the semester. Final grades are submitted following the completion of the term. Midterm and final grades are available for students to view through Campus Connection. Final grades are generally available in Campus Connection approximately 7–9 business days after the last day of the term.

## Dean's List and Honor Roll

Students whose grade point average is 3.50 or greater are placed on the Dean's List; those with a grade point average of 3.00 up to 3.49 are placed on the Honor Roll. Students must be registered for a minimum of 12-degree credits at Dakota College to qualify. The semester grade point average is used to determine who will be included.

## Honors Program

The Honors Program provides an environment of academic excellence for students who demonstrate high potential and to educate and develop them for a life devoted to learning. Students will work collaboratively with each other as well as faculty and will leave the program with an enriched collegiate experience.

### Honors Program Objectives

- Demonstrate writing and speaking skills at the highest academic level
- Develop strong communication skills
- Form relationships with other students and mentors who share their interests and dedication to learning
- Develop strong analytical and research skills

Dakota College views its Honors Program as another tool to help it fulfill and enhance its mission, core values, goals and objectives, vision, and focus. The institution promotes personal enrichment through engaged learning in all its programs and services.

### For more information contact:

Keri Keith, Professor

[keri.keith@dakotacollege.edu](mailto:keri.keith@dakotacollege.edu)

## Attendance

Students are responsible for understanding and complying with the specific attendance requirements of their instructors. Students are also responsible for explaining the reason for any absences to their instructors. If possible, the student should contact the respective instructor prior to any absence. No absences are “excused” in the sense of relieving the student from the responsibility of making up missed work.

Dakota College recognizes the value of participation in extracurricular activities. Thus, a student can be excused from class in the case of approved functions. In such instances, the faculty member in charge of the extracurricular activity should inform the students' instructors of the reason for the class absence. Only class instructors can excuse students from class for reasons other than participation in approved functions.

## Graduation Requirements

Graduation ceremonies are held at the end of the spring semester of each academic year. Students who will not complete their course work until after the summer following graduation may participate in the previous spring's graduation exercises. However, their diplomas or degrees will not be awarded until all requirements have been completed. The requirements for graduation are as follows:

1. Earn at least 60 credits for either the Associate of Science degree, the Associate of Arts degree, or the Associate of Applied Science degree and fulfill the general education requirements for the respective degree.
2. For the AS degree, satisfy the additional math, science, and technology credit requirements. Only one AS degree will be awarded.
3. For the AA degree, satisfy the additional social science credit requirements. Only one AA degree will be awarded.
4. Earn the specified number of credits listed in the catalog curriculum outlines for the certificate or certificate of completion.
5. Earn a minimum cumulative grade point average of 2.00. Candidates for a certificate of completion must earn a 2.00 GPA in the prescribed career/technical curriculum.
6. Satisfy all entrance requirements.
7. Satisfy the course requirements suggested in the curriculum outlines of the institution's catalog. Curricular requirements may be modified for reasons satisfactory to the respective advisor
8. Make a formal written application for the degree, certificate, or certificate of completion.
9. Have removed, prior to the date of graduation, all financial and academic obligations.
10. Satisfy the academic residence requirement. To complete a degree, students may supplement resident credits with transfer credits after their last term of enrollment at Dakota College.

## Digital Literacy Requirements

All associate degrees offered by Dakota College at Bottineau (DCB) require students to meet the digital literacy standard as identified in SBHE Policy 461. Students may accomplish this requirement through any of the following instructional methods: successful completion of one of the courses outlined in the DCB Digital Literacy policy, or successful completion of a non-credit self-paced module, or successful completion of an approved course through the Dakota Digital Academy, or successful completion of this requirement at another North Dakota University System (NDUS) institution.

The student's advisor will determine which credits in transfer are appropriate to complete the major program. Students seeking a degree from Dakota College, who have already earned a baccalaureate degree from an accredited college or university, will be considered complete with respect to their general education requirements. However, specific general education classes which are also considered program requirements with respect to specific majors for licensure or certification program requirements will need to be completed before the degree will be granted.

## Academic Residence and Time-Limit Requirements

It is the policy of Dakota college that for students to be eligible for an Associate of Science, Associate of Arts, Associate of Applied Science, or Certificate Degree, a student must earn a minimum of 15-degree credits from Dakota College. To be eligible for a Certificate of Completion, students must earn half of the program credits from Dakota College.

Students enrolled continuously in at least a one-half time basis (six semester credits or more) can follow the graduation requirements in effect at the time of their initial enrollment, or the graduation requirements in effect during the year in which they plan to graduate.

Students whose enrollment is less than one-half time (less than six credits) for two semesters in a row or more, who are not enrolled for two semesters in a row or more, or any combination of the two will follow the graduation requirements in effect during the academic year they apply for graduation. In this instance, students may petition Student Services if they wish to use a different catalog to satisfy graduation requirements. Students wishing to use a different catalog to satisfy graduation requirements must have completed at least one term of enrollment while that catalog was in effect. The final decision about which graduation requirements will apply will be at the discretion of the Registrar's Office.

## Graduation Honors

Candidates for any degree whose cumulative grade point average is 3.80 or above will graduate with High Honors. Students whose cumulative GPA is 3.50 to 3.79 will graduate with Honors. To be eligible for graduation honors, students must have earned at least 15 credits from the College.

## Responsibility for Satisfying Requirements

All students must assume complete responsibility for compliance with the instructions and regulations set forth in this catalog, for selecting the courses which will permit them to achieve their educational objectives, and for satisfying prerequisites for any course which they plan to take. However, advisors are available to assist students in planning their programs. Dakota College assumes no responsibility for misinterpretation by students of policies and procedures as presented in this catalog. Any question or doubt concerning catalog material should be referred to the Student Services Office.

## Course/Unit Load Limitations

Permission must be obtained to enroll for more than 18 semester hours.

A maximum course load of 22 semester hours can be approved by the academic advisor to students who meet the following requirements:

1. A grade point average of at least 3.00 for full time enrollment in the preceding semester, or
2. A cumulative grade point average of 3.00, or
3. An extra course that is required for graduation in the semester immediately prior to graduation.
4. First-year students, in their first semester, may not enroll for more than 19 semester hours.

The following courses are not applicable when considering course load limitations: ASC 88, UNIV 105; and UNIV 110. In addition, any special topics, individual studies, field studies, physical education activity, special problems, internship, individual research, prior learning, or articulated courses are not applicable. Courses which carry one credit are also exempt from course load limit policies.

## Transfer of Credit to Dakota College

Dakota College accepts college/university level courses recognized by the United States Department of Education from regionally accredited organizations or nationally recognized agencies. Students who have questions regarding the transfer of their credits should contact the Registrar at 701-228-5470 or [dcb.registrar@dakotacollege.edu](mailto:dcb.registrar@dakotacollege.edu).

## Transfer of Credit from Dakota College

Transfer of credit is always determined by the institution to which the student plans to transfer. Students who intend to transfer are strongly advised to meet with their advisor to assure their program of study is suitable for transfer to a four-year university. Students who encounter problems with transfer of Dakota College credits to another institution should contact the Registrar at 701-228-5470 or [dcb.registrar@dakotacollege.edu](mailto:dcb.registrar@dakotacollege.edu)

## Transfer Credit Appeal Policy

A student may appeal decisions regarding academic transfer of credit accepted at Dakota College. To appeal, complete the Transfer Credit Appeal Form, located on the Dakota College website, and submit it to the Registrar's Office. It will be reviewed by the Registrar and Associate Dean for Academic or Student Affairs. The student will be informed, in writing, of the final decision regarding transferability of credits. A student who is not satisfied with the decision made during the campus appeal process may submit a written appeal to the office of the Vice Chancellor for Academic and Student Affairs, at the North Dakota University System, for further review.

## Military Credit

Basic training courses are accepted in transfer as HPER 100 Concepts of Wellness and Fitness (2 semester credits) and meet the Wellness category of the general education requirements. Eligible students must submit documentation of successful completion of basic training for evaluation.

The North Dakota University System (NDUS) has included more than 130 military training courses in their General Education Requirement Transfer Agreement (GERTA). Students who have completed the included military courses will be able to transfer their military education to categories such as arts and humanities, communications, science, mathematics, social science, and technology. All other military credit is evaluated using the most recent American Council on Education (ACE) guidelines. Credit may be awarded for those courses that are equivalent to courses offered at Dakota College.

## Transcripts

Transcripts are termed either official or unofficial. Official transcripts bear the seal of the College and are issued in a sealed envelope. Official transcripts become unofficial transcripts once the sealed envelope is opened. Unofficial transcripts are marked as such. Students can print unofficial transcripts anytime via Campus Connection.

To comply with privacy laws, Dakota College requires all transcript requests to be submitted electronically. There may be conditions such as unmet financial or academic obligations under which transcripts will be withheld. Transcripts may be ordered online at: <https://www.parchment.com>

Although an attempt is made to process transcripts on the same day a request is received, those who request transcripts should allow for a processing time of five business days. Faxed transcripts are not official; transcripts will not be emailed.

A summary of credits accepted from other institutions appears on the official transcript. Transfer courses are not listed and grades and grade point averages of transfer credits are not included in the cumulative GPA.

The exception to this policy is for collaborative students whose cumulative grade point average will include grades from transfer collaborative courses.

## Change in Curriculum

Students who desire to change from one curriculum to another must complete the Program Change form located in Campus Connection under eForms.

## Changes in Registration

After students have registered for classes, they may make changes to their schedules in Campus Connection. Students should consult their advisors before making changes to their registration. Changes in registration are allowed according to the published academic calendars for all sessions in a term. It is the responsibility of the student to ensure they are registered for the correct courses. Students are encouraged to view their class schedules prior to the last day to add and the last day to drop. Students can view their schedules using Campus Connection.

## Administrative Withdrawal for Non-Attendance

Faculty at Dakota College will take attendance in their courses beginning on the first day of class until the following times within a semester or session are reached: (1) The end of the twelfth calendar day of a regular 16-week semester; (2) The end of the fifth calendar day of a summer or eight-week session. Students who have not attended a single lecture or laboratory class up to these times or end points are to be reported to the Registrar. Online students who have not completed any work are to be reported under the same guidelines. When the report is submitted, the Registrar will administratively withdraw the student from the course(s) listed by the instructor. A grade of "W" will be recorded on the academic transcript denoting the withdrawal and the published refund policy will apply. The Registrar will send a communication to the affected students notifying them of the change to their enrollment status and of the appeal process for reinstatement in the course(s). Administrative withdrawal can affect Financial Aid disbursements.

## Refunds for Students Who Are Withdrawn

A "W" will be recorded on the academic transcript denoting a withdrawal and the published refund policy will apply.

## Book Returns for Administrative Withdraws

The bookstore policy on returns will apply to all students who are administratively withdrawn.

## Appeals Process for Administratively Withdrawn Students

If a student who has been administratively withdrawn from one or more courses wishes to be re-enrolled in those courses, they must complete a Petition to Add after Administrative Withdrawal form which includes signatures of the instructor and Associate Dean of Academic or Student Affairs.

## Withdrawal from College

Official withdrawal is a process used to drop all courses or drop the last course. Students who wish to withdraw must complete the Cancel/Withdraw to Zero form located in Campus Connection, under eForms. Students may officially withdraw from the college any time prior to the 12th week of instruction (full term) or sixth week of instruction (8-week session). Students who do not formally withdraw will receive a grade of "F" in all courses.

Students who officially withdraw after the fifth day of class following mid-term may be denied permission to enroll for the succeeding term. This penalty will be invoked if the student's grades at the time of withdrawal would have placed them on academic suspension for the subsequent semester. This decision will be made by the Academic Standards Committee. If the student withdraws during the spring term, enrollment may be denied for the following fall term.

Unofficial withdrawal occurs when a student stops attending during the term resulting in unsuccessful grades without officially withdrawing. When a student unofficially withdraws, they will have a return of Title IV calculation completed on their financial aid. This calculation is based on the documented last day of an academically related activity. This may cause the student to owe money back to the institution or the Title IV aid program. Students who unofficially withdraw may go into student loan repayment early. Students who unofficially withdraw are immediately financial aid disqualified.

## Academic Progress

At the end of any semester, students who fail to maintain required academic standards have not met satisfactory academic progress. Listed below are the required grade point averages needed to maintain satisfactory academic progress and the number of credits used in each classification:

Credits Attempted	Grade Point Average
9-16	1.5 (cumulative or semester GPA)
17-33	1.75 (cumulative GPA)
34-50	1.90 (cumulative GPA)
51+	2.00 (cumulative GPA)

## Academic Probation

At the end of any semester in which a student fails to achieve the required academic standards, the student will be placed on academic probation. Students on academic probation will be allowed to participate in extracurricular activities within the guidelines imposed by the organization conducting the activity. Failure to comply with these regulations can result in the cancelation of registration. The academic probation period covers the length of one semester. Students placed on academic probation are required to enroll in UNIV 110 College Study Skills.

## Academic Suspension

Any student who fails in two consecutive semesters to achieve satisfactory academic progress faces suspension — subject to review by the Academic Standards Committee. All credits attempted, including repeated courses, will be used in determining satisfactory progress for purposes of academic suspension. Students suspended are denied the privilege of the institution during their period of suspension. The first time a student is suspended, the period of suspension will be one semester. The second time a student is suspended, the period of suspension will be two semesters. After the period of suspension has elapsed, the student must apply to the Academic Standards Committee for readmission. Any student who fails all course work attempted in classes other than independent studies, First Year Experience, study skills and physical education activity courses, is subject to suspension.

## Continued Probation

Students will not be academically suspended after any semester in which the term grade point average is 2.00 or better regardless of the cumulative grade point average. In such instances, when the cumulative grade point average is deficient, students may again enroll and will continue academic probation.

## Readmission After Suspension

After a student's period of suspension has elapsed, they must apply to the Academic Standards Committee for readmission to Dakota College. A suspended student cannot re-enroll at the institution after the semester of suspension until the Academic Standards Committee has granted approval. Students who do not follow the correct readmission procedure can have their registration cancelled.

## Distance Education

### Interactive Video Network

The North Dakota Interactive Video Network (IVN) is a statewide videoconferencing communication tool providing synchronous distance education opportunities throughout the state. Dakota College both sends and receives courses, meetings, workshops, interviews, and professional development seminars. IVN students take

Dakota College courses and programs at participating North Dakota colleges and high schools. In addition, students from the Bottineau area can enroll in a wide range of classes offered by other North Dakota University System institutions and attend classes on the Dakota College campus. For more information on IVN programs and classes, contact the Instructional Technology Coordinator, 701-228-5601.

### Online Programs

Dakota College offers several degree programs and a variety of classes online. With this instructional format, people anywhere can access college credit classes from Dakota College. Online classes are best suited for independent learners who need flexibility in their scheduling. Classes currently available through online format are listed on the campus website: [www.dakotacollege.edu](http://www.dakotacollege.edu).

#### THE FOLLOWING DEGREE PROGRAMS ARE AVAILABLE IN AN ONLINE FORMAT:

Associate Degree	Certificate
Accounting Technology	Advertising and Marketing
Administrative Assistant	Bookkeeping
Advertising and Marketing	College Studies
Human Resources Management	Child Development Associate
Liberal Arts (AA, AS)	Human Resource Management
Medical Administrative Assistant	Medical Assistant
Medical Assistant	Medical Coding
Paraprofessional Education K-12	Paraprofessional Education
Paraprofessional Education EC	Photography
Photography	Reception Services
Recreation Management	Recreation Management
Small Business Management	Small Business Management
Urban Forestry Management	Urban Forestry Management
Technical Studies	Technical Studies

## Minot Degree Programs

### Minot State University

Dakota College offers career degrees on the Minot State University (MSU) campus in Minot, North Dakota. Currently the following programs are extended to the Minot campus:

- Advertising and Marketing (AAS) (Certificate)
- Paraprofessional Education Early Childhood (AAS)
- Paraprofessional Education K-12 (AAS)
- Paraprofessional Education (Certificate)
- Passport Program

This program is a unique collaborative program offered by Dakota College and MSU. The program is available to students who are not eligible for full admission at MSU but want to attend college, pursue a four-year degree, and remain in the Minot area. Qualified applicants can enroll in the Passport Program where they would become Dakota College students located on the MSU campus. After completion of the Passport Program, students will then transition to MSU as fully admitted students. Passport Program students need a minimum of 24 transferable credits to transition to MSU and are eligible to earn a Certificate of College Studies degree from Dakota College.

- Small Business Management (AAS) (Certificate)
- Technical Studies (AAS) (Certificate)

### Dakota College Downtown

- Dental Assisting (AAS) (Certificate)
- Dental Hygiene (AAS)
- Medical Administrative Assistant (AAS)
- Medical Assistant (AAS) (Certificate)
- Information Technology (AAS)
- Information Management – Web Design (Certificate)
- Information Technology – Web Master (AAS)

### Trinity West

- Associate Degree Nursing (AAS)
- Practical Nursing (Certificate)

### Trinity Medical Arts

- Diagnostic Medical Sonography (AAS)

### Trinity Riverside

- Paramedic Technology (AAS) – Trinity Campus

## Admission

Dakota College's open admission policy extends to its programs at the Minot Campus. Students interested in enrolling in a program at Minot need to complete an online application as an off-campus Minot student.

## Financial Aid

Dakota College administers the financial aid programs for its students on the Minot campus. The Free Application for Student Financial Aid (FAFSA) should be completed as if attending on the Bottineau campus.

### Housing/Food Services

Dakota College students in Minot are eligible for residence hall and dining services on the Minot Campus. These forms and applications must be secured from Minot State University.

**For more information contact:**

Minot Programs Director  
Administration Building  
Minot State University  
500 University Avenue West, 2nd floor  
Minot, ND 58707  
Telephone (701) 858-3330

## Valley City State University

Dakota College offers career degrees on the Valley City State University (VCSU) campus in Valley City, North Dakota. Currently the following programs are extended to the Valley City campus:

- Associate Degree Nurse (ADN)
- Practical Nursing (Certificate)

### Admission

Dakota College's open admission policy extends to its programs at the Valley City State University campus. Students interested in enrolling in a Dakota College program at Valley City State University complete a specially marked application form.

### Financial Aid

Dakota College administers the financial aid programs for its students on the Valley City State University campus. The Free Application for Student Financial Aid (FAFSA) should be completed as if attending on the Bottineau campus.

### Housing/Food Services

Dakota College students in Valley City are eligible for residence hall and dining services on the Valley City State University campus. These forms and applications must be secured from Valley City State University.

## Development Foundation

The Dakota College Foundation was incorporated in September 1983, as an outgrowth of the Promotions Committee. The Foundation Board of Directors is comprised of alumni, friends of the college community, representatives from the Logrollers, Alumni Association, the Campus Dean, and the Foundation Director.

The purpose of the Foundation is to promote support from Alumni and friends of Dakota College to achieve specific goals:

- To provide scholarship and general development funding that will significantly benefit students and the college.
- To provide support for faculty and staff development.
- To provide funds to assist the Alumni Association in its support of the College.
- To assist the Logroller organization in its support of collegiate athletics.
- To preserve the college's past heritage, while advancing with the future.

### Mission

The Dakota College at Bottineau Foundation and its Board of Directors empower the college through program support, community engagement, and the promotion of endowments. Committed to scholarship, they provide financial and program development support to students, faculty, and staff, ensuring academic achievement and lifelong learning. By efficiently managing funds, the Foundation dedicates resources to student support and campus development, helping everyone achieve their full potential.

## Farm Management Education Program

The mission of the North Dakota Farm and Ranch Business Management Association is “To provide lifelong learning opportunities in economic and financial management for adults involved in the farming and ranching business.” The farm/ranch business management program is designed to provide education to farm/ranch families to help them better understand the financial aspects of their farm business. The purpose of the program is to assist students in meeting their business and personal goals. This is best accomplished with quality records and sound business decisions. A detailed, computerized business analysis is completed annually for the farm/ranch business. All individual financial information is kept confidential. All student analyses data will be summarized and used to produce and publish local, regional, and state average reports for benchmarking purposes. Topics covered may include the following:

- Goal setting--farm business, family and personal
- Inventories for beginning and end of year balance sheets and accurate enterprises analysis
- Accounting and production records
- Annual whole farm and enterprise analysis
- Cash flow projections
- Benchmarking with average reports
- Understanding the balance sheet, income statement and cash flow projection
- Others as needed by the individual producer

Students will enroll in AGRI 242 at Dakota College on a semester basis. Enrollment in the class will be accepted any time throughout the year and can be repeated indefinitely. Most of the instruction is one-on-one in the instructor’s office or at the farm/ranch home. All types and sizes of farms are accepted for enrollment including farms involved in specialty crops.

For more information: [Home | Nd Farm Management E](#)

## Community Education Program

Through the Community Education Program, the campus extends non-credit learning opportunities to individuals, groups, and organizations in the area. Classes and workshops linked to community interest and Dakota College resources are held on and off campus. Topics include such things as computer technology, arts and crafts, professional development, and customer service. Instruction incorporates hands-on activities and practical application exercises.

## North Dakota State Board of Higher Education

Created by constitutional amendment in 1939, the North Dakota State Board of Higher Education is the governing body of Dakota College and all other state supported institutions of higher education in North Dakota.

BOARD MEMBERS*		
Tim Mihalick, <i>Chair</i>	Minot	<i>term expires 2027</i>
Danita Bye, <i>Vice Chair</i>	Stanley	<i>term expires 2026</i>
Casey Ryan	Grand Forks	<i>term expires 2025</i>
Jeffrey Volk	West Fargo	<i>term expires 2025</i>
Kevin Black	Minot	<i>term expires 2024</i>
Curtis Biller	Fargo	<i>term expires 2027</i>

\* In addition to the board members listed, a student, faculty and staff representative are appointed each year to serve one-year terms.

---

# Transfer Programs (AA/AS)

## Transfer Programs

Dakota College offers the applicable freshman and sophomore course work for most bachelor's degree programs. The following suggested course sequences or curriculum outlines are included in this catalog:

### Associate in Arts

- [Liberal Arts \(AA\)](#)
- [Business Administration](#)
- [Early Childhood Education](#)
- [Economics](#)
- [English](#)
- [History](#)
- [Human Services](#)
- [Psychology](#)
- [Social Science](#)

### Associate in Science

- [Liberal Arts \(AS\)](#)
- [Accounting](#)
- [Agriculture](#)
- [Biology](#)
- [Business Education](#)
- [Chemistry](#)
- [Computer Information Systems](#)
- [Elementary Education](#)
- [Finance](#)
- [Health Professions](#)
- [Marketing & Management](#)
- [Mathematics](#)
- [Natural Resource Management](#)
- [Pharmacy](#)
- [Physical Education](#)
- [Pre-Engineering](#)
- [Secondary Education](#)
- [Special Education](#)
- [Veterinary Science](#)
- [Wildlife Management](#)

### Certificates

- [College Studies](#)

## Transfer to Other Colleges

The North Dakota University System is working to make transfers easier. Students can help facilitate the transfer process by taking the following into consideration:

*The requirements of colleges and universities throughout the United States vary so widely that it is not possible to prescribe a curricular program which will apply to all of them. Therefore, students need to familiarize themselves with the requirements of their program at the college to which they may transfer. This college or university, in the final analysis, determines the acceptability of transfer credits.*

Following is a list of activities students intending to transfer can follow to ease their transition to another campus.

1. Plan ahead.
2. Decide on your major as early as possible — especially if it might be a highly structured curriculum.
3. Work closely with your faculty advisor to select courses that will meet the requirements of the receiving institution.
4. Contact the Admissions Office of the school you plan to attend. Find out if your intended major has any special admission requirements and whether the school has information to help transfer students plan ahead.

## General Education Philosophy

General education exists on the Dakota College campus to provide students with an opportunity to develop knowledge and skills to become life-long learners in a dynamic, global community. At Dakota College, general education exists within all degree programs.

The core of general education includes building knowledge and understanding concepts of the natural and social sciences, mathematics, communication, arts and humanities, technology, and wellness. The specific competencies of general education reflect the commitment to the campus focus of Nature, Technology, and Beyond and are as follows:

### Nature

#### Identifies the interrelationships between humans and their environment

- Applies the scientific methods of inquiry
- Demonstrates an understanding of natural environment

### Technology

#### Demonstrates technological literacy

- Demonstrates knowledge of digital literacy
- Demonstrates effective use of technology for communicating, organizing, and presenting information
- Identifies appropriate application software for real-world issues

#### Demonstrates mathematical understanding

- Utilizes appropriate mathematical techniques
- Employs critical thinking skills

### And Beyond

#### Communicates effectively

- Write effectively
- Integrates information sources effectively
- Demonstrates effective oral communication skills

#### Employs the principles of wellness

- Demonstrates physical wellness
- Demonstrates healthy lifestyle

**Demonstrates knowledge of social structures**

- Examines the experience of the individual
- Examines the world of human diversity
- Recognizes human social structures

**Understands concepts of arts, languages, humanities, and society**

- Analyzes the interconnectedness of art, literature, society, and culture
- Interprets the cultural impact of the Humanities on contemporary society.

The seven general education competencies serve as the student learning goals for all students enrolled in AA and AS programs, as well as for those pursuing a certificate in College Studies.

## North Dakota University System GERTA

### (General Education Requirement Transfer Agreement)

The North Dakota University System (NDUS) GERTA was developed to assist students who transfer within the NDUS and within North Dakota tribal and private colleges who participate in GERTA. The GERTA agreement states that general education courses taken at any GERTA institution count upon transfer toward the general education requirements at all GERTA institutions in one of the following two ways:

- If the general education coursework includes courses from each of these General Education Areas (GEA) totaling at least 36 semester hours and the courses complete the general education requirements of the institution from which the student transfers, then the student is deemed to have completed the lower division general education requirements of the institution to which the courses are transferred.
- In all other cases the general education courses from the GEA are applicable to an appropriate general education requirement of the institution to which they transferred. The number of credits required to complete the general education requirement in each GEA is determined by the policies of the institution to which the courses are transferred.

The following list indicates the GERTA general education areas and the Dakota College courses that have been approved for the purpose of meeting general education requirements for transfer to other NDUS institutions.

### 1. English Composition (ND: ENGL)

Course Code	Title	Credits
ENGL 110	College Composition I	3.0
ENGL 120	College Composition II	3.0
ENGL 125	Introduction to Professional Writing	3.0

### 2. Speech (ND: COMM)

Course Code	Title	Credits
COMM 110	Fundamentals of Public Speaking	3.0

### 3. Fine Arts (ND: COMM)

Course Code	Title	Credits
ART 110	Introduction to the Visual Arts	3.0

## Transfer Programs (AA/AS)

ART 210	Art History I	3.0
ART 211	Art History II	3.0
ART 182	Art with a Smartphone	3.0
PHOT 180	Photography I	3.0

## 4. Humanities (ND: HUM)

Course Code	Title	Credits
ART 110	Introduction to the Visual Arts	3.0
ART 210	Art History I	3.0
ART 211	Art History II	3.0
ENGL 211	Introduction to Creative Writing	3.0
ENGL 220	Introduction to Literature	3.0
ENGL 221	Introduction to Drama	3.0
ENGL 224	Introduction to Fiction	3.0
ENGL 225	Introduction to Film	3.0
ENGL 236	Women and Literature	3.0
ENGL 238	Children's Literature	3.0
ENGL 261	American Literature I	3.0
ENGL 262	American Literature II	3.0
ENGL 278	Alternative Literature	3.0
HUM 101	Introduction to Humanities I	3.0
HUM 102	Introduction to Humanities II	3.0
THEA 201	Theatre Practicum	3.0
WS 110	Introduction to Women's Studies	3.0

## 5. History (ND: History)

Course Code	Title	Credits
HIST 103	United States History to 1877	3.0
HIST 104	United States History Since 1877	3.0
HIST 220	North Dakota History	3.0
HIST 105	World Civilizations to 1500	3.0
HIST 224	American Studies 1	3.0

## 6. Social Science (ND: SS)

Course Code	Title	Credits
ECON 201	Principles of Microeconomics	3.0
ECON 202	Principles of Macroeconomics	3.0
PSYC 111	Introduction to Psychology	3.0
PSYC 250	Developmental Psychology	3.0
PSYC 270	Abnormal Psychology	3.0

PSYC 280	Introduction to Health Psychology	3.0
SOC 110	Introduction to Sociology	3.0
SOC 251	Gerontology	3.0

## 7. Laboratory (ND:LABSC)

Course Code	Title	Credits
BIOL 111	Concepts of Biology	4.0
BIOL 115	Concepts of Anatomy and Physiology	4.0
BIOL 121	Intro to Fish and Wildlife	4.0
BIOL 122	Wildlife and Fisheries Techniques	4.0
BIOL 124	Environmental Science	4.0
BIOL 150	General Biology I	4.0
BIOL 151	General Biology II	4.0
BIOL 170	General Zoology	4.0
BIOL 202	Microbiology	4.0
BIOL 211	Botany I	4.0
BIOL 220	Anatomy and Physiology I	4.0
BIOL 221	Anatomy and Physiology II	4.0
BIOL 230	Ecology	4.0
CHEM 115	Introductory Chemistry	4.0
CHEM 116	Introduction to Organic and Biochemistry	4.0
CHEM 122	General Chemistry II	4.0
CHEM 241	Organic Chemistry I	4.0
CHEM 242	Organic Chemistry II	4.0
GEOL 105	Physical Geology	4.0

## 8. Mathematics (ND:MATH)

Course Code	Title	Credits
MATH 103	College Algebra	4.0
MATH 104	Finite Math	3.0
MATH 105	Trigonometry	3.0
MATH 107	Precalculus	4.0
MATH 110	Mathematics in Society	3.0
MATH 165	Calculus I	4.0
MATH 166	Calculus II	4.0

MATH 210	Elementary Statistics	4.0
----------	-----------------------	-----

### 9. Computer Science (ND:COMPSC)

Course Code	Title	Credits
CSCI 101	Introduction to Computers	3.0
CSCI 289	Social Implications of Computer Technology	3.0

## General Education Requirements - Associate of Science (AS) and Associate of Arts (AA)

Although all Associate of Arts and Associate of Science degree graduates satisfy the GERTA requirements, there are additional requirements that pertain to and define AA as opposed to AS. Students who graduate with an AS degree will earn 18 math, science, and technology credits. Students who graduate with an AA degree will earn 12 social science credits and 9 arts and humanities credits. The following outline lists the general education requirements for the AS and AA degrees:

### Associate of Science

#### Communications

Course Code	Title	Credits
ENGL 110	College Composition I	3.0
	ENGL 120 or ENGL 125	3.0
COMM 110	Fundamentals of Public Speaking	3.0
	<b>Sub-Total Credits</b>	<b>9</b>

#### Fine Arts & Humanities

Any Course marked ND: FA, ND:HUM

Course Code	Title	Credits
	Fine Arts/Humanities Electives	
	<b>Sub-Total Credits</b>	<b>6</b>

#### Social Science

Any Course marked ND: HIST or ND: SS

Course Code	Title	Credits
	Social Science Electives	
	<b>Sub-Total Credits</b>	<b>6</b>

#### Math, Science & Technology

Any course marked ND: LABSC, ND: MATH or ND: COMPSC

## Transfer Programs (AA/AS)

All students must complete two laboratory science (ND: LABSC) courses, one math course (ND: MATH), and ND: COMPSC)

Course Code	Title	Credits
	Math/Science/Technology Elective	
	<b>Sub-Total Credits</b>	<b>18</b>

## Wellness

Course Code	Title	Credits
	HPER 100 or HPER Activity	2.0
	<b>Sub-Total Credits</b>	<b>2</b>

## First Year Experience

*Required of all new first-year students*

Course Code	Title	Credits
UNIV 105	First Year Experience	1.0
	<b>Sub-Total Credits</b>	<b>1</b>

## Digital Literacy Requirement

All associate degrees offered by Dakota College at Bottineau (DCB) require students to meet the digital literacy standard as identified in SBHE Policy 461. Students may accomplish this requirement through any of the following instructional methods: successful completion of one of the courses outlined in the DCB Digital Literacy policy, or successful completion of a non-credit self-paced module, or successful completion of an approved course through the Dakota Digital Academy, or successful completion of this requirement at another North Dakota University System (NDUS) institution.

## Additional Academic Courses

Total credits needed to graduate – 60 Developmental/remedial courses do not count towards graduation. Courses in this category are chosen in consultation with the student's advisor. Selections are based upon the requirements at the college to which the student intends to transfer.

## Associate of Arts

### Communications

Course Code	Title	Credits
ENGL 110	College Composition I	3.0
	ENGL 120 or ENGL 125	3.0
COMM 110	Fundamentals of Public Speaking	3.0
	<b>Sub-Total Credits</b>	<b>9</b>

### Fine Arts & Humanities

3 credits under the ND: HUM category, 3 credits from one subject area of HUM, ART, MUSC or PHOT and 3 Credits from any course in the ND: FA or ND: HUM category

## Transfer Programs (AA/AS)

Course Code	Title	Credits
	Fine Arts/Humanities Electives	
	<b>Sub-Total Credits</b>	<b>9</b>

## Social Science

Any course marked ND: HIST or ND: SS

Course Code	Title	Credits
	Social Science Electives	
	<b>Sub-Total Credits</b>	<b>12</b>

## Math, Science & Technology

Any course marked ND: LABSC, ND: Math or ND: COMPSC

All students must complete one laboratory science (ND: LABSC) course, one math course (ND: MATH), and One technology course.

Course Code	Title	Credits
	Math/Science/Technology Elective	
	<b>Sub-Total Credits</b>	<b>9</b>

## Wellness

Course Code	Title	Credits
	HPER 100 or HPER Activity	2.0
	<b>Sub-Total Credits</b>	<b>2</b>

## First Year Experience

*Required of all new first-year students*

Course Code	Title	Credits
UNIV 105	First Year Experience	1.0
	<b>Sub-Total Credits</b>	<b>1</b>

## Additional Academic Courses

Total credits needed to graduate – 60 Developmental/remedial courses do not count towards graduation. Courses in this category are chosen in consultation with the student's advisor. Selections are based upon the requirements at the college to which the student intends to transfer.

# Career and Technical Education Programs (AAS/ Certificates/Diplomas)

## Career/Technical Programs

### Agriculture

- [Agriculture Management & Technology \(AAS\)](#)
- [Agriculture Management & Technology \(Certificate\)](#)
- [Small Unmanned Aircraft Systems \(Certificate\)](#)
- [Horticulture \(AAS\)](#)
- [Horticulture \(Certificate\)](#)

### Business

- [Advertising & Marketing \(AAS\)](#)
- [Advertising & Marketing \(Certificate\)](#)
- [Accounting Technology \(AAS\)](#)
- [Administrative Office Professional \(AAS\)](#)
- [Bookkeeping \(Certificate\)](#)
- [Human Resource Management \(AAS\)](#)
- [Human Resource Management \(Certificate\)](#)
- [Administrative Support Specialist \(Certificate\)](#)
- [Small Business Management \(AAS\)](#)
- [Small Business Management \(Certificate\)](#)

### Computer Technology

- [Cybersecurity \(Certificate\)](#)
- [Information Technology - Computerized Office Management \(AAS\)](#)
- [Information Technology \(AAS\)](#)
- [Information Technology - WebMaster \(AAS\)](#)
- [Information Technology - WebDesign \(Certificate\)](#)

### Education & Human Development

- [Child Development Associate \(Certificate\)](#)
- [Paraprofessional Education – Early Childhood \(AAS\)](#)
- [Paraprofessional Education – K-12 \(AAS\)](#)
- [Paraprofessional Education \(Certificate\)](#)

### Health Professions

- [Paramedic Technology \(AAS\)](#)
- [Paramedic Technology \(Certificate\)](#)
- [Dental Assisting \(AAS\)](#)
- [Dental Assisting \(Certificate\)](#)
- [Dental Hygiene \(AAS\)](#)
- [Dental Practice Manager \(Certificate\)](#)

- [Medical Assistant \(AAS\)](#)
- [Medical Assistant \(Certificate\)](#)
- [Medical Assistant - Pre-Nursing \(AAS\)](#)
- [Medical Administrative Assistant \(AAS\)](#)
- [Medical Coding \(Certificate\)](#)
- [Diagnostic Medical Sonography \(AAS\)](#)
- [Practical Nursing – LPN \(Certificate\)](#)
- [Associate Degree Nurse – RN \(AAS\)](#)

### Natural Resources

- [Natural Resource Management \(AAS\)](#)
- [Recreation Management \(AAS\)](#)
- [Recreation Management \(Certificate\)](#)
- [Urban Forest Management \(AAS\)](#)
- [Urban Forest Management \(Certificate\)](#)
- [Wildlife & Fisheries Technology \(AAS\)](#)

### Photography

- [Photography \(AAS\)](#)
- [Photography \(Certificate\)](#)

### Technical Education

- [Technical Studies \(AAS\)](#)
- [Technical Studies \(Certificate\)](#)

Career and technical education exist on the Dakota College campus to provide students with an opportunity to utilize industry-specific skills as they prepare to enter the workforce. The degree program curriculum requirements integrate general education with career education competencies to allow the programs to be in part transferable. This mixture of coursework provides the student flexibility should they decide later to pursue a baccalaureate degree.

The student learning competencies of career and technical education degree programs are as follows:

- Employ industry-specific skills in preparation for workplace readiness
- Combine general education and vocational skills curriculum

Career and technical education certificate programs at Dakota College do not require general education coursework. Students enrolled in CTE certificate programs will employ industry-specific skills in preparation for workplace readiness but will not combine this skill-based training with general education.

Dakota College offers a variety of career/technical programs which are organized under eight specific areas – agriculture, business, computer technology, education and human services, health professions, natural resources, horticulture, and photography.

## General Education - AAS Degree

Students who graduate with an Associate of Applied Science Degree must earn 16 credits in general education.

The general education coursework for the AAS Degree programs is included in the curriculum outlines that follow. An exception is the course [UNIV 105](#) First Year Experience. This course is not listed in any of the outlines but is a requirement for all new fall semester freshmen – including students enrolled in the on-campus certificate of completion programs.

**English or Communications***3 Credits (choose from the following)*

## English

Course Code	Title	Credits
ENGL 110	College Composition I	3.0

## Speech

Course Code	Title	Credits
COMM 110	Fundamentals of Public Speaking	3.0
	<b>Sub-Total Credits</b>	<b>3</b>

# Degrees

## Liberal Arts

### Liberal Arts (AA)

**Degree Type**  
Associate in Arts

The liberal arts curriculum is built on general education requirements and is designed for students who are undecided about their educational goal, but who desire the benefits they can secure from a broadly-based program. The curriculum provides flexibility and endeavors to give students a sampling of the many disciplines available to them. The AA and AS degrees are available online.

#### First Year Experience

All new freshman students at Dakota College are required to enroll in [UNIV 105 First Year Experience](#). An exception to this requirement will be made for transfer students who have earned 24 college-level credits prior to attending or who have successfully completed a similar freshman orientation course for credit at another higher education institution. The course orients students to college and examines topics that are important for student success and positive student outcomes.

#### Digital Literacy Requirement

All associate degrees offered by Dakota College at Bottineau (DCB) require students to meet the digital literacy standard as identified in SBHE Policy 461. Students may accomplish this requirement through any of the following instructional methods: successful completion of one of the courses outlined in the DCB Digital Literacy policy, or successful completion of a non-credit self-paced module, or successful completion of an approved course through the Dakota Digital Academy, or successful completion of this requirement at another North Dakota University System (NDUS) institution.

#### Communication

Course Code	Title	Credits
ENGL 110	College Composition I	3.0
	ENGL 120 or ENGL 125	3.0
COMM 110	Fundamentals of Public Speaking	3.0
	<b>Sub-Total Credits</b>	<b>9</b>

#### Fine Arts/Humanities

Elective credits in this area are to be chosen from The ND:FA and ND:HUM categories.

Course Code	Title	Credits
	Fine Arts/Humanities Electives	
	<b>Sub-Total Credits</b>	<b>9</b>

### Social Science Electives

Elective credits in this area are to be chosen from the ND:HIST and ND:SS.

Course Code	Title	Credits
	Social Science Electives	
	<b>Sub-Total Credits</b>	<b>12</b>

### Math/Science/Technology

Elective credits in this area are to be chosen from the ND:LABSC, ND:MATTH and ND:COMPSC categories. The choices must include MATH 103 (or above), at least one lab science and a technology.

Course Code	Title	Credits
	Math/Science/Technology Elective	
	<b>Sub-Total Credits</b>	<b>9</b>

### Wellness

Course Code	Title	Credits
	Wellness Elective	2.0
	<b>Sub-Total Credits</b>	<b>2</b>

### Additional Academic Courses

Credits in this area are to be chosen in consultation with the student's advisor.

	<b>Sub-Total Credits</b>	<b>19</b>
--	--------------------------	-----------

	<b>Total Credits</b>	<b>60</b>

**First Year Experience**

All new freshman students at Dakota College are required to enroll in [UNIV 105 First Year Experience](#). An exception to this requirement will be made for transfer students who have earned 24 college-level credits prior to attending or who have successfully completed a similar freshman orientation course for credit at another higher education institution. The course orients students to college and examines topics that are important for student success and positive student outcomes.

**Digital Literacy Requirement**

All associate degrees offered by Dakota College at Bottineau (DCB) require students to meet the digital literacy standard as identified in SBHE Policy 461. Students may accomplish this requirement through any of the following instructional methods: successful completion of one of the courses outlined in the DCB Digital Literacy policy, or successful completion of a non-credit self-paced module, or successful completion of an approved course through the Dakota Digital Academy, or successful completion of this requirement at another North Dakota University System (NDUS) institution.

Coursework may be modified with the advisor's consent regarding the requirements of a student's intended transfer college.

## Liberal Arts (AS)

### Degree Type

Associate in Science

The liberal arts curriculum is built on general education requirements and is designed for students who are undecided about their educational goal, but who desire the benefits they can secure from a broadly-based program. The curriculum provides flexibility and endeavors to give students a sampling of the many disciplines available to them. The AA and AS degrees are available online.

### First Year Experience

All new freshman students at Dakota College are required to enroll in [UNIV 105 First Year Experience](#). An exception to this requirement will be made for transfer students who have earned 24 college-level credits prior to attending or who have successfully completed a similar freshman orientation course for credit at another higher education institution. ### First Year Experience

All new freshman students at Dakota College are required to enroll in [UNIV 105 First Year Experience](#). An exception to this requirement will be made for transfer students who have earned 24 college-level credits prior to attending or who have successfully completed a similar freshman orientation course for credit at another higher education institution. The course orients students to college and examines topics that are important for student success and positive student outcomes.

### Digital Literacy Requirement

All associate degrees offered by Dakota College at Bottineau (DCB) require students to meet the digital literacy standard as identified in SBHE Policy 461. Students may accomplish this requirement through any of the following instructional methods: successful completion of one of the courses outlined in the DCB Digital Literacy policy, or successful completion of a non-credit self-paced module, or successful completion of an approved course through the Dakota Digital Academy, or successful completion of this requirement at another North Dakota University System (NDUS) institution.

**First Year Experience**

All new freshman students at Dakota College are required to enroll in [UNIV 105 First Year Experience](#). An exception to this requirement will be made for transfer students who have earned 24 college-level credits prior to attending or who have successfully completed a similar freshman orientation course for credit at another higher education institution. The course orients students to college and examines topics that are important for student success and positive student outcomes.

**Digital Literacy Requirement**

All associate degrees offered by Dakota College at Bottineau (DCB) require students to meet the digital literacy standard as identified in SBHE Policy 461. Students may accomplish this requirement through any of the following instructional methods: successful completion of one of the courses outlined in the DCB Digital Literacy policy, or successful completion of a non-credit self-paced module, or successful completion of an approved course through the Dakota Digital Academy, or successful completion of this requirement at another North Dakota University System (NDUS) institution.

## Certificate in College Studies

### Degree Type

Certificate

## Liberal Arts

The Certificate in College Studies will provide these students with a quality and innovative program that accommodates their learning needs. This program will expose students to a one-year sequence of courses that will give them the essential skills and self-confidence to make informed decisions about the educational opportunities before them. An additional benefit will be introducing students to the institution's special focus which encourages an ethic of care and concern for the natural world.

Students must complete the required number of credits for each of the following areas:

### Communications (3 credits)

Course Code	Title	Credits
ENGL 110	College Composition I	3.0
COMM 110	Fundamentals of Public Speaking	3.0
<b>Sub-Total Credits</b>		<b>3</b>

# Agriculture

## Agriculture Management & Technology AAS

### Degree Type

Associate of Applied Science

### Available Locations

Bottineau

### Program Manager:

Linda Burbidge

701-228-5442

[linda.burbidge@dakotacollege.edu](mailto:linda.burbidge@dakotacollege.edu)

### Program Advisor:

Lynn Bristol

701-228-5469

[lynn.bristol@dakotacollege.edu](mailto:lynn.bristol@dakotacollege.edu)

This program is designed for individuals who are looking to advance their career opportunities and obtain practical, hands-on work experience through agricultural internships. Students will have the option to customize their plan of study based upon their area of interest in agriculture. The plan of study can be concentrated in crop production, livestock production, specialty crops, business, or a combination of these fields.

### Focus Areas

**Agribusiness:** Prepares students for careers in agribusiness and a variety of fields | agriculture and agricultural supports areas including banking, finance, crop insurance, and consulting.

**Crop Production:** Prepares students for careers in crop production through instructional and hands-on learning in the production, scouting, disease management, and harvesting of crops.

**Livestock Production:** Prepares students for a career in a variety of fields associated with livestock production. Students will develop the knowledge and skills necessary to work in an animal science specific field, support, field, or a related field associated with livestock business and finance.

**Specialty Crop Production:** Prepares students for a career in specialty crops through instruction and hands-on learning in the production, harvesting, marketing, and use of specialty crops. Specialty crops include edible fruit, vegetables, and herbs.

### First Year Experience

All new freshman students at Dakota College are required to enroll in [UNIV 105 First Year Experience](#). An exception to this requirement will be made for transfer students who have earned 24 college-level credits prior to attending or who have successfully completed a similar freshman orientation course for credit at another higher education institution. The course orients students to college and examines topics that are important for student success and positive student outcomes.

### Digital Literacy Requirement

All associate degrees offered by Dakota College at Bottineau (DCB) require students to meet the digital literacy standard as identified in SBHE Policy 461. Students may accomplish this requirement through any of the following instructional methods: successful completion of one of the courses outlined in the DCB Digital Literacy policy, or successful completion of a non-credit self-paced module, or successful completion of an approved course through the Dakota Digital Academy, or successful completion of this requirement at another North Dakota University System (NDUS) institution.

The Agriculture Management and Technology (AMT) Certificate program prepares students for careers in agriculture and agricultural-related support fields. The program is fully customizable based on the student's area of interest in agriculture. Courses can provide concentrations in several areas which may include (but are not limited to) ag business and finance, crop production, livestock production, or specialty crops. Cooperative work experience in an industry setting provides hands-on experience. The course requirements are outlined below:

- The student must complete at least 24 credits of coursework.

## Accounting Technology AAS

### Degree Type

Associate of Applied Science

### Available Locations

Bottineau,

Minot,

Online

### Program Manager:

Misty Lindgren, Director for Academic Affairs

701-228-5476

[misty.lindgren@dakotacollege.edu](mailto:misty.lindgren@dakotacollege.edu)

### Program Advisor:

Lynn Bristol

701-228-5469

[lynn.bristol@dakotacollege.edu](mailto:lynn.bristol@dakotacollege.edu)

### THIS PROGRAM IS OFFERED ONLINE

This major prepares students to provide technical administrative support to professional accountants and other financial management personnel. Instructional components include posting transactions to accounts, record-keeping systems, accounting software operations, and general accounting principles and practices. This program offers specialized study in preparation to become a certified bookkeeper and become a member of The American Institute of Professional Bookkeepers.

### First Year Experience

All new freshman students at Dakota College are required to enroll in [UNIV 105 First Year Experience](#). An exception to this requirement will be made for transfer students who have earned 24 college-level credits prior to attending or who have successfully completed a similar freshman orientation course for credit at another higher education institution. The course orients students to college and examines topics that are important for student success and positive student outcomes.

### Digital Literacy Requirement

All associate degrees offered by Dakota College at Bottineau (DCB) require students to meet the digital literacy standard as identified in SBHE Policy 461. Students may accomplish this requirement through any of the following instructional methods: successful completion of one of the courses outlined in the DCB Digital Literacy policy, or successful completion of a non-credit self-paced module, or successful completion of an approved course through the Dakota Digital Academy, or successful completion of this requirement at another North Dakota University System (NDUS) institution.

# Administrative Office Professional AAS

**Degree Type**

Associate of Applied Science

**Available Locations**Bottineau,  
Minot,  
Online**Program Manager:**

Kayla O'Toole, Associate Dean for Academic Affairs

701-228-5479

[kayla.otoole@dakotacollege.edu](mailto:kayla.otoole@dakotacollege.edu)**Program Advisor:**

Kayla O'Toole, Associate Dean for Academic Affairs

701-228-5479

[kayla.otoole@dakotacollege.edu](mailto:kayla.otoole@dakotacollege.edu)**THIS PROGRAM IS OFFERED ONLINE**

The Administrative Office Professional AAS program prepares students to take on key administrative roles supporting business executives and management. The curriculum provides a strong foundation in essential skills, including communication, office management, records management, and a strong focus on the latest computer technology tools used in office environments. Students gain hands-on experience through an internship and have the flexibility to specialize their education with a particular pathway or generalized option. With a blend of core courses and specialized options, this program equips graduates with the skills needed to succeed in diverse administrative roles across various industries.

**Pathway Options**

- **Office Technology**

This pathway focuses on developing technological skills, ensuring efficient operations in any office setting. Students will learn how to handle a range of office technologies, from managing databases to graphic design and security and ethics.

- **Executive Assistant**

In this pathway, students will learn how to support senior-level executives by managing schedules, correspondence, and business operations. Key skills include project management, policy administration, and organizational techniques to help executives maximize their productivity.

- **Communication & Customer Relations**

This pathway focuses on building strong communication skills and customer service strategies. Students will be trained in verbal communication, conflict resolution, and how to enhance customer satisfaction and relationships.

- **Event Coordination**

Students in this pathway will learn the skills needed to plan and coordinate events, from corporate conferences to social gatherings. The program emphasizes project management, budgeting, and promotion to ensure events are executed successfully.

- **Generalist**

This pathway allows students to choose courses from any of the program's specialized pathways, offering flexibility to tailor their education to their interests and career goals.

## Information Technology AAS

### Degree Type

Associate of Applied Science

### Available Locations

Bottineau,  
Minot

### Program Manager:

Trisha Nelson, Instructor

701-858-3313

[trisha.nelson@dakotacollege.edu](mailto:trisha.nelson@dakotacollege.edu)

### Program Advisor:

Lynn Bristol

701-228-5469

[lynn.bristol@dakotacollege.edu](mailto:lynn.bristol@dakotacollege.edu)

This program provides students with a broad array of entry level knowledge and practical, hands-on skills. Courses in this program cover such topics as computer security, computer networks, hardware configuration, maintenance, and operating systems. Students successfully completing the Information Technology degree will be prepared to apply their training to entry level career opportunities in service and support of hardware and software to both personal and networked systems.

### First Year Experience

All new freshman students at Dakota College are required to enroll in [UNIV 105 First Year Experience](#). An exception to this requirement will be made for transfer students who have earned 24 college-level credits prior to attending or who have successfully completed a similar freshman orientation course for credit at another higher education institution. The course orients students to college and examines topics that are important for student success and positive student outcomes.

### Digital Literacy Requirement

All associate degrees offered by Dakota College at Bottineau (DCB) require students to meet the digital literacy standard as identified in SBHE Policy 461. Students may accomplish this requirement through any of the following instructional methods: successful completion of one of the courses outlined in the DCB Digital Literacy policy, or successful completion of a non-credit self-paced module, or successful completion of an approved course through the Dakota Digital Academy, or successful completion of this requirement at another North Dakota University System (NDUS) institution.

The Paraprofessional Educator program prepares students for employment as teacher aides in elementary and secondary schools. Paraprofessional Educators provide instructional support such as one-to-one and small group tutoring, assistance with classroom management and instruction, help with clerical tasks, assistance in a computer lab or library media center, and facilitation of parent involvement activities. Paraprofessional Educators may monitor and support special education students in resource rooms, mainstream classrooms, and in daily living settings based on goals in individualized education plans. A criminal background check is required for this program. Program graduates are “highly qualified” paraprofessionals under N.D. Department of Public Instruction criteria and are eligible to apply for the N.D. Paraprofessional Certificate of completion credential.

## First Year Experience

## Associate Degree Nursing (AAS)

### Degree Type

Associate of Applied Science

### Available Locations

Bottineau,  
Minot,  
Valley City

### Program Manager:

Paige Baade, Assisant Dean for Nursing & Health Professions

701-228-5444

[paige.baade@dakotacollege.edu](mailto:paige.baade@dakotacollege.edu)

### Program Advisor:

Paige Baade, Dean for Nursing & Health Professions

701-228-5444

[paige.baade@dakotacollege.edu](mailto:paige.baade@dakotacollege.edu)

The Program is offered through a consortium of four colleges in North Dakota. The member colleges are Bismarck State College (BSC), Dakota College, Lake Region State College (LRSC), and Williston State College (WSC).

Classroom education is delivered by instructors on campus and from the other college within the consortium TEAMS. Some courses/components will be offered in online format. Laboratory and simulation practice occur at each location. Clinical opportunities are arranged locally.

The associate degree nursing curriculum prepares individuals with the knowledge, skill, and ability to practice nursing through application of the nursing process to provide safe and effective nursing care.

Upon completion of the program, the individual is qualified to apply to take the National Council Licensure Examination for Registered Nurses (NCLEX RN®), as required by the North Dakota State Board of Nursing for licensure as a Registered Nurse (RN). Graduates are encouraged to continue to an RN to Bachelor of Science in Nursing (BSN) program.

Employment for RNs can be found in hospitals, long term care facilities, clinics, outpatient offices, home health care services, healthcare industry, community and public health, schools, correctional facilities, and the military.

As program requirements can change yearly, please refer to the Dakota College website <https://www.dakotacollege.edu/academics/programs/nursing> for the most up to date information.

### PREPARATION AND REQUIREMENTS FOR THE ASSOCIATE DEGREE PROGRAM FOR INTERNAL APPLICANTS:

For Current DNP PN Students and Paramedic to Nurse Bridge Students requesting admission:

1. Successful completion of the first year of the Dakota Nursing Program with a minimum GPA of 2.75 in the 42 credit course requirements as defined in the PN curriculum or successful completion of the LRSC Paramedic to Nurse Bridge Program with a minimum GPA of 2.75 in the 9 credit course requirements as defined in the Paramedic to Nurse Bridge Curriculum. The student must maintain an overall GPA of 2.5 in either program.
2. An application dated no later than March 5th of the year the student will be entering the 2nd year of the program.
3. ATI PN Comprehensive Predictor report showing an individual composite score which equals a predicted probability of passing the NCLEX-PN of 92%. Students achieving a score of less than 92% predicted probability on the first attempt will be required to retake the predictor after remediating on the topics they failed. Applicants will be allowed two (2) attempts to pass the NCLEX-PN Predictor per application process. A

student may be considered for admission after a successful retake, however, the internal student (current Dakota Nursing Program student) failing the predictor on first attempt will not be considered for admission until after all qualified applicants meeting the application criteria and deadlines have been screened and accepted.

4. Positive recommendations from nursing administration and nursing faculty.

#### CHECKLIST FOR INTERNAL ADN APPLICANTS

- Complete the electronic application for the Dakota Nursing Program
- Pass a preadmission examination (ATI Comprehensive PN Predictor)
- References: DNP students are not required to submit additional references. Faculty evaluations of the student from previous PN clinical courses are strongly considered by the interview committee.

**All applicants will be notified of preliminary status by June 1st with final acceptance after completion of the ATI PN Comprehensive Predictor during the first week of July.**

**\*Incoming applicants who are qualified for admission will be on a waiting list until all internal applicants have completed the ATI PN Comprehensive Predictor during the first week of July.**

*Incomplete applications are not able to be processed and will be refused.*

#### PREPARATION AND REQUIREMENTS FOR THE ADVANCE STANDING ASSOCIATE DEGREE PROGRAM:

Admission to the Dakota Nursing Program is on a competitive basis. The following are prerequisites for consideration for Admission to the Associate Degree Nursing Program:

1. Applicant is:
  - a. A graduate from a state board approved PN program from an accredited college and current LPN with an active, unencumbered license to practice as a Licensed Practical Nurse in the United States of America. OR
  - b. A graduate from a state board approved paramedic program and a current paramedic, of at least two years' experience, with an active, unencumbered, license to practice as a paramedic in the United States of America AND have completed the LRSC Paramedic to Nurse Bridge Program.
2. Minimum GPA of 2.75 in all prerequisite courses (including prior practical nursing classes) and an overall minimum GPA of 2.5
3. Admission to the college of choice as well as completion of a formal application to the Dakota Associate Degree Nursing Program. **Admission to the college does not guarantee admission to the ADN program.** Application forms for admission to the Dakota ADN Program may be obtained on the Dakota Nursing Program website at [www.dakotanursing.org](http://www.dakotanursing.org) beginning December 1st with application due on or before March 5th.
4. Pass a preadmission examination – ATI Comprehensive PN Comprehensive Predictor report showing an individual composite score which equals a predicted probability of passing the NCLEX-PN of 92%. Students achieving a score of less than 92% predicted probability on the first attempt will be required to wait 30 days until retaking the predictor after remediating on the topics they failed. Comprehensive PN Predictor scores are valid for up to one (1) year prior to March 5th of the year of application. Applicants will be allowed two (2) attempts to pass the NCLEX-PN Predictor per application process. Contact the nursing coordinator or testing center at your local campus to schedule your test date on or before the application period. A student may be considered for admission after a successful retake, however, the internal student (current Dakota Nursing Program student) failing the predictor on first attempt will not be considered for admission until after all qualified applicants meeting the application criteria and deadlines have been screened and accepted.
5. Currently enrolled (if competitive) or satisfactory completion with a "C" or better in each of the following courses:
  - All required nursing courses from an approved Practical Nursing Program
  - ENGL 110 Composition I
  - PSYC 111 Introduction to Psychology
  - BIOL 220 Anatomy and Physiology I with lab
  - BIOL 221 Anatomy and Physiology II with lab
  - PHRM 215 Introduction to Pharmacology (must have been completed within 7 years of ADN admission).
  - PSYC 250 Developmental Psychology
6. A certain level of English proficiency is necessary for academic success in nursing as well as for patient safety. In addition to general college English proficiency requirements, all applicants for whom English is not their native language (including International and/or U.S. residents) or who have not attended 4 years of U.S. high school and achieved a HS GPA of 3.0 or higher must meet additional language proficiency requirements for admission to the Dakota Nursing Program. These requirements must be met prior to consideration for admission.

### Minimum TOEFL Scores for Admission to the Dakota Nursing Program

To be considered for admission to the pre-licensure program, English as a second language (ESL) applicants must achieve minimum scores on the TOEFL internet-based test (TOEFL iBT) of:

#### Minimum Cumulative Score of:

- 86 Combined

#### AND Minimum Individual Scores of:

- 26 in Speaking
- 20 in Writing
- 20 in Reading
- 20 in Listening

### Test Preparation and Registration

- Complete information on the TOEFL iBT, including free test preparation materials, testing sites, and registration is available online at <https://www.ets.org/toefl>. Applicants may register for the TOEFL iBT by Internet, telephone (1-800-468-6335) or mail.
- Request official TOEFL iBT scores to be sent to:
  - Bismarck State College – Enter Institution DI Code: 6041
  - Dakota College – Enter Institution DI 3398
  - Lake Region State College – Enter Institution DI Code: 6163
  - Williston State College – Enter Institution DI Code: 6905
- Only official score reports will be accepted. TOEFL scores are valid for two years from the test date.
- The cost of any/all required testing is the sole responsibility of the applicant.
- Applicants are allowed two (2) attempts at the TOEFL exam with a minimum of 4 weeks (28 days) between attempts per application period.

### Duolingo English Test (DET) Information and Scores for Admission to the Dakota Nursing Program Minimum Overall Score of:

- 115

It is expected that the applicant reaches a content score (variation as determined by the admission and progression committee) of 90 in the following four areas:

- Literacy (Reading)
- Comprehension (Listening)
- Conversation (Speaking)
- Production (Writing)

### Test Preparation and Registration

- Complete the registration process at <https://englishtest.duolingo.com/applicants>
- Request score be sent to your college. (BSC, DCB, LRSC, WSC)
- Only official score reports will be accepted. DET scores are valid for two years from the test date.
- The cost of any/all required testing is the sole responsibility of the applicant.
- Applicants are allowed two (2) attempts at the DET with a minimum of 30 days between attempts per application period.

Nursing students for whom English is not their native language should be aware that they may not be able to complete the program of study within the described time frame. Students are encouraged to consult the nursing advisor before submitting the nursing program application. This gives the opportunity to discuss requirements and to decide to either take the TOEFL exam if applicable or seek assistance to be successful on the TOEFL exam in the future.

### Reference:

A Minimum English Proficiency Standard for The Test of English as a Foreign Language Internet-Based Test (TOEFL iBT) (2009). Retrieved July 12th, 2015, at [https://www.ncsbn.org/TOEFL\\_iBT\\_Proficiency\\_Standard\\_Process.pdf](https://www.ncsbn.org/TOEFL_iBT_Proficiency_Standard_Process.pdf)

Students accepted into the nursing program must have access to reliable, high-speed internet.

### Checklist for the Advance Standing ADN (LPN to RN) Applicants

1. Complete an application for admission to your local college (Dakota College)
2. Complete the electronic application for the Dakota Nursing Program with a current, valid, unencumbered United States LPN license number for verification.
3. Provide copy of current CPR certification for BLS Provider
4. Pass a preadmission examination (ATI Comprehensive PN Predictor).
5. If required by English as a second language (ESL) applicant, TOEFL exam results.
6. Provide 2 professional references.

**\*All applicants will be invited to an interview if they meet all requirements and will be notified by July 30th.**

**\*Advanced Standing applicants who are qualified for admission will be on a waiting list until all internal applicants have completed the ATI PN Comprehensive Predictor during the first week of July.**

***Incomplete applications are not able to be processed and will be refused.***

### First Year Experience

All new freshman students at Dakota College are required to enroll in [UNIV 105 First Year Experience](#). An exception to this requirement will be made for transfer students who have earned 24 college-level credits prior to attending or who have successfully completed a similar freshman orientation course for credit at another higher education institution. The course orients students to college and examines topics that are important for student success and positive student outcomes.

### Digital Literacy Requirement

All associate degrees offered by Dakota College at Bottineau (DCB) require students to meet the digital literacy standard as identified in SBHE Policy 461. Students may accomplish this requirement through any of the following instructional methods: successful completion of one of the courses outlined in the DCB Digital Literacy policy, or successful completion of a non-credit self-paced module, or successful completion of an approved course through the Dakota Digital Academy, or successful completion of this requirement at another North Dakota University System (NDUS) institution.

### Associate Degree Nurse Curriculum

Fall Semester

Course Code	Title	Credits

## Dental Assisting AAS

### Degree Type

Associate of Applied Science

### Available Locations

Minot

### Program Manager:

Rhonda Edwardson

701-858-3184

[rhonda.edwardson@dakotacollege.edu](mailto:rhonda.edwardson@dakotacollege.edu)

### Program Advisor:

Ricki Hill, Instructor

701-858-3183

[ricki.hoffman@dakotacollege.edu](mailto:ricki.hoffman@dakotacollege.edu)

The Dental Assisting program prepares students to become skilled members of the dental health care team. Dental assistants are dental professionals who work side by side with the dentist during patient care. They greatly increase the efficiency of the dentist in the delivery of oral health care and perform a wide range of responsibilities. Qualities that make a successful dental assistant include good interpersonal, technical, communication, and organizational skills.

### Preparation and Requirements – Admission to Dental Assisting Program

- High School Diploma or GED Certificate
  - High School GPA of 2.5 or greater. If a student has completed 12 credits of college level classes, the college GPA will be considered instead of the HS GPA and must be a 2.0 or greater.
- Students must be 18 years of age by December 31<sup>st</sup> of the year they start the program.
- Application and admission to DCB is required before applying to the Dental Assisting Program. There are two application processes – First to the college and then to the dental assisting program.
- Proof of Math and English Placement Scores. (See DCB Placement Scores)
- Current CPR Certification for American Red Cross Healthcare Provider or American Heart Association Basic Life Support (BLS) Provider – must include a hands-on component. Students must remain current throughout the program.
- Proof of dental practice observations. (4 hours each in two separate practices)
- Proof of Math Skill Readiness.
 

Student must have completed at minimum:

The developmental math course (ASC 94 or other pre-requisite math course that would qualify a student to take Math 103) with a grade of Satisfactory or “C” or a higher-level math course (such as MATH 103 College Algebra) or Equivalent scores for ACT/PLAN/SAT/COMPASS and/or Accuplacer taken within the last two years.
- Proof of Academic Readiness, TEAS:

- a. All applicants are required to complete the most current Assessment Technologies Institute (ATI), standardized **Test of Essential Academic Skills (TEAS)** prior to application deadlines.
  - i. Applicants are allowed two (2) attempts at the TEAS exam with a minimum of 4 weeks (28 days) between attempts per application period.
  - ii. A minimum TEAS composite score must be 45 or greater. Any applicant scoring below this number will not be accepted. The best score achieved, of two attempts, may be submitted.
  - iii. TEAS scores are valid for up to two (2) years prior to May 15<sup>th</sup> of the year of application.
  - iv. It is to your advantage to double check the other parts of your application to make sure you are qualified in the other areas before you attempt the TEAS exam.
  - v. It is recommended that you use the study materials on the TEAS website to score well on the exam. As noted above you may repeat the TEAS to better your chance of admission.
9. For any required college courses completed prior to admission, the grade in that course must be a 2.0 (C) or higher, and Dental Assisting GPA for all completed required Dental Assisting courses must be 2.0 or higher.
  - a. BIOL 220 Anatomy and Physiology I and BIOL 221 Anatomy & Physiology II (must be taken within the last 7 years)
  - b. COMM 110 Fundamentals of Public Speaking
  - c. DENT 116 Dental Anatomy (must be taken within last 7 years)
10. Guidelines for approval include:
  - a. High School GPA of 2.5 or greater **or**
  - b. If a student has completed 12 credit of college level classes, the college GPA will be considered instead of the HS GPA and must be a 2.0 or greater.
  - c. No required course may have a grade lower than 2.0 (C).
  - d. If a student repeats a required science course or previous Dental Assisting course, a grade of 2.0 (C) or higher **must be obtained in the first repeat**. An appeal process may be sought if the student has failed science courses more than 2 times.
  - e. Observation in two different dental practices prior to applying to the Dental Assisting program.
11. A certain level of English proficiency is necessary for academic success in Dental Assisting as well as for client safety. In addition to general college English proficiency requirements, all applicants born outside of the United States or Canada and applicants for whom English is not their native language (including international and/or U.S. residents) or who have not attended 4 years of U.S. high school and achieved a HS GPA of 3.0 or higher must meet additional language proficiency requirements for admission to the DCB Dental Assisting Program. These requirements must be met prior to consideration for admission.

#### **Minimum TOEFL Scores for Admission to the DCB Dental Assisting Program**

To be considered for admission to the pre-licensure program, English as a second language (ESL) applicants must achieve minimum scores on the TOEFL internet-based test (TOEFL iBT) of:

#### **Minimum Cumulative Score of:**

86 Combined

#### **AND minimum individual scores of:**

26 in Speaking

20 in Writing

20 in Reading

20 in Listening

#### **Test Preparation and Registration**

- a. Complete information on the TOEFL iBT, including free test preparation materials, testing sites, and registration is available online at <https://www.ets.org/toefl>. Applicants may register for the TOEFL iBT by internet, telephone (1-800-468-6335) or mail.
  1. Request official TOEFL iBT scores to be sent to:
- b. DCB College at Bottineau – Enter Institution DI 3398.
- c. Only official score reports will be accepted. TOEFL scores are valid for two years from the test date.
- d. The cost of any/all required testing is the sole responsibility of the applicant.
- e. Applicants are allowed two (2) attempts at the TOEFL exam with a minimum of 4 weeks (28 days) between attempts per application period.

Dental Assisting students for whom English is not their native language should be aware that they may not be able to complete the program of study within the described time frame. Students are encouraged to consult the Dental Assisting advisor before submitting the Dental Assisting program application. This gives the opportunity to discuss requirements and to arrange to either take the TOEFL exam if applicable or seek assistance to be successful on the TOEFL exam in the future.

## 12. Laptop Computer

Dental program students must have a laptop computer. The cost will be in addition to the cost of tuition, fees, and books. The computer must be a Windows-based system. Dakota College students have access to Office 365 in the student portal. The required computer specification can be found at: <https://www.dakotacollege.edu/student-life/computer-services#contact>

## 13. Transportation

Students must have transportation available to and from campus, clinical affiliations, etc.

**Checklist for the Dental Assisting Program**

1. Complete an application for admission to DCB
2. Complete the electronic application for the DCB Dental Assisting Program
3. Submit copy of dental practice observations
4. Provide proof of math skill readiness (ACT, SAT or COMPASS, or transcript with math course)
5. Provide proof of academic readiness (ACT, SAT, or COMPASS, or transcript with 12 required credits)
6. Submit TEAS test results
7. If required by English as a second language (ESL) applicants, TOEFL exam results

**If your application is complete and you meet all requirements above, you will be invited to an interview as a final step in the application process.**

**After you are accepted into the Program**, the Dental Assisting Program Director will be sending you information on how to enroll in CastleBranch, which is a software program that will guide you through completing a Background Check and Drug Screen as well as keeping track of the required immunizations for the Dental Assisting Program. The total cost is \$145.00 and is the student's financial responsibility.

Required immunizations once you are admitted to the DCB Dental Assisting Program.

Documentation will be due by July 15 (\*unless specified).

1. Documentation of two Measles, Mumps, Rubella vaccination or Rubella positive titer.
2. Documentation of three Hepatitis B immunizations, positive titer, or a waiver.
3. Documentation of two Varicella (Chicken Pox) vaccinations or proof of a positive titer.
4. Documentation of Tdap (Tetanus, Diptheria & Pertussis) vaccination within the last ten years.
5. Documentation of a negative two-step TB Skin Test (Mantoux), or QuantiFERON Gold blood test or Tspot. If positive, a copy of the lab report or a clear chest x-ray completed within the last year is required. This requirement will be a yearly renewal.
6. Documentation of a flu shot administered during the current flu season. \*This requirement will not be due until October 1 to ensure administration of current vaccination and will be a yearly renewal.
7. Covid-19 Vaccination could be required, depending on requirements of individual clinical sites.
8. Submit copy of current CPR certification.

**All applicants who meet the March 15<sup>th</sup> deadline will be notified of status by March 21**

**Incomplete applications are not able to be processed and will be refused.**

**First Year Experience**

All new freshman students at Dakota College are required to enroll in [UNIV 105 First Year Experience](#). An exception to this requirement will be made for transfer students who have earned 24 college-level credits prior to attending or who have successfully completed a similar freshman orientation course for credit at another higher education institution. The course orients students to college and examines topics that are important for student success and positive student outcomes.

## Digital Literacy Requirement

All associate degrees offered by Dakota College at Bottineau (DCB) require students to meet the digital literacy standard as identified in SBHE Policy 461. Students may accomplish this requirement through any of the following instructional methods: successful completion of one of the courses outlined in the DCB Digital Literacy policy, or successful completion of a non-credit self-paced module, or successful completion of an approved course through the Dakota Digital Academy, or successful completion of this requirement at another North Dakota University System (NDUS) institution.

### Pre-requisites (must be completed prior to program admission)

## Dental Hygiene AAS

### Degree Type

Associate of Applied Science

### Available Locations

Minot

### Program Manager:

Rhonda Edwardson

701-858-3184

[rhonda.edwardson@dakotacollege.edu](mailto:rhonda.edwardson@dakotacollege.edu)

### Program Advisor:

Kelsey Tate, Instructor

701-858-3183

[kelsey.tate@dakotacollege.edu](mailto:kelsey.tate@dakotacollege.edu)

The Dental Hygiene program prepares students to become licensed oral health care professionals who provide preventative oral health care by assessing patient risk for oral diseases and providing appropriate patient-centered education and treatment. The dental hygienist works independently, and under the supervision of a dentist and is an essential member of the dental team. Besides providing clinical dental hygiene services, a dental hygienist may choose from several career paths, such as corporate, public health, researcher, educator, administrator or entrepreneur.

### First Year Experience

All new freshman students at Dakota College are required to enroll in [UNIV 105 First Year Experience](#). An exception to this requirement will be made for transfer students who have earned 24 college-level credits prior to attending or who have successfully completed a similar freshman orientation course for credit at another higher education institution. The course orients students to college and examines topics that are important for student success and positive student outcomes.

[amy.hofmann@dakotacollege.edu](mailto:amy.hofmann@dakotacollege.edu)

Sonographers are often found performing ultrasound procedures at a patient's bedside, but also may work with imaging equipment in a dedicated room within the hospital or clinic. Most diagnostic sonographers work full time, and some may be assigned to work evenings, weekends or on holidays depending on their employer. Often the role requires being on your feet for most of the workday.

### First Year Experience

All new freshman students at Dakota College are required to enroll in [UNIV 105 First Year Experience](#). An exception to this requirement will be made for transfer students who have earned 24 college-level credits prior to attending or who have successfully completed a similar freshman orientation course for credit at another higher education institution. The course orients students to college and examines topics that are important for student success and positive student outcomes.

### Digital Literacy Requirement

## Medical Assistant - Pre-Nursing AAS

### Degree Type

Associate of Applied Science

### Available Locations

Bottineau,  
Minot,  
Online,  
Valley City

### Program Manager:

Heidi Hauf, Assistant Professor  
701-228-5453  
[heidi.hauf@dakotacollege.edu](mailto:heidi.hauf@dakotacollege.edu)

**Program Advisor:**

Heidi Hauf, Assistant Professor

701-228-5453

[heidi.hauf@dakotacollege.edu](mailto:heidi.hauf@dakotacollege.edu)**THIS PROGRAM IS AVAILABLE ONLINE**

Medical assistants perform routine administrative and clinical tasks to keep the offices and clinics of physicians and other healthcare providers running smoothly. Medical assistants often directly assist the physician by preparing patients for examinations, taking vital signs, obtaining medical histories, and assisting in basic office surgical procedures. A criminal background check is required for this program.

**First Year Experience**

All new freshman students at Dakota College are required to enroll in [UNIV 105 First Year Experience](#). An exception to this requirement will be made for transfer students who have earned 24 college-level credits prior to attending or who have successfully completed a similar freshman orientation course for credit at another higher education institution. The course orients students to college and examines topics that are important for student success and positive student outcomes.

**Digital Literacy Requirement**

All associate degrees offered by Dakota College at Bottineau (DCB) require students to meet the digital literacy standard as identified in SBHE Policy 461. Students may accomplish this requirement through any of the following instructional methods: successful completion of one of the courses outlined in the DCB Digital Literacy policy, or successful completion of a non-credit self-paced module, or successful completion of an approved course through the Dakota Digital Academy, or successful completion of this requirement at another North Dakota University System (NDUS) institution.

## Paramedic Technology AAS

### Degree Type

Associate of Applied Science

### Available Locations

Bottineau,

Minot

### Program Manager:

Mary Jund, Instructor

701-858-6308

[mary.jund@dakotacollege.edu](mailto:mary.jund@dakotacollege.edu)

### Program Advisor:

Heidi Hauf, Assistant Professor  
 701-228-5453  
[heidi.hauf@dakotacollege.edu](mailto:heidi.hauf@dakotacollege.edu)

The Paramedic Technology program prepares students for a rewarding opportunity in the growing field of emergency medical services. Paramedics provide vital emergency services to a variety of patients. They are typically dispatched by 911 operators to the scene of an accident or other situations in which immediate emergency medical services are required. They may also provide transportation from one medical facility to another. Graduates in this program may be employed with fire departments, public and private ambulance services, rescue squads, emergency medical services and hospitals. The Paramedic Technology program is delivered through a combination of Interactive Video Network (IVN) and on-site methods. Students will receive academic components of the program via IVN, while hands-on, clinical components will be taught by certified instructors on-site. This combination of delivery methods will provide a quality education that is flexible and accessible. Current distance delivery sites in North Dakota include Minot and Bottineau. Additional sites may be available depending on demand. Students must have successfully completed the National Registry of Emergency Medical Technicians (NREMT) EMT Certification prior to being admitted into the program. Upon completion of the program students will be required to complete the NREMT computer based testing and practical examination to become certified as a paramedic. A criminal background check is also required. The Dakota College paramedic program is accredited by the Commission on Accreditation of Allied Health Education Programs ([www.caahep.org](http://www.caahep.org)) upon the recommendation of the Committee on Accreditation of Education Programs for the Emergency Medical Services Professions (CoAEMSP).

To contact CoAEMSP: 8301 Lakeview Parkway Suite 111-312, Rowlett, TX 75088 214-703-8445; FAX 214-703-8992; [www.coaemsp.org](http://www.coaemsp.org)

To contact CAAHEP: Commission on Accreditation of Allied Health Education Programs, 25400 U.S. Highway 19 N, Suite 158, Clearwater, FL 33763; [www.caahep.org](http://www.caahep.org).

The **Dental Office Manager program** provides the skills necessary for overseeing the operational and administrative aspects of a dental office. Students learn about dental office management, healthcare regulations, financial management, patient care, marketing, and team leadership. The program is structured to cover both the technical and managerial aspects of running a dental practice, preparing individuals for the challenges of this profession.

## Practical Nursing Certificate

Degree Type

Certificate

Available Locations

Bottineau,

Minot,  
Valley City

**Program Manager:**

Paige Baade, Assistant Dean for Nursing & Health Professions  
701-228-5444  
[paige.baade@dakotacollege.edu](mailto:paige.baade@dakotacollege.edu)

**Program Advisor:**

Paige Baade, Dean for Nursing & Health Professions  
701-228-5444  
[paige.baade@dakotacollege.edu](mailto:paige.baade@dakotacollege.edu)

The Dakota Nursing program is a 1 + 1, Practical Nurse Certificate to Associate Degree Nurse (RN) Program. The program is offered through a consortium of four colleges in North Dakota. The member colleges are Bismarck State College (BSC), Dakota College, Lake Region State College (LRSC), and Williston State College (WSC).

Classroom education is delivered by instructors on campus and from the other college within the consortium through TEAMS. Some courses/ components will be offered in online format. Laboratory and simulation practice occur at each location. Clinical opportunities are arranged locally.

The Practical Nursing Program is designed to provide the knowledge and skills necessary for students to enter a challenging career in nursing. This high-quality education meets the requirements for a Certificate in Practical Nursing. Upon completion of the program, the individual is qualified to apply to take the National Council Licensure Examination for Practical Nurses (NCLEX PN®), as required by the North Dakota State Board of Nursing for licensure as a Licensed Practical Nurse (LPN). The student is also able to move into the Associate Degree RN program upon completion if all qualifications are met.

As program requirements can change yearly, please refer to our website <https://www.dakotacollege.edu/academics/programs/nursing> for the most up to date information.

**Preparation and requirements – Admission to Practical Nurse Program**

Admission to the program is on a competitive basis. The following are prerequisites for consideration for admission to the Certificate in Practical Nursing:

1. High School Diploma or GED Certificate
  - a. High School GPA of 2.5 or greater. If a student has completed 12 credits of college level classes, the college GPA will be considered instead of the HS GPA.
2. Students must be 18 years of age by December 31st of the year they start the program.
3. Application and admission to the respective college is required before applying to the nursing program. There are two application processes – first to the college and then to the nursing program. When completing the DNP application online, be prepared to upload a 300-600 word Narrative Statement summarizing your education/work experience and how those experiences will help you progress through the nursing program. Also include why you want to be a nurse and why this is a good time in your life to pursue a nursing degree.
4. Current CPR Certification for BLS Provider (American Heart Association) or CPR/Healthcare Provider (Red Cross) and must be updated to remain current throughout the program.
5. Proof of Math Skill Readiness. Student must have completed **at minimum**:
  - a. The developmental math course (ASC 94 or other prerequisite math course that would qualify a student to take MATH 103) with a grade of Satisfactory or “C” or a higher-level math course (such as MATH 103 College Algebra) **or**
  - b. Equivalent Scores for ACT/PLAN/SAT/COMPASS and/or Accuplacer as listed below and taken within the past 2 years:

Test	Test Component	Minimum Score	Comments
Accuplacer Next Generation	College Algebra	255	Accuplacer scores effective January 2, 2019.

Test	Test Component	Minimum Score	Comments
Accuplacer Classic	Elementary Education	76	Accuplacer scores effective October 12, 2019 – January 2, 2019. With the scores to the left, you would not need to take any ASC Math classes for admission to Nursing. This platform has been discontinued but check with your college to see if they will still accept Classic scores for admission.
Accuplacer Classic	College Level Math	50	
ACT	Math Subtest	21	
ACT Aspire	Math Subtest	431	
ACT Compas	Algebra	49	This assessment will no longer be available after November 30, 2016, but scores will be accepted by the DNP until June 20, 2019
ACT Plan	Math Subtest	19	The ACT Plan has been replaced with the ACT Aspire Assessment
SAT (old)	Reading & Math	990	SAT tests taken prior to March 5, 2016.
SAT (new)	MATH	530	SAT tests taken on March 5, 2016 and later.

#### 6. Proof of Academic Readiness:

- a. All applicants are required to complete the most current Assessment Technologies Institute (ATI), standardized **Test of Essential Academic Skills (TEAS)** prior to application deadlines.
  - i. Applicants are allowed two (2) attempts at the TEAS exam with a minimum of 4 weeks (28 days) between attempts per application period.
  - ii. A minimum TEAS composite score must be 45.0% or higher. Any applicant scoring below this level will not be accepted. The best score achieved, of two attempts, may be submitted. Last year the average TEAS score for all admitted applicants was within the Proficient level.
  - iii. TEAS scores are valid for up to two (2) years prior to March 5th of the year of application.
  - iv. It is to your advantage to double check the other parts of your application to make sure you are qualified in the other areas before you attempt the TEAS exam.
  - v. It is recommended that you use the study materials on the TEAS website to score well on the exam. As noted above you may repeat the TEAS to better your chance of admission.
- b. ACT composite score of 19, **or**
  - i. ACT/COMPASS/ASSET/Accuplacer/SAT test(s) with an equivalent score, **or**
  - ii. Successful completion of 12 credits of college courses with a minimum GPA of 2.5

#### 7. Guidelines for approval include:

- a. High School GPA of 2.5 or greater **or**
- b. If a student has completed 12 credits of college level classes, the college GPA will be considered instead of the HS GPA. Nursing GPA for any completed required nursing program courses must be 2.75 or higher.
- c. Overall cumulative GPA for all college courses completed must be 2.5 or higher.
- d. No required course may have a grade lower than 2.0 (C).
- e. If a student repeats a required science course or previous nursing course, a grade of 2.0 (C) or higher **must be obtained in the first repeat (A & P I and II, Microbiology)**. An appeal process may be sought if the student has failed science courses more than 2 times.
- f. Critical courses completed more than 7 years prior to program application must be repeated: Anatomy and Physiology II, Developmental Psychology, and Introduction to Pharmacology.
- g. Experience working in a health care environment is encouraged before making an application to the nursing program. For example, Nursing Assistant (CNA), Emergency Medical Technician (EMT), Medical Assistant, Direct Support Professional (DSP), etc.

8. A certain level of English proficiency is necessary for academic success in nursing as well as for client safety. In addition to general college English proficiency requirements, all applicants for whom English is not their native language (including International and/or U.S. residents) or who have not attended 4 years of U.S. high school and achieved a HS GPA of 3.0 or higher must meet additional language proficiency requirements for admission to the Dakota Nursing Program. These requirements must be met prior to consideration for admission.

### Minimum TOEFL Scores for Admission to the Dakota Nursing Program

To be considered for admission to the pre-licensure program, English as a second language (ESL) applicants must achieve minimum scores on the TOEFL internet-based test (TOEFL iBT) of:

#### Minimum Cumulative Score of:

- 86 Combined

#### AND Minimum Individual Scores of:

- 26 in Speaking
- 20 in Writing
- 20 in Reading
- 20 in Listening

### Test Preparation and Registration

- Complete information on the TOEFL iBT, including free test preparation materials, testing sites, and registration is available online at <https://www.ets.org/toefl>. Applicants may register for the TOEFL iBT by Internet, telephone (1-800-468-6335) or mail.
- Request official TOEFL iBT scores to be sent to:
  - Bismarck State College – Enter Institution DI Code: 6041
  - Dakota College – Enter Institution DI 3398
  - Lake Region State College – Enter Institution DI Code: 6163
  - Williston State College – Enter Institution DI Code: 6905
- Only official score reports will be accepted. TOEFL scores are valid for two years from the test date.
- The cost of any/all required testing is the sole responsibility of the applicant.
- Applicants are allowed two (2) attempts at the TOEFL exam with a minimum of 4 weeks (28 days) between attempts per application period.

### Duolingo English Test (DET) Information and Scores for Admission to the Dakota Nursing Program Minimum Overall Score of:

- 115

It is expected that the applicant reaches a content score (variation as determined by the admission and progression committee) of 90 in the following four areas:

- Literacy (Reading)
- Comprehension (Listening)
- Conversation (Speaking)
- Production (Writing)

### Test Preparation and Registration

- Complete the registration process at <https://englishtest.duolingo.com/applicants>
- Request score be sent to your college. (BSC, DCB, LRSC, WSC)
- Only official score reports will be accepted. DET scores are valid for two years from the test date.
- The cost of any/all required testing is the sole responsibility of the applicant.
- Applicants are allowed two (2) attempts at the DET with a minimum of 30 days between attempts per application period.

Nursing students for whom English is not their native language should be aware that they may not be able to complete the program of study within the described time frame. Students are encouraged to consult the nursing advisor before submitting the nursing program application. This gives the opportunity to discuss requirements and to arrange to either take the TOEFL exam if applicable or seek assistance to be successful on the TOEFL exam in the future.

**Reference:**

A Minimum English Proficiency Standard for The Test of English as a Foreign Language Internet-Based Test (TOEFL iBT) (2009). Retrieved July 12th, 2015, at [https://www.ncsbn.org/TOEFL\\_iBT\\_Proficiency\\_Standard\\_Process.pdf](https://www.ncsbn.org/TOEFL_iBT_Proficiency_Standard_Process.pdf)

- Students accepted into the nursing program must have access to reliable, high-speed internet.
- Students must have transportation available to and from campus, clinical, etc.

**CHECKLIST FOR THE PRACTICAL NURSE PROGRAM**

1. Complete an application for admission to your local college (BSC, DCB, LRSC, or WSC)
2. Complete the electronic application for the Dakota Nursing Program
3. Submit copy of current CPR certification for BLS Provider
4. Provide proof of math skill readiness (ACT, SAT or COMPASS, or transcript with math course)
5. Provide proof of academic readiness (ACT, SAT, COMPASS, or transcript with math course)
6. Submit TEAS test results
7. If required by English as a second language (ESL) applicant, TOEFL exam results

**If your application is complete and you meet all requirements above, you will be invited to an interview as a final step in the application process.**

**After you are accepted into the Program**, your Nursing Director will be sending you information on how to enroll in a software program that will guide you through completing a Background Check and Drug Screen as well as keeping track of the required immunizations for the Nursing Program. The cost is available to you on the Nursing Cost Sheet found in the application area of the DNP website.

Required Immunizations once you are admitted to the Dakota Nursing Program:

- **Measles, Mumps & Rubella** vaccine x2 or positive blood titer or repeat series
- **Varicella (Chicken Pox)** vaccine x2 or positive blood titer or repeat series
- **Hepatitis B** x3 or positive antiHBS titer or repeat series
- **Influenza (Flu)** (to be administered between September 1st – November 1st of the current flu season)
- **Tuberculosis (TB)** Negative reading of 2-step tuberculosis test within the past 12 months or QuantiFERON Gold blood test or T-Spot blood test
- **Tetanus, Diphtheria & Pertussis (Tdap)** History of one Tdap. Tetanus within the last 10 years
- **Other** immunizations as required by clinical agencies

**All applicants who meet the March 5th deadline will be notified of status by June 15th**

***Incomplete applications are not able to be processed and will be refused.***

**Practical Nursing Curriculum**

Fall Semester

Course Code	Title	Credits
BIOL 220	Anatomy and Physiology I	4.0
NURS 120	Foundations of Nursing	2.0
NURS 121	Practical Nursing I	4.0
NURS 122	Clinical Practice II	3.0
PSYC 111	Introduction to Psychology	3.0
	<b>Sub-Total Credits</b>	<b>16</b>

## Spring Semester

Course Code	Title	Credits
BIOL 221	Anatomy and Physiology II	4.0
NURS 124	Clinical Practice II	3.0
NURS 127	Practical Nursing II: Introduction to Medical Surgical Nursing	2.0
NURS 145	Introduction to Maternal Child Nursing	2.0
PHRM 215	Introduction to Pharmacology	3.0
	ENGL 110 or PSYC 250	3.0
	<b>Sub-Total Credits</b>	<b>17</b>

## Summer Semester

Course Code	Title	Credits
NURS 129	Practical Nursing III	3.0
NURS 126	Clinical Practice III	3.0
	ENGL 110 or PSYC 250	3.0
	<b>Sub-Total Credits</b>	<b>9</b>

Upon successful completion of the above curriculum, students will receive a Certificate in Practical Nursing. At this time, the student may choose to apply to continue into year 2, Associate Degree Nurse Program, and/or apply to take the NCLEX-PN®.

*Note: Developmental Psychology and Composition I may be taken prior to or at any time during the PN program.*

	<b>Total Credits</b>	<b>42</b>

# Health, Physical Education, and Recreation

## Athletic Coaching

### Degree Type

Certificate of Completion

### Available Locations

Bottineau

### Program Manager:

Dr. Lexi Kvasnicka-Gates, Professor

701-228-5475

[lexi.kvasnicka@dakotacollege.edu](mailto:lexi.kvasnicka@dakotacollege.edu)

### Program Advisor:

Jacob Pommerer

701-228-5678

[jacob.r.pommerer@dakotacollege.edu](mailto:jacob.r.pommerer@dakotacollege.edu)

The Certificate of Completion in Athletic Coaching provides students with the foundational knowledge and practical skills needed to coach athletes at various levels. The program covers key areas such as sports psychology and injury prevention, preparing students to support athlete development and success. It is ideal for aspiring coaches looking to enhance their coaching expertise and leadership abilities in sports settings.

Course Code	Title	Credits
PSYC 207	Introduction to Sport and Performance Psychology	3.0
HPER 210	First Aid/CPR	1.0
HPER 207	Prevention and Care of Injuries	2.0
	HPER 110 or HPER 213	1.0-2.0
	<b>Sub-Total Credits</b>	<b>7-8</b>
	<b>Total Credits</b>	<b>7-8</b>

*This program is not eligible for Federal Financial Aid. Students enrolled in this program will not be able to receive federal funding, including Pell Grants, federal student loans, or work-study assistance.*

# Natural Resources

## Natural Resource Management AAS

### Degree Type

Associate of Applied Science

### Available Locations

Bottineau

### Program Manager:

Michelle Cauley, Instructor

701-228-5498

[michelle.cauley@dakotacollege.edu](mailto:michelle.cauley@dakotacollege.edu)

### Program Advisor:

Jacob Pommerer

701-228-5678

[jacob.r.pommerer@dakotacollege.edu](mailto:jacob.r.pommerer@dakotacollege.edu)

This program prepares students to perform tasks associated with managing, improving, and protecting natural resources for economic and/or recreational purposes. Program graduates may assist in data collection and inventories of natural resources, providing conservation recommendations to managers, and developing and implementing natural resource management plans.

### First Year Experience

All new freshman students at Dakota College are required to enroll in [UNIV 105 First Year Experience](#). An exception to this requirement will be made for transfer students who have earned 24 college-level credits prior to attending or who have successfully completed a similar freshman orientation course for credit at another higher education institution. The course orients students to college and examines topics that are important for student success and positive student outcomes.

### Digital Literacy Requirement

All associate degrees offered by Dakota College at Bottineau (DCB) require students to meet the digital literacy standard as identified in SBHE Policy 461. Students may accomplish this requirement through any of the following instructional methods: successful completion of one of the courses outlined in the DCB Digital Literacy policy, or successful completion of a non-credit self-paced module, or successful completion of an approved course through the Dakota Digital Academy, or successful completion of this requirement at another North Dakota University System (NDUS) institution.

The Recreation Management program prepares students for employment in a wide variety of recreation and leisure settings. Students in the program may simultaneously or concurrently take classes from multiple campuses within the North Dakota University System. The program is organized around core courses that emphasize administration, program planning, and an understanding of the foundation of recreation. Students must complete all the core courses. In addition, students need to select one of the following focuses: Outdoor Recreation/Park Management or Commercial Recreation/Tourism.

**First Year Experience**

All new freshman students at Dakota College are required to enroll in [UNIV 105 First Year Experience](#). An exception to this requirement will be made for transfer students who have earned 24 college-level credits prior to attending or who have successfully completed a similar freshman orientation course for credit at another higher education institution. The course orients students to college and examines topics that are important for student success and positive student outcomes.

This program prepares students to assist wildlife and fisheries management personnel as technicians studying the distribution, abundance, habits, life history, mortality factors and economic values of birds, mammals, and other wildlife. They can assist in planning and carrying out wildlife management programs, restoring wildlife habitats, regulating wildlife populations, and controlling wildlife diseases. Wildlife and fisheries technicians also assist in studying the life history, habitats, and classification of aquatic organisms.

**First Year Experience**

All new freshman students at Dakota College are required to enroll in [UNIV 105 First Year Experience](#). ### First Year Experience

All new freshman students at Dakota College are required to enroll in [UNIV 105 First Year Experience](#). An exception to this requirement will be made for transfer students who have earned 24 college-level credits prior to attending or who have successfully completed a similar freshman orientation course for credit at another higher education institution. The course orients students to college and examines topics that are important for student success and positive student outcomes.

### Digital Literacy Requirement

All associate degrees offered by Dakota College at Bottineau (DCB) require students to meet the digital literacy standard as identified in SBHE Policy 461. Students may accomplish this requirement through any of the following instructional methods: successful completion of one of the courses outlined in the DCB Digital Literacy policy, or successful completion of a non-credit self-paced module, or successful completion of an approved course through the Dakota Digital Academy, or successful completion of this requirement at another North Dakota University System (NDUS) institution.

# Courses

## Academic Skills

ASC courses numbered below 101 are non-degree credit courses. They do not count as credit towards graduation.

### ASC 87: College Writing Prep

A precollege writing course that prepares students for ENGL 110 College Composition I. Provides instruction in writing error-free sentences, solid paragraphs and well-organized essays.

Credits	3.0
Semester Offered	Fall, Spring

### ASC 88: Composition Lab

This course provides supplemental and developmental instruction for students taking ENGL 110 College Composition I and is taken during the same semester as ENGL 110.

Credits	1.0
Prerequisites	Appropriate English placement or completion of <a href="#">ASC 87</a>
Corequisites	<a href="#">ENGL 110</a>
Semester Offered	Fall, Spring

### ASC 94: Beginning Algebra

This course helps to develop fundamental skills required for the successful completion of studies in college level mathematics courses. Topics include solving linear equations, linear graphing, exponents and polynomial operations, factoring, rational expressions and equations, and roots. Credit earned does not count towards any degree, nor does it transfer. Placement is according to placement scores or on a voluntary basis.

Credits	4.0
Semester Offered	Fall, Spring

**ASC 98: Math Lab**

This course provides supplemental and developmental instruction for students taking MATH 103 College Algebra or MATH 104 Finite Math. This course is taken the same semester as the MATH 103 or 104 course. This course may be required due to ACCUPLACER test results and the course placement policy. Credit earned does not count towards any degree, nor does it transfer.

Credits	1.0
Corequisites	
	<a href="#">MATH 103</a> or <a href="#">MATH 104</a> or <a href="#">MATH 110</a>
Semester Offered	Fall, Spring

## Accounting

**ACCT 200: Elements of Accounting I**

Basic principles of the complete accounting cycle with emphasis on current assets, property, plant and equipment, and current liabilities. Includes lab work using a computerized accounting system.

Credits	3.0
Semester Offered	Fall

**ACCT 201: Elements of Accounting II**

A continuation of ACCT 200 with emphasis on partnerships, corporations, and management accounting. Includes lab work using a computerized accounting system.

Credits	3.0
Prerequisites	
	<a href="#">ACCT 200</a>
Semester Offered	Spring

**ACCT 212: Payroll Accounting**

Introduction to the study of payroll, property, and sales taxes.

Credits	3.0
Prerequisites	
	<a href="#">ACCT 200</a>
Semester Offered	Fall

**ACCT 215: Business in the Legal Environment**

The legal environment of business, governmental regulation, contracts, and property.

Credits	3.0
Semester Offered	Fall, Spring

**ACCT 260: Accounting Information Systems**

Accounting software will be used to study the processes and procedures by which an organization's financial information is accumulated, classified, processed, analyzed, and communicated. Topics include business cycles, controls, integrated accounting software, and spreadsheets.

Credits	2.0
Prerequisites	
	<a href="#">ACCT 200</a>
Semester Offered	Spring

**ACCT 294: Independent Study: Certified Bookkeeper Prof Exam Prep**

This course calls for the supervised preparation and completion of an individual research or creative project.

Credits	3.0
---------	-----

**ACCT 297: Internship**

An Internship is required of most AAS programs. This course is available to AA and AS students as well. The students combine course learning with practical, professional work experience in their chosen field of study. The employer does an evaluation of the work experience. The faculty advisor supervises the students; the students are required to complete a project assigned by the faculty advisor. A minimum of 40 hrs is required to earn one credit. A grade of S/U is given by the faculty.

Credits	2.0
Prerequisites	
	Instructor Approval; 2.0 GPA

**Agriculture****AGRI 150: Agriculture Orientation**

Seminar class that will discuss opportunities and issues in agriculture.

Credits	2.0
Semester Offered	Fall

**AGRI 196: Field Studies I: Agriculture Management and Technology**

Students will work with the instructor prior to determine a comprehensive capstone project which will tie in the skills learned in courses applicable to their farm business. The project should be of interest to the student and be able to be completed over the duration of the late spring/summer. This project could encompass a variety of topics applicable to agricultural production or agricultural business and will be conducted on the student's home farm or farm employer (with proper approval).

Credits	2.0
Semester Offered	Spring

**AGRI 255: Entrepreneurship in Agriculture**

Develop skills and knowledge needed to analyze business opportunities in agriculture.

Credits	3.0
Semester Offered	Fall

**AGRI 296: Field Studies II: Agriculture Management and Technology**

Students will complete a comprehensive capstone project which will tie in the skills learned in courses applicable to their farm business. The project will be launched and completed over the duration of the late spring/summer. This project could encompass a variety of topics applicable to agricultural production or agricultural business and will be conducted on the student's home farm or farm employer (with proper approval). The instructor will approve the project prior to the onset in AGRI 196.

Credits	4.0
Prerequisites	
	<a href="#">AGRI 196</a> Instructor Approval 2.0 GPA
Semester Offered	Summer

**AGRI 297: Internship**

An internship is required of most AAS programs. This course is available to AA and AS students as well. The students combine course learning with practical, professional work experience in their chosen field of study. The employer does an evaluation of the work experience: The faculty advisor supervises the students; the students are required to complete a project assigned by the faculty advisor. A minimum of 40 hrs of work is required to earn one credit. A grade of S/U is given by the faculty.

Credits	1.0
Prerequisites	
	Instructor Approval 2.0 GPA
Semester Offered	Fall, Spring

# Agriculture Economics

## AGEC 141: Introduction to Agribusiness Management

This is an introductory course dealing with the economic importance of the agribusiness community and the potential for employment in the agricultural sector. Topics include marketing, production, risk, financial management, and human resource management in agribusiness firms. Particular attention is given to the application of economic principles to the management of marketing and farm supply firms.

Credits	3.0
Semester Offered	Spring

## AGEC 240: Holistic Management

Comparison of scientific and holistic thought models as applied to personal organizational and biological problem solving and goal setting.

Credits	3.0
Semester Offered	Spring

## AGEC 242: Introduction to Agricultural Management

Economic and managerial concepts related to farm or agribusiness production process, development of cost data, enterprise analysis, organization, and management of production inputs.

Credits	3.0
Semester Offered	Fall

## AGEC 244: Introduction to Agricultural Marketing

Study of the agricultural marketing system to include cash marketing, commodity futures trading, branded products merchandising, and the interrelationship of the government and international trade.

Credits	3.0
Semester Offered	Spring

## AGEC 246: Introduction to Agricultural Finance

Introduction to agricultural finance provides background in farm and agribusiness credit use and evaluation. Discussion of specific financial conditions on farms and in agribusiness. Topics include financial statement preparation and analysis, capital structure (debt and equity), investment analysis, time value of money, interest rates, and credit markets and suppliers.

Credits	3.0
Semester Offered	Spring

**AGEC 250: Agribusiness Sales**

The principles of salesmanship applied to the agricultural business. Topics include attitudes and value systems, basic behavioral patterns, relationship of sales to marketing, selling strategies, preparing for sales calls, making sales presentations, and closing sales.

Credits	3.0
Semester Offered	Fall

**AGEC 275: Applied Agricultural Law**

Study of laws affecting agriculture and agribusiness including property ownership, financial relations, and environmental regulation

Credits	2.0
Semester Offered	Spring

**Allied Health****AH 134: Medical Disorders**

This course provides the student with a basic understanding of human diseases and appropriate interventions. Content includes statistics, risk factors, signs and symptoms, diagnostic studies, and treatments specific to each disease/disorder.

Credits	3.0
Semester Offered	Fall, Spring

**AH 136: Clinical Procedures**

This course has been designed to introduce the student to the duties and responsibilities of medical assistants in clinical practice. Course content includes data collection and documentation, legal issues, physical exams, laboratory and other diagnostic studies, treatment modalities, emergencies, vital signs, and infection control.

Credits	3.0
Prerequisites	<a href="#">AH 134, AH 171</a>
Corequisites	<a href="#">AH 134, AH 171</a>
Semester Offered	Fall

**AH 137: Clinical Specialties**

Knowledge in the clinical specialty area giving basic understanding of terminology, exams, diagnostic testing, and procedures in these areas. Knowledge and procedures related to specialty areas in the clinical setting including geriatrics, OB-GYN, male reproductive system, pediatrics, general body systems, minor surgery, rehabilitation, emergencies, and cardiology.

Credits	2.0
Prerequisites	
<a href="#">AH 134</a> , AH171	
Corequisites	
<a href="#">AH 134</a> , AH171	
Semester Offered	Spring

**AH 138: Medical Coding I**

This course teaches the basic skills needed for medical coding. Emphasis is on CPT coding with practical application.

Credits	3.0
Prerequisites	
<a href="#">AH 134</a> , <a href="#">AH 171</a>	
Corequisites	
<a href="#">AH 134</a> , <a href="#">AH171</a>	
Semester Offered	Fall, Spring

**AH 139: Medical Coding II**

This course teaches the basic skills needed for medical coding. An overview of ICD-9-CM coding and reimbursements issues.

Credits	3.0
Prerequisites	
<a href="#">AH 134</a> , AH171	
Corequisites	
<a href="#">AH 134</a> , AH171	
Semester Offered	Fall, Spring

**AH 142: Intermediate Coding I**

This course gives students the opportunity to analyze medical case studies and code medical records using both CPT and ICD-10 coding methods.

Credits	3.0
Prerequisites	
<a href="#">AH 138</a> , <a href="#">AH 139</a>	
Semester Offered	Fall, Spring

**AH 143: Intermediate Coding II**

This course gives students the opportunity to analyze medical case studies and code medical records using both CPT and ICD-10 coding methods.

Credits	3.0
Prerequisites	
<a href="#">AH 142</a>	
Semester Offered	Fall, Spring

**AH 171: Medical Terminology**

Study of prefixes, suffixes, and root words of medical terms and their meaning, spelling, and pronunciation. Emphasis on building a working medical vocabulary based on body systems.

Credits	3.0
Semester Offered	Fall, Spring

**AH 231: Healthcare Law and Ethics**

This course will cover laws pertaining to health care (confidentiality, patient rights, HIPPA regulations) as well as common ethical problems that are encountered and how these problems are handled.

Credits	3.0
Semester Offered	Fall, Spring

**AH 257: ECG/EKG Interpretation**

This course is designed for students who want to learn the basic ECG skills of measuring, recognizing, and interpreting simple cardiac rhythms. Topics include correct lead placement, troubleshooting poor tracings, recognition, and measurement of various EKG waves.

Credits	2.0
Prerequisites	
<a href="#">AH 137</a>	
Corequisites	
<a href="#">AH 137</a>	
Semester Offered	Spring

**AH 258: Practical Skills Lab**

Students will see, practice, and perform demonstrations of basic medical assistant skills and procedures in a supervised setting. Includes the study of math and medical terminology and use of the medical assisting process and critical thinking skills to organize and provide safe and effective client care under the direct supervision of a licensed professional.

Credits	2.0
Prerequisites	
<a href="#">AH 136</a>	
Semester Offered	Spring

**AH 259: CCMA Exam Prep**

This course is designed to aid the student in studying for a medical assisting credentialing exam. It is focused on all the general, administrative, and clinical topics from the medical assisting curriculum.

Credits	1.0
Prerequisites	
<a href="#">AH 297</a> or Instructor Approval	
Corequisites	
<a href="#">AH 297</a> or Instructor Approval	
Semester Offered	Spring

**AH 266: Laboratory Tests & Diagnostic Procedures**

A comprehensive study of laboratory tests and procedures by body system; radiology procedures; pathology procedures.

Credits	2.0
Prerequisites	
<a href="#">AH 134, AH 137</a>	
Semester Offered	Fall, Spring

**AH 281: Medical Insurance/Billing**

An introduction to the major nationwide medical insurance programs, diagnostic and procedural coding systems, and the filing of claim forms.

Credits	3.0
Prerequisites	
AH 134, AH 171	
Corequisites	
AH 134, AH 171	
Semester Offered	Fall, Spring

**AH 287: Computer Applications in Health Care**

This course is designed to be a practical, hands-on introduction to the electronic health record (EHR). Students will learn to become proficient in the EHR software before they encounter it in their workplace. The student will gain a thorough knowledge of both the terminology of the EHR systems and the practical uses of similar systems in a healthcare setting.

Credits	3.0
Prerequisites	
<a href="#">AH 171</a>	
Semester Offered	Fall, Spring

**AH 297: Internship**

An internship is required of most AAS programs. This course is available to AA and AS students as well. The students combine course learning with practical, professional work experience in their chosen field of study. The employer does an evaluation of the work experience: The faculty advisor supervises the students; the students are required to complete a project assigned by the faculty advisor. A minimum of 40 hrs of work is required to earn one credit. A grade of S/U is given by the faculty.

Credits	1.0-6.0
Prerequisites	
Instructor Approval 2.0 GPA	
Semester Offered	Fall, Spring

**AH 297: Internship**

An internship is required of most AAS programs. This course is available to AA and AS students as well. The students combine course learning with practical, professional work experience in their chosen field of study. The employer does an evaluation of the work experience: The faculty advisor supervises the students; the students are required to complete a project assigned by the faculty advisor. A minimum of 40 hrs of work is required to earn one credit. A grade of S/U is given by the faculty.

Credits	4.0
---------	-----

**Animal Science****ANSC 114: Introduction to Animal Science**

General principles of the livestock industry and relationships to humankind.

Credits	3.0
Semester Offered	Fall

**ANSC 123: Feeds and Feeding**

Principles of feeding livestock including digestive systems, nutrient requirements, nutrient characteristics, and sources utilized in the formulation of balanced rations.

Credits	3.0
Semester Offered	Fall

**ANSC 160: Equine Nutrition**

This course focuses on basic equine nutrition throughout the various stages of equine development and performance. These concepts will be integrated with a practical application of equine feeding.

Credits	2.0
Semester Offered	Fall

**ANSC 220: Livestock Production**

General production and management of major meat animal species. Topics include production systems, feeding, facilities, health, economics, and marketing.

Credits	3.0
Semester Offered	Spring

**ANSC 242: Introduction to Meat Processing**

Introduction to the meat processing industry, livestock meat primal and cuts, and meat grading. This course will expose students to principles and procedures of meat processing, fabrication, and cleaning.

Credits	2.0
Semester Offered	Spring

**ANSC 260: Introduction to Equine Science**

Review of evolution, historical roles of the horse, breeds, and the modern day western equine industry. Topics include introduction to equine anatomy, physiology, selection, nutrition, health care, and general management.

Credits	3.0
Semester Offered	Spring

**Art****ART 110: Introduction to the Visual Arts**

Study and analysis of artistic methods and meaning in the Visual Arts.

Credits	3.0
Semester Offered	Fall, Spring
General Education Area	(ND: HUM)

**ART 182: Art with a Smartphone**

The course will focus on the technical aspects and creative opportunities using smartphone cameras and post-production apps while learning aesthetics, composition, lighting, and other basic principles of design when creating two-dimensional art.

Credits	3.0
Semester Offered	Spring

**ART 210: Art History I**

A survey of western art from Paleolithic to the Renaissance

Credits	3.0
Semester Offered	Fall
General Education Area	(ND: HUM)

**ART 211: Art History II**

A survey of Western art from Renaissance to the present.

Credits	3.0
Semester Offered	Spring
General Education Area	(ND: HUM)

# Biology

## BIOL 111: Concepts of Biology

Concepts of Biology is an introductory level, non-majors transferable class. It is designed to meet the requirements of a Lab Science.

Credits	4.0
Semester Offered	Fall, Spring
General Education Area	(ND: LABSC)

## BIOL 115: Concepts of Anatomy and Physiology

A one-semester course that integrates the structure and function of the human body. The course includes a lab.

Credits	4.0
Semester Offered	Fall, Spring
General Education Area	(ND: LABSC)

## BIOL 121: Intro to Fish and Wildlife

Field and laboratory methods used in game management. Census methods, history of management in legislation, law enforcement and careers in wildlife management.

Credits	4.0
Semester Offered	Fall
General Education Area	(ND: LABSC)

## BIOL 122: Wildlife and Fisheries Techniques

Provide a basic understanding of the biological principles involved in wildlife management, upland game, waterfowl, big game, and non—game.

Credits	4.0
Semester Offered	Spring
General Education Area	(ND: LABSC)

## BIOL 124: Environmental Science

Relation of humans to their environment.

Credits	4.0
Semester Offered	Fall, Spring
General Education Area	(ND: LABSC)

**BIOL 150: General Biology I**

A two-semester sequenced study of the fundamental topics of biology, with an emphasis on cellular biology.

Credits	4.0
Semester Offered	Fall
General Education Area	(ND: LABSC)

**BIOL 150H: General Biology I Honors**

This course is an in-depth study of cellular processes of living organisms.

Credits	1.0
Semester Offered	Fall

**BIOL 151: General Biology II**

A two-semester sequenced study of the fundamental topics of biology, with an emphasis on organismal biology.

Credits	4.0
Prerequisites	<a href="#">BIOL 150</a>
Semester Offered	Spring
General Education Area	(ND: LABSC)

**BIOL 151H: General Biology II Honors**

This course is an in-depth study of the relationship between living organisms and their environment through the lens of zoological or botanical evolution, genetics, and structure and function.

Credits	4.0
Semester Offered	Fall

**BIOL 170: General Zoology**

A survey of the animal kingdom from simple to complex. Major invertebrate and vertebrate animal groups will be covered with emphasis on structure, function, life history characteristics and evolutionary advancements of each. Topics of animal ecology with emphasis on regional species will conclude the course.

Credits	4.0
Prerequisites	<a href="#">BIOL 150</a>
Semester Offered	Spring
General Education Area	(ND: LABSC)

**BIOL 202: Microbiology**

A general survey on the characteristics and importance of microorganisms. Including the morphology and physiology of selected microbes including bacteria, viruses, protists, invertebrates, and fungi. With emphasis on the identification, control of microbes, their relationship to human health and disease.

Credits	4.0
Prerequisites	
<a href="#">BIOL 150</a> or Instructor Approval or <a href="#">NURS 224</a>	
Semester Offered	Fall, Spring
General Education Area	(ND: LABSC)

**BIOL 211: Botany I**

A general botany course covering plant evolutionary history, form, structure, and physiology. Lectures focus on plant diversity through time and general knowledge of plant function with emphasis placed on North Dakota plants. Labs emphasize cells, tissues, phyla, physiology of plants, and classification.

Credits	4.0
Prerequisites	
<a href="#">BIOL 150</a> <a href="#">BIOL 151</a> or Instructor Approval	
Semester Offered	Fall
General Education Area	(ND: LABSC)

**BIOL 220: Anatomy and Physiology I**

Study of structure and function of the human body.

Credits	4.0
Semester Offered	Fall, Spring
General Education Area	(ND: LABSC)

**BIOL 221: Anatomy and Physiology II**

Study of structure and function of the human body.

Credits	4.0
Prerequisites	
<a href="#">BIOL 220</a>	
Semester Offered	Fall, Spring
General Education Area	(ND: LABSC)

**BIOL 230: Ecology**

A study of terrestrial and aquatic succession from communities through biomes. Basic concepts of the interrelationships of grassland, desert, arctic and marine environments.

Credits	4.0
Prerequisites	
<a href="#">BIOL 150</a> or Instructor Approval	
Semester Offered	Fall
General Education Area	(ND: LABSC)

**BIOL 296: Field Studies**

An intensive examination of a research topic in wildlife. The subject of investigation is designed to meet the specific needs of individual students on an independent study basis.

Credits	1.0-3.0
Prerequisites	
Departmental Consent	
Semester Offered	Fall, Spring

**BIOL 297: Internship**

An internship is required of most AAS programs. This course is available to AA and AS students as well. The students combine course learning with practical, professional work experience in their chosen field of study. The employer does an evaluation of the work experience: The faculty advisor supervises the students; the students are required to complete a project assigned by the faculty advisor. A minimum of 40 hrs of work is required to earn one credit. A grade of S/U is given by the faculty.

Credits	1.0-6.0
Prerequisites	
Instructor Approval 2.0 GPA	
Semester Offered	Fall, Spring

**Business****BOTE 108: Business Mathematics**

Review of mathematical fundamentals with emphasis on business applications and problem solving.

Credits	3.0
Semester Offered	Fall, Spring

**BOTE 147: Word Processing**

Use of current word processing software to create professional business documents including letters, memos, reports, tables, forms, brochures, and graphic aids. Advanced features in printing and merging are also practiced.

Credits	3.0
Prerequisites	
Keyboarding Skills	
Semester Offered	Fall, Spring

**BOTE 152: Keyboarding II**

Development of speed and accuracy in keyboarding straight copy and production activities. Emphasis placed on formatting and keying various business documents including memos, letters, reports and tables from straight copy, rough drafts and unarranged material.

Credits	3.0
Semester Offered	Fall

**BOTE 209: Office Management**

Introduction of office management concepts and technology, including office facilities development, office systems, human relations, office ethics and etiquette, and various administrative duties and responsibilities.

Credits	3.0
Semester Offered	Fall

**BOTE 210: Business Communications**

Study of oral and written communication in business settings. Includes exploration of nonverbal and group communication, listening and research skills, cross-cultural communication, job search techniques, ethics, technology, and preparation of business correspondence.

Credits	3.0
Prerequisites	
	<a href="#">ASC 87</a> , <a href="#">ENGL 110</a> or Instructor Approval
Semester Offered	Fall, Spring

**BOTE 217: Records Management**

Study of the systematic control of business records through manual and electronic applications. Records creation, distribution, utilization, retention, storage, protection, preservation, and final disposition are discussed. Materials presented conform to ARMA.

Credits	3.0
Semester Offered	Spring

**BOTE 218: Desktop Publishing**

Software application course providing students skills in electronic layout, editing, and production of documents.

Credits	3.0
Semester Offered	Fall, Spring

**BOTE 247: Spreadsheet Applications**

Intermediate and advanced use of application software for creation of spreadsheets, graphs, databases, and macros. Integration with other software applications is also reviewed.

Credits	3.0
Semester Offered	Spring

**BOTE 297: Internship**

An internship is required of most AAS programs. This course is available to AA and AS students as well. The students combine course learning with practical, professional work experience in their chosen field of study. The employer does an evaluation of the work experience: The faculty advisor supervises the students; the students are required to complete a project assigned by the faculty advisor. A minimum of 40 hrs of work is required to earn one credit. A grade of S/U is given by the faculty.

Credits	1.0-6.0
Prerequisites	
Instructor Approval, 2.0 GPA	
Semester Offered	Fall, Spring

**BOTE 297: Internship**

An internship is required of most AAS programs. This course is available to AA and AS students as well. The students combine course learning with practical, professional work experience in their chosen field of study. The employer does an evaluation of the work experience: The faculty advisor supervises the students; the students are required to complete a project assigned by the faculty advisor. A minimum of 40 hrs of work is required to earn one credit. A grade of S/U is given by the faculty.

Credits	2.0
Prerequisites	
Instructor approval, 2.0 GPA	

**BUSN 170: Entrepreneurship**

An introduction of basic business principles and functions. This study will include types of business ownership, accounting, finance, marketing, management, and the legal and regulatory systems that affect business.

Credits	3.0
Semester Offered	Fall, Spring

## Business Administration

### BADM 120: Intro to Business

Acquaints the student with the American Capitalist model, as well as the systems used by other countries. This course will also provide an overview of all business-related activities.

Credits	3.0
Semester Offered	Fall, Spring

### BADM 201: Principles of Marketing

An introductory course which incorporates both traditional and contemporary aspects of marketing. Topics include environmental analysis and marketing research, consumer analysis, product (service) planning, distribution planning, price planning, promotion planning, social responsibility, and marketing management.

Credits	3.0
Semester Offered	Fall

### BADM 202: Principles of Management

This course is designed to study the basic functions of management which include planning, organizing, directing, and controlling. Management will also be concerned with leadership development and how it relates to a person's role as supervisor, manager, assistant manager, or department head.

Credits	3.0
Semester Offered	Fall, Spring

### BADM 210: Advertising I

This course includes a brief history of advertising and then focuses on the shift from the conventional methods of advertising to the more widely recognized approach of implementing an integrated marketing communications strategy.

Credits	3.0
Semester Offered	Fall, Spring

### BADM 213: Public Relations

Basic public relations; both external and internal. The why, what, how of public relations and marketing as it relates to business; with special emphasis placed on crisis management.

Credits	3.0
Semester Offered	Fall, Spring

**BADM 214: Entertainment Marketing**

The course is designed to include an exploration of the effective marketing and promotion of sports, entertainment, travel, and tourism products. Discussion topics include promotion, endorsements, sales, campaigns, and marketing.

Credits	3.0
Prerequisites	
BADM 201	
Semester Offered	Fall, Spring

**BADM 240: Sales**

This course provides the student with an introduction to the basic principles, concepts, and theories of selling, and their application to the actual sales presentation. Special attention is given to the sales process and both verbal and non-verbal communication techniques.

Credits	3.0
Semester Offered	Fall, Spring

**BADM 260: Principles of Retailing**

This is a practical course designed to introduce students to retail operations and management. The evolution of retailing and its present role in the marketing system as well as the impact of various trends upon retail institutions are examined. Other major areas covered include: the determination of a target market, site selection and store design, store organization, merchandising, pricing, staffing, and training employees, store pro- motion, customer service and control of store operations.

Credits	3.0
Semester Offered	Fall, Spring

**BADM 289: Advertising Campaigns**

This course is a capstone course in the Advertising and Marketing program. Students will utilize knowledge gained in previous classes in addition to the topics covered in this course to create a successful advertising campaign. Students will be expected to: study and analyze existing advertising campaigns, write creative briefs, research, plan, and create their own campaign along with the rationale and visual presentation of their work. Understanding and developing insightful, powerful strategies leading to the implementation of advertising campaigns will be the result of this class.

Credits	3.0
Prerequisites	
<a href="#">BADM 201</a> , <a href="#">BADM 210</a>	
Semester Offered	Spring

**BADM 297: Internship**

An internship is required of most AAS programs. This course is available to AA and AS students as well. The students combine course learning with practical, professional work experience in their chosen field of study. The employer does an evaluation of the work experience: The faculty advisor supervises the students; the students are required to complete a project assigned by the faculty advisor. A minimum of 40 hrs of work is required to earn one credit. A grade of S/U is given by the faculty.

Credits	1.0-6.0
Prerequisites	
Instructor Approval 2.0 GPA	
Semester Offered	Fall, Spring

**Career Studies****CARS 102: Career Exploration**

The student will learn to conceptualize how the 'world of work' is related to them. The students will also gain knowledge about their chosen area of interest by utilizing self-assessment, informational interviews, and market research.

Credits	2.0
Semester Offered	Fall, Spring

**CARS 105: Job Search**

This course will teach students a variety of job search techniques with emphasis on the most effective ways to find post-graduation employment. Areas covered include developing resumes and cover letters, completing job application forms and job interviewing. Students will leave the course with a working professional portfolio.

Credits	1.0
Semester Offered	Fall, Spring

# Chemistry

## CHEM 115: Introductory Chemistry

An introductory level course designed to be the first semester of the General, Organic and Biochemistry sequence, introducing fundamental concepts in chemistry. This course introduces topics of measurement, atomic theory, chemical bonding, ionic and covalent compounds, naming, shape, intermolecular forces, states of matter, stoichiometric relationships, solutions, reaction rates, equilibria, and acid-base chemistry. Includes a laboratory section.

Credits	4.0
Prerequisites	<a href="#">ASC 94</a>
Corequisites	<a href="#">ASC 94</a>
Semester Offered	Fall, Spring
General Education Area	(ND: LABSC)

## CHEM 116: Introduction to Organic and Biochemistry

An introductory level course designed to be the second semester of the General, Organic and Biochemistry sequence, introducing organic chemistry and biochemistry. This course includes topics on functional groups, nomenclature, organic reactions, proteins, enzymatic action, carbohydrates, lipids, nucleic acids, and metabolism. Includes a laboratory section.

Credits	4.0
Prerequisites	<a href="#">CHEM 115</a> or <a href="#">CHEM 121</a>
Semester Offered	Spring
General Education Area	(ND: LABSC)

## CHEM 121: General Chemistry I

The topics covered will be matter, measurement, atoms, ions, molecules, reactions, stoichiometry, thermo-chemistry, bonding, molecular geometry, periodicity, and gases.

Credits	4.0
Prerequisites	MATH 103 or Appropriate Math Placement Test Score.
Corequisites	MATH 103 or Appropriate Math Placement Test Score.
Semester Offered	Fall

**CHEM 122: General Chemistry II**

A beginning chemistry course designed to be the second semester of the two-semester general chemistry sequence. This course covers topics of physical states, solutions, reaction rates and mechanisms, chemical equilibrium, acid-base chemistry, thermodynamics, and electrochemistry. Includes a laboratory section.

Credits	4.0
Prerequisites	<a href="#">CHEM 121</a> , <a href="#">MATH 103</a>
Semester Offered	Spring
General Education Area	(ND: LABSC)

**CHEM 241: Organic Chemistry I**

An upper-level course designed to be the first semester of a two-semester sequence covering organic chemistry. This course covers topics of organic structure and bonding, nomenclature, stereochemistry, functional groups, reactivity, and spectroscopy. Includes a laboratory section.

Credits	4.0
Prerequisites	<a href="#">CHEM 116</a> , <a href="#">CHEM 122</a>
Semester Offered	Fall
General Education Area	(ND: LABSC)

**CHEM 242: Organic Chemistry II**

An upper-level course designed to be the second semester of a two-semester sequence covering organic chemistry. This course continues the study of organic structure and bonding, nomenclature, stereochemistry, functional groups, reactivity, and spectroscopy. Includes a laboratory section.

Credits	4.0
Prerequisites	<a href="#">CHEM 241</a>
Semester Offered	Spring
General Education Area	(ND: LABSC)

## Communication

### COMM 110: Fundamentals of Public Speaking

The theory and practice of public speaking with emphasis on content, organization, language, delivery, and critical evaluation of messages.

Credits	3.0
Semester Offered	Fall, Spring
General Education Area	(ND: COMM)

### COMM 212: Interpersonal Communication

Introduces fundamental concepts of communication between individuals. Explores aspects of self-expression and relationship communication.

Credits	3.0
Semester Offered	Spring
General Education Area	(ND: SS)

## Computer Information Systems

### CIS 104: Microcomputer Database

Acquaints students with database design including data entry, storage, and retrieval.

Credits	3.0
Semester Offered	Fall

### CIS 128: Microcomputer Hardware I

Students learn the functionality of hardware and software components as well as suggested best practices in maintenance and safety issues. The students, through hands on activities and labs will learn to assemble and configure a computer, install operating systems and software, troubleshoot hardware and software problems. In addition, this course helps students prepare for the CompTIA A+ certification.

Credits	3.0
Semester Offered	Fall

**CIS 129: Microcomputer Hardware II**

Students learn the functionality of hardware and software components as well as suggested best practices in maintenance and safety issues. The students, through hands-on activities and labs will learn to assemble and configure a computer, install operating systems and software, and troubleshoot hardware and software problems. In addition, this course helps students prepare for the CompTIA A+ certification.

Credits	3.0
Prerequisites	
	<a href="#">CIS 128</a>
Semester Offered	Spring

**CIS 141: Introduction to Cybersecurity**

This course will introduce concepts related to cyber security. Students will learn safe practices which can be deployed to secure computer systems. Students will gain an understanding of different tools which can be used to defend attacks on computer systems. Special emphasis will be given to systems and applications that non-CS majors will likely encounter in daily life. In addition to lecture classes, security lab exercises will be conducted to perform hands-on experiments on safe security practices.

Credits	3.0
Semester Offered	Fall

**CIS 147: Principles of Information Security**

Provides students with an overview of personal and business information security. Topics covered include various methods of attack and defense. Students will also investigate desk-top security, internet security, wireless network security and enterprise security and ethics.

Credits	3.0
Semester Offered	Spring

**CIS 164: Networking Fundamentals I**

This course focuses on the following: network terminology and protocols, Local Area Networks (LANs), Wide Area Networks (WANs), Open System Interconnection, (OSI) models, cabling, cabling tools, routers, router programming, Ethernet, Internet Protocol (IP) addressing, network standards. The first of four courses leads to the Cisco Certified Network Associate (CCNA) certifications.

Credits	3.0
Semester Offered	Fall

**CIS 180: Creating Web Pages**

The learner will create basic web sites by manually writing HTML/XHTML and Cascading Style Sheets (CSS) using a text editor. The student will learn the fundamentals of site layout and design, and how to upload completed web sites to a remote server. Other skills used include critical thinking by solving problems with coding syntax and viewing websites "live" on the world wide web.

Credits	3.0
Semester Offered	Fall

**CIS 181: Creating Web Pages II**

Students create web sites using a current version of a graphical user interface (GUI) web authoring tool.

Credits	3.0
Prerequisites	
<a href="#">CIS 180</a>	
Semester Offered	Spring

**CIS 188: Application Design**

This course introduces the field of human-computer interaction (HCI). Students will learn practical principles and guidelines needed to develop high quality interface designs-ones that users can understand, predict, and control. Students explore theoretical foundations, design processes, examples of direct manipulation, menu selection, and form fill-in to gain an understanding of excellence in design. Current HCI topics are explored with balanced emphasis on mobile devices, Web, and desktop platforms. It addresses the profound changes brought by user-generated content of text, photo, music, and video and the raised expectations for compelling user experiences.

Credits	3.0
Semester Offered	Fall

**CIS 211: Website Plan & Design**

An in-depth study of the planning and design processes that are utilized in the creation of a website.

Credits	3.0
Prerequisites	
<a href="#">CIS 180</a>	
Semester Offered	Fall

**CIS 212: MS Operating System Client**

The course helps learners to gain the knowledge and skills to install, configure, customize, optimize, and troubleshoot the Microsoft Windows operating system in a stand-alone and network environment.

Credits	3.0
Semester Offered	Fall

**CIS 229: Information System Management**

Introduction to managing information systems including user support issues and careers in business environments.

Credits	3.0
Semester Offered	Fall

**CIS 232: Graphics Design**

Students will learn how to design graphics and page layouts using Adobe Photoshop.

Credits	3.0
Prerequisites	
<a href="#">CSCI 101</a> or equivalent computer knowledge	
Semester Offered	Fall

**CIS 233: Vector Graphics and Web Animation**

Students will learn how to design vector graphics for animation, presentation, applications and web sites. The course will provide students with experience in creating web forms in Adobe Acrobat.

Credits	3.0
Prerequisites	
<a href="#">CSCI 101</a>	
Semester Offered	Spring

**CIS 235: Digital Video Basics**

This course will introduce students to a digital video editing application. The students will learn how to gather loose artwork, video clips, bitmap images, and vector graphics and bring them together to create a new video product. The student will gain an understanding of how to work with transitions, clips, audio, titles, video effects and animating clips. In this course they will also explore editing techniques and exporting options into a movie, frame, Edit Decision List, or a filmstrip.

Credits	3.0
Semester Offered	Fall

**CIS 241: Introduction to Digital Forensics**

This course introduces the principles that are essential to the management of digital investigation, providing a framework that includes technical, legal, and managerial issues. Students will examine the mission of digital investigations from the various perspectives of the public and private sectors, including digital forensics in support of activities ranging from internal corporate investigations, responses to information security incidents, and policy auditing to third-party investigations, criminal investigations, and anti-terrorism informational gathering – and discussing the imperatives of each. As relevant, the impact of international and cultural issues, as well as geopolitics will be an essential part of class discussion. The capacity to make decisions based on organizational and personal values with which to pursue organization goals will be explored.

Credits	3.0
Semester Offered	Fall

**CIS 248: Digital Media**

Technical and conceptual foundations of new media will be explored. Understand and write critically and clearly about the fundamentals of digital tools, including networking, participatory culture, copyright, hypertext, narrative, interactivity, and computer games.

Credits	3.0
Semester Offered	Spring

**CIS 261: Cybersecurity and Ethics**

This course presents the student with issues of law and ethics in cyberspace. Topics covered include government regulation of online behavior, constitutional considerations concerning free speech and content controls, intellectual property, hacking, and the ethics of internet behavior. This course will explore the laws governing security issues involving Foreign, Federal, State, and Tribal case law and statutes governing the Internet.

Credits	3.0
Semester Offered	Spring

**CIS 297: Internship**

An internship is required of most AAS programs. This course is available to AA and AS students as well. The students combine course learning with practical, professional work experience in their chosen field of study. The employer does an evaluation of the work experience: The faculty advisor supervises the students; the students are required to complete a project assigned by the faculty advisor. A minimum of 40 hrs of work is required to earn one credit. A grade of S/U is given by the faculty.

Credits	1.0-6.0
Prerequisites	Instructor Approval 2.0 GPA
Corequisites	None
Semester Offered	Fall, Spring

**Computer Science****CSCI 101: Introduction to Computers**

General hardware and software issues such as: terminology, environments. Applications such as: word processing, spreadsheets, databases, Internet usage.

Credits	3.0
Semester Offered	Fall, Spring
General Education Area	(ND: COMPSC)

**CSCI 105: Beginning Generative AI**

This beginner-friendly course provides an accessible introduction to the exciting world of Generative Artificial Intelligence (AI). Students will explore the fundamental concepts, techniques, and applications of generative models, learning how AI can create new, original content such as images, text, music, and even videos. This course will equip students with the foundational knowledge and skills to understand and engage with generative AI systems.

<b>Credits</b>	<b>3.0</b>
<b>Semester Offered</b>	<b>Fall</b>

**CSCI 160: Computer Science**

An introduction to computer science including problem solving, algorithm development and structured programming in a high-level language. Emphasis on design, coding, testing and documentation of programs using accepted standards of style.

<b>Credits</b>	<b>3.0</b>
<b>Semester Offered</b>	<b>Fall</b>

**CSCI 161: Computer Science II**

Advanced concepts in computer science including data structures, algorithm analysis, standard problems such as searching and sorting and memory management issues.

<b>Credits</b>	<b>3.0</b>
<b>Prerequisites</b>	
	<a href="#">CSCI 160</a>
<b>Semester Offered</b>	<b>Spring</b>

**CSCI 289: Social Implications of Computer Technology**

An introduction to the effects of computer technology on society and individuals and to ethical problems faced by computer professionals. Topics covered include privacy, the nature of work, centralization versus decentralization and the need for human factors analysis in the development of a new computer system.

<b>Credits</b>	<b>3.0</b>
<b>Semester Offered</b>	<b>Spring</b>
<b>General Education Area</b>	<b>(ND: COMPSC)</b>

# Dental

## DENT 116: Dental Anatomy

This course provides the fundamental study of the primary, mixed and permanent dentition, including the morphology, function, and nomenclature. Eruption and exfoliation patterns and Angle's classification of malocclusion will also be topics of study.

Credits	2.0
Semester Offered	Fall

## DENT 117: Introduction to Infection Control, Immunology & Medical Emergencies in the Dental Practice

This course will introduce the student to the health and safety considerations for basic infection control and the disease process, including infectious diseases and disease transmission. Topics include occupational safety, personal protection, exposure control, infection control, sterilization and disinfection techniques, bloodborne pathogens standards and hazard and waste disposal as defined by governmental agencies such as OSHA, CDC, and EPA. This course will also study the prevention and treatment of common medical emergencies experienced in the dental office.

Credits	2.0
Prerequisites	
	<a href="#">DENT 116</a>
Semester Offered	Fall

## DENT 118: Biomaterials

This course will provide dental hygiene or dental assisting students with a sound knowledge base in the science of dental materials. Emphasis will be placed on the properties, handling and manipulation of commonly used dental materials. The student will demonstrate knowledge of the properties and competence in the uses and manipulation of dental materials to include gypsum, restorative materials, dental cements, impression materials, acrylics and thermoplastics, waxes, abrasive agents and study casts/occlusal registrations. Laboratory safety and infection control measures will be utilized.

Credits	3.0
Prerequisites	
	<a href="#">DENT 116</a> and Acceptance into the Dental Assisting or Dental Hygiene Program
Corequisites	
	<a href="#">DENT 117</a>
Semester Offered	Fall

**DENT 119: Dental Radiology Lecture**

This course provides students with a comprehensive foundation for the safe and effective use of radiation in dental practice. Radiation basics, including radiation protection, radiation equipment, and concepts of imaging in both intraoral and extraoral radiography will be presented. Normal anatomical landmarks and pathologies will be studied.

Credits	3.0
Prerequisites	
<a href="#">DENT 116</a> and Acceptance into the Dental Assisting or Dental Hygiene Program	
Corequisites	
<a href="#">DAST 122</a>	
Semester Offered	Fall

**DENT 121: Dental Ethics & Jurisprudence**

This course is designed to provide the dental assisting and dental hygiene student with an understanding of the political, social, environmental, and professional issues that affect the practice of the dental professional. These issues include cultural diversity, legal and ethical responsibilities, sexual harassment, problem solving and communication style. Case studies will be utilized to examine ethical dilemmas.

Credits	1.0
Prerequisites	
Acceptance into the Dental Assisting or Dental Hygiene Program	
Corequisites	
<a href="#">DAST 126</a>	
Semester Offered	Spring

**DENT 122: Intro to Dental Practice Management**

This course provides students with fundamental knowledge of principles and applications essential for the effective administration and management of a dental practice. Key areas covered include dental terminology, essential dental concepts, and an overview of dental services.

Credits	3.0
Semester Offered	Fall

**DENT 124: Software Integration**

This course will provide the student with essential knowledge and skills required to effectively manage the business aspects of a dental practice utilizing electronic dental software. Content includes: Provider set-up, appointment management systems, recall systems, financial systems including accounts receivable and third-party reimbursement.

<b>Credits</b>	<b>3.0</b>
<b>Prerequisites</b>	
DENT 122	
<b>Semester Offered</b>	<b>Spring</b>

**DENT 126: Risk Management**

This course will provide a comprehensive foundation in the Health Insurance Portability and Accountability Act (HIPAA) and Occupational Safety and Health Administration Act (OSHA) compliance training. Students will be equipped with knowledge required to navigate healthcare regulations, ensuring compliance and minimizing potential legal ramifications in the dental practice.

<b>Credits</b>	<b>3.0</b>
<b>Prerequisites</b>	
DENT 122	
<b>Semester Offered</b>	<b>Spring</b>

**DENT 297: Internship**

Students will complete practical, professional work experience in an assigned dental practice. The employer will complete an evaluation of work experience: the course faculty will supervise the student. A minimum of 40 hours of work is required to earn one credit. A grade of satisfactory/unsatisfactory is given by the faculty.

<b>Credits</b>	<b>1.0</b>
<b>Semester Offered</b>	<b>Spring</b>

## Dental Assisting

### DAST 122: Dental Assisting Radiology Lab

Dental Assisting students will be introduced to techniques for exposing digital intra-oral full mouth series and extra-oral dental radiographs on manikins. The student will learn how to evaluate these images for diagnostic quality using the Criteria for Radiographic Acceptability. The students will also learn the process for exporting radiographs to other dental healthcare providers. Students will document radiology services on electronic dental software.

Credits	2.0
Prerequisites	
Acceptance into the Dental Assisting Program	
Corequisites	
<a href="#">DENT 119</a>	
Semester Offered	Fall

### DAST 124: Clinical Assisting I

This course provides information on the history of dentistry, members of the dental healthcare team and their roles in the practice of dentistry. The student will be performing the CDC Standards of Infection Control in Dental Settings while learning chairside skills such as taking and recording medical and dental histories, dental charting, and the use of the air-water syringe and oral evacuation devices. Students will identify dental hand and rotary instruments and practice instrument transfer. Students will demonstrate proficiency in chairside ergonomics and oral hygiene instruction.

Credits	5.0
Prerequisites	
<a href="#">DENT 116</a> and Accepted into the Dental Assisting Program	
Corequisites	
<a href="#">DENT 117</a>	
Semester Offered	Fall

**DAST 125: Clinical Assisting II**

This course is a continuation of DAST 124 Clinical Assisting I. This course will provide the student with increased knowledge and clinical skills to perform the major responsibilities of a chairside dental assistant in general and specialty dental practices. The management of special needs patients, and nutrition and dental health will also be studied.

Credits	4.0
Prerequisites	
<a href="#">DENT 116</a> , <a href="#">DENT 117</a> , <a href="#">DENT 118</a> , <a href="#">DAST 124</a> , <a href="#">DAST 144</a>	
Corequisites	
<a href="#">DAST 128</a>	
Semester Offered	Spring

**DAST 126: Dental Practice Management**

The student will be introduced to the responsibilities of dental office management and the administrative assistant, including scheduling and appointment control, patient and business records management, recall systems, financial transactions, telephone technique and etiquette, dental insurance, inventory control, and application of dental practice management software. Information regarding patient rights and privacy under the Federal Health Insurance Portability and Accountability Act of 1996 (HIPAA) will be practiced.

Credits	2.0
Prerequisites	
<a href="#">DAST 124</a>	
Semester Offered	Spring

**DAST 128: Advanced Functions**

The student will gain an advanced level of skills and knowledge to provide intra-oral patient care procedures, beyond traditional dental assisting duties. Procedures emphasized will be those legally allowed by the North Dakota State Board of Dentistry for Registered Dental Assistants. The course includes didactic, laboratory and clinical instruction. The student will perform procedures according to specific criteria using typodonts or patients. Infection control, safety and standard precautions will be applied.

Credits	4.0
Prerequisites	
<a href="#">DENT 116</a> , <a href="#">DENT 117</a> , <a href="#">DENT 188</a> , <a href="#">DAST 124</a> , Acceptance into the Dental Assisting Program	
Corequisites	
<a href="#">DAST 125</a>	
Semester Offered	Spring

**DAST 129: Dental Specialties**

This course will provide dental assisting students the opportunity to observe the dental assistant's role in specialty dental practices, such as Endodontics, Periodontics, Orthodontics, Pedodontics, Prosthodontics and Oral Surgery. Students will become familiar with terminology, specific needs of the patients, tray setups and procedures unique to each specialty.

Credits	1.0
Prerequisites	<a href="#">DAST 124, DENT 117</a>
Corequisites	<a href="#">DAST 125, DAST 128</a>
Semester Offered	Spring

**DAST 144: Biodental Science**

This course provides an overview of the biological sciences and how it relates to dentistry. The student will become familiar with the following subjects: Oral histology and embryology, head and neck anatomy, landmarks of the face, oral pathology, microbiology, and pharmacology.

Credits	2.0
Prerequisites	Acceptance into the Dental Assisting Program
Corequisites	Acceptance into the Dental Assisting Program
Semester Offered	Fall

**DAST 149: Clinical Affiliation I**

This course focuses on the practice of clinical skills and expanded functions of a dental assistant. Students will intern one day per week, (8 hours per day), for eight weeks under the supervision of a dentist. Students will utilize their entry-level and mid-level dental assisting skills as appropriate. Faculty will define expectations, discuss progress, and evaluate experiences using feedback provided from the student mentor in the dental practice.

Credits	1.0
Prerequisites	<a href="#">DENT 119, DAST 122, DAST 124, DENT 188</a> and Acceptance into the Dental Assisting Program
Corequisites	<a href="#">DAST 125, DAST 128, DAST 123</a>
Semester Offered	Spring

**DAST 150: Clinical Affiliation II**

This course focuses on refining the dental assisting skills and expanded functions as a student intern under the supervision of a dentist. Students will utilize their advanced dental assisting skills and will experience the day-to-day operation of the clinical dental assistant's role in the dental practice. Students will complete a minimum of 240 hours of internship. The faculty will define expectations, discuss progress, and evaluate experiences, using feedback provided by the mentor in the dental practice. Students will be assigned to a minimum of two dental practices. At least 50% of the clinical affiliation will be in a general dentistry practice. Successful completion of this internship is required to graduate from this accredited Dental Assisting Program.

Credits	5.0
Prerequisites	
Successful completion of all required Dental Assisting Program courses	
Semester Offered	Summer

**Dental Hygiene****DHYG 113: Oral Histology and Embryology**

This course is the study of the microscopic anatomy of the oral tissues and embryonic development of the face, neck and oral cavity and the underlying relationship of the structures.

Credits	2.0
Prerequisites	
<a href="#">DENT 116</a> , <a href="#">DHYG 134</a> , <a href="#">DHYG 209</a>	
Semester Offered	Spring

**DHYG 132: Radiology Lab**

The dental hygiene students will be introduced to techniques for exposing digital intra-oral full mouth series and extra-oral dental radiographs on manikins and classmates. The students will learn how to evaluate these images for diagnostic quality using the Criteria for Radiographic Acceptability. The students will also learn the process for exporting radiographs to other dental healthcare providers. Students will document radiology services on electronic dental software. Appropriate infection control techniques and radiation safety precautions required in a dental setting will be implemented.

Credits	2.0
Prerequisites	
<a href="#">DENT 116</a> ("C" or above) and Acceptance into the Dental Hygien Program	
Corequisites	
<a href="#">DENT 119</a>	
Semester Offered	Fall

**DHYG 134: Dental Anatomy Lab**

This lab course provides the dental hygiene students the opportunity to examine the location, anatomy, morphology and form and function of each tooth in the permanent and primary dentitions in a lab and/or clinical setting through group and individual activities. Angle's Classification of Malocclusion will also be studied. Appropriate infection control techniques and safety precautions required in a dental setting will be implemented.

Credits	1.0
Prerequisites	
<a href="#">DENT 116</a> and acceptance into the Dental Hygiene Program	
Semester Offered	Fall

**DHYG 136: Principles I**

This course provides students with fundamental dental hygiene theory. Topics include the history, philosophy, and ethics relevant to the dental hygiene discipline. Students will study patient assessment, etiology and prevention of oral diseases, and the management of patient records. Recognizing signs of abuse or neglect and reporting will also be studied.

Credits	2.0
Prerequisites	
<a href="#">DENT 116</a> and acceptance into the Dental Hygiene Program	
Corequisites	
<a href="#">DHYG 137</a>	
Semester Offered	Fall

**DHYG 137: Preclinic I**

Skill development sessions are structured to develop actual experience in ergonomic principles, patient assessment, extraoral and intraoral exam, instrumentation skills, deposit removal, mechanical polishing, and topical fluoride application. Small groups will be utilized for practical application skills, with students working on each other or using simulation manikins. Appropriate infection control techniques and safety precautions required in a dental setting will be implemented.

Credits	3.0
Prerequisites	
<a href="#">DENT 116</a> and acceptance into the Dental Hygiene Program	
Corequisites	
<a href="#">DHYG 136</a> , <a href="#">DENT 117</a>	
Semester Offered	Fall

**DHYG 138: Principles II**

Students will examine the dental hygiene process of care. Caries risk assessment and oral health prevention, motivational interviewing, evidence-based decision making, instrument sharpening, power scaling and will also be studied. Methods for documentation of periodontal care will be analyzed.

Credits	3.0
Prerequisites	<a href="#">DHYG 136</a>
Corequisites	<a href="#">DHYG 139</a> , <a href="#">DHYG 141</a>
Semester Offered	Spring

**DHYG 139: Clinic II**

Students will provide direct patient care in a supervised clinical setting using the dental hygiene process of care. The clinical experiences will include patient assessment, radiographs, dental hygiene diagnosis, oral health education, oral prophylaxis and periodontal therapy. Students will provide dental hygiene care to patients with periodontal health, gingivitis, or Stage I or II periodontitis. Individuals of all ages, including medically compromised patients, will be treated. Students will be required to document patient care using the SOAP method. Appropriate infection control techniques and radiation safety precautions required in dental settings will be implemented.

Credits	5.0
Prerequisites	<a href="#">DENT 117</a> , <a href="#">DHYG 136</a> , <a href="#">DHYG 137</a>
Corequisites	<a href="#">DHYG 138</a> , <a href="#">DHYG 141</a>
Semester Offered	Spring

**DHYG 141: Periodontology I**

This course presents the study of periodontal diseases as the scientific basis for dental hygiene, with recognition of the etiologic risk factors, characteristics and abnormal conditions in the supporting tissues of the teeth and their substitutes. The course will focus on the role of the dental hygienist in assessing and classifying periodontal disease. The progression of periodontal diseases and how immunity and inflammation relate to periodontal disease will also be discussed.

Credits	2.0
Prerequisites	<a href="#">DENT 116</a> , <a href="#">DHYG 136</a>
Corequisites	<a href="#">DHYG 113</a> , <a href="#">DHYG 138</a>
Semester Offered	Spring

**DHYG 205: Pharmacology for the Dental Hygienist**

In this course the dental hygiene student will study the principles of pharmacology to gain knowledge to provide safe and therapeutic dental hygiene care. Content includes indications and contraindications for use, pharmacological effects, adverse reactions and interaction of drugs. Special consideration is given to drugs commonly used in dentistry, as well as oral implications of drugs.

Credits	2.0
Prerequisites	
<a href="#">BIOL 220</a> , <a href="#">BIOL 221</a> , <a href="#">DHYG 136</a>	
Corequisites	
<a href="#">DHYG 138</a>	
Semester Offered	Spring

**DHYG 209: Head and Neck Anatomy**

This online course is the study of the hard and soft tissues of the head and neck including bones, muscles, nerves, blood supply, glands and how they function. This course will also include regional study of fasciae and spaces, as well as the spread of infection.

Credits	1.0
Prerequisites	
Acceptance into the Dental Hygiene Program.	
Semester Offered	Spring

**DHYG 239: General and Oral Pathology**

The dental hygiene student will learn to recognize oral lesions and conditions, describe them using professional terminology and, through assessment, assist in the preliminary diagnosis of oral diseases and oral manifestations of systemic disease. This course covers the pathologic conditions likely to be encountered in dentistry.

Credits	2.0
Prerequisites	
<a href="#">BIOL 220</a> , <a href="#">BIOL 221</a> , <a href="#">DENT 116</a> , <a href="#">BIOL 202</a> , <a href="#">DHYG 113</a>	
Semester Offered	Summer

**DHYG 240: Pain Management**

This lab course is designed to prepare the student to administer local anesthesia and nitrous oxide inhalation sedation to patients for pain management during dental treatment. Instruction includes a review of anatomy of the head and neck, pharmacology of anesthetic and analgesic agents, patient pre-evaluation, injection techniques, recognition of adverse patient reactions and management of emergency procedures. Student will be administering local anesthesia and nitrous oxide inhalation sedation to lab partners. Successful completion of this course will fulfill the administration of local anesthetic and nitrous oxide inhalation sedation required by the North Dakota State Board of Dentistry. Appropriate infection control techniques and safety precautions required in dental settings will be implemented.

Credits	2.0
Prerequisites	
<a href="#">DHYG 209, DHYG 205</a>	
Semester Offered	Summer

**DHYG 241: Periodontology II**

This course is a continuation of the study of periodontology for the dental hygienist. Topics include host response, systemic and local factors, nutrition and tobacco use and their roles in the periodontal disease process. Radiographic analysis, chemical agents and host modulation will also be studied. The course concludes with the study of periodontal surgical concepts, acute periodontal conditions, periodontal disease in the pediatric population and the impact of periodontitis on systemic health.

Credits	2.0
Prerequisites	
<a href="#">DHYG 141</a>	
Corequisites	
<a href="#">DHYG 245</a>	
Semester Offered	Fall

**DHYG 242: Principles III**

This course is designed to provide the dental hygiene students with an understanding of the physiological, psychological and sociological aspects of treating patients with special needs.

Credits	1.0
Prerequisites	
<a href="#">DENT 117, DHYG 138</a>	
Semester Offered	Summer

**DHYG 243: Clinic III**

This course is designed for students to perform expanded duties delegated to dental hygienists by the North Dakota State Board of Dentistry. Students will be working on typodonts, manikins or classmates to gain lab or clinical competency. Appropriate infection control techniques and safety precautions required in dental settings will be implemented.

<b>Credits</b>	<b>1.0</b>
<b>Prerequisites</b>	
<a href="#">DENT 118</a> , <a href="#">DHYG 139</a>	
<b>Semester Offered</b>	<b>Summer</b>

**DHYG 244: Principles IV**

This course provides an orientation to the national board dental hygiene exam and clinical licensure exam process. Case studies will be analyzed. Importance of dental hygiene community service and interprofessional collaboration will be examined. Students will design a resume and cover letter, and practice interview skills.

<b>Credits</b>	<b>1.0</b>
<b>Prerequisites</b>	
<a href="#">DHYG 242</a>	
<b>Corequisites</b>	
<a href="#">DENT 121</a>	
<b>Semester Offered</b>	<b>Spring</b>

**DHYG 245: Clinic IV**

The student will provide dental hygiene clinical patient care, under supervision, to individuals of all ages, including medically compromised patients. This course is a continuation of DHYG 139 Clinic II. Students will provide dental hygiene care to patients with Stage III or IV periodontitis, as well as periodontal health, gingivitis, or Stage I or II periodontitis. Emphasis will be placed on more challenging clinical skills and patient assessment. Appropriate infection control techniques and safety precautions required in dental settings will be implemented.

<b>Credits</b>	<b>6.0</b>
<b>Prerequisites</b>	
<a href="#">DHYG 243</a> , <a href="#">DHYG 242</a> , <a href="#">DHYG 141</a>	
<b>Corequisites</b>	
<a href="#">DHYG 241</a>	
<b>Semester Offered</b>	<b>Fall</b>

**DHYG 247: Clinic V**

This course is designed to prepare the student for the transition from student to dental hygienist. The student will continue providing dental hygiene care to a diverse population, under supervision. Honing clinical skills while working with patients with complex needs and increasing time management will be emphasized. Appropriate infection control techniques and safety precautions required in dental settings will be implemented.

<b>Credits</b>	<b>6.0</b>
<b>Prerequisites</b>	
<a href="#">DHYG 245, DHYG 241</a>	
<b>Corequisites</b>	
<a href="#">DHYG 244</a>	
<b>Semester Offered</b>	<b>Spring</b>

**DHYG 248: Community Dental Hygiene**

This course provides the students with the study of community oral health relevant to dental hygiene. An overview of the discipline of public health including epidemiological methods of investigation with an emphasis on patterns and trends of oral diseases will be studied. Course content highlights designing, implementing, and evaluating a community oral health promotion project and health education programs. Appropriate infection control techniques and safety precautions required in dental settings will be implemented for the lab portion of this course.

<b>Credits</b>	<b>3.0</b>
<b>Prerequisites</b>	
<a href="#">DHYG 138</a>	
<b>Semester Offered</b>	<b>Fall</b>

**DHYG 249: Clinical Affiliation I**

The students will provide dental hygiene care in a community dental setting. Rotations, arranged by dental faculty, include experiences to enhance the student's skill, knowledge and expertise. Additionally, the student will focus on improving time management. Appropriate infection control techniques and safety precautions required in dental settings will be implemented.

<b>Credits</b>	<b>1.0</b>
<b>Prerequisites</b>	
<a href="#">DHYG 243, DHYG 245</a>	
<b>Semester Offered</b>	<b>Fall</b>

**DHYG 250: Clinical Affiliation II**

The students will continue to provide dental hygiene care in a community dental setting. Rotations, arranged by dental faculty, include clinical experiences to further enhance the student's skill, knowledge and expertise. Student will demonstrate an increase in independence and time management. Appropriate infection control techniques and safety precautions required in dental settings will be implemented.

Credits	1.0

<a href="#">DHYG 245, DHYG 249</a>	
Corequisites	
<a href="#">DHYG 247</a>	
Semester Offered	Spring

**Diagnostic Medical Sonography****DMS 201: Foundations of Sonography**

This course is designed to provide the student with basic introductory knowledge of diagnostic medical sonography. Physical principles, instrumentation, equipment operation and patient procedural preparation concepts are presented as an introduction into ultrasound including medical applications. Student will also be introduced to common sonographic terminology, OSHA safety regulations, infection control, disease 104 Course Descriptions transmission, ergonomic optimization to reduce Work Related Musculoskeletal Disorders (WRMSDs) and CDC's standard precaution guidelines. This course is completed during the first week of the DMS program.

Credits	3.0
Prerequisites	
General Post Secondary Courses	

**DMS 211: Ultrasound Physics and Instrumentation I**

Students will be introduced to the principles of ultrasound physics and instrumentation. Emphasis will be placed on parameter of sound waves, interaction of sound and media, transducers, artifacts, safety, and quality assurance. Students will also become familiar with metric units, sound beams, types of resolution, display modes and scan converters.

Credits	2.0
Prerequisites	
<a href="#">DMS 201</a>	
Semester Offered	Spring

**DMS 212: Ultrasound Physics and Instrumentation II**

Ultrasound Physics and Instrumentation II - This course is a continuation of the principles of ultrasound physics and instrumentation. Emphasis will be placed on characteristics of sound waves, interaction of sound in soft tissue, transducers, artifacts, safety, and quality assurance. Student will also become familiar with metric units, sound beam profiles, Doppler techniques, optimization of images, bioeffects and ultrasound system components.

Credits	2.0
Prerequisites	<a href="#">DMS 211</a>
Semester Offered	Spring

**DMS 221: Abdominal Sonography I**

This course is a study of the anatomy, physiology, pathology, and pathophysiology of the upper abdominal cavity, peritoneal cavity to include aorta, IVC, celiac trunk, SMA, gastrointestinal organs, abdominal wall, peritoneum, and diaphragm as visualized by sonography, including the application of Doppler principles. The course is integrated with DMS 221L, a hands-on sonographic scanning lab that focuses on the knowledge, skills, and techniques for acquisition of appropriate sonographic protocols and image optimization of the abdomen. Color and spectral Doppler applications will also be applied to the appropriate anatomy.

Credits	2.0
Prerequisites	<a href="#">DMS 201</a>
Corequisites	<a href="#">DMS 221L</a> , <a href="#">DMS 211</a>
Semester Offered	Spring

**DMS 221L: Abdominal Sonography I Lab**

This course is a hands-on sonographic scanning lab that focuses on the knowledge, skills, and techniques for acquisition of appropriate sonographic protocols and image optimization of the abdomen. Color and spectral Doppler applications will also be applied to the appropriate anatomy. This course is integrated with DMS 221, the didactic study of the anatomy, physiology, pathology and pathophysiology of the upper abdominal cavity, peritoneal cavity to include: aorta, IVC, celiac trunk, SMA, gastrointestinal Organs, abdominal wall, peritoneum, and diaphragm as visualized by sonography, including the application of Doppler principles.

Credits	1.0
Prerequisites	<a href="#">DMS 201</a>
Corequisites	<a href="#">DMS 211</a> , <a href="#">DMS 221</a>
Semester Offered	Spring

**DMS 222: Abdominal Ultrasound II**

This course is a continuation study of the anatomy, physiology, pathology, and pathophysiology of the upper abdominal cavity, peritoneal cavity to include aorta, IVC, celiac trunk, SMA, gastrointestinal organs, abdominal wall, peritoneum, and diaphragm as visualized by sonography, including the application of Doppler principles. The course is integrated with DMS 222L, a hands-on sonographic scanning lab that focuses on the knowledge, skills, and techniques for acquisition of appropriate sonographic protocols and image optimization of the abdomen. Color and spectral Doppler applications will also be applied to the appropriate anatomy.

Semester Offered	Spring

**DMS 231: OB/GYN Ultrasound I**

This course is the study of the anatomy, physiology, pathology and pathophysiology of the organs and structures of the female pelvic cavity as visualized by sonography, including the application of Doppler principles. The study of the anatomy, physiology, and sonographic appearance of the first trimester pregnancy and fetal development is included. The course is integrated with DMS 231L, a hands-on sonographic scanning lab that focuses on the knowledge, skills, and techniques for acquisition of appropriate sonographic protocols and image optimization of the female pelvic organs, including first trimester pregnancy and fetal development. Color and spectral Doppler applications will also be applied to the appropriate anatomy.

Credits	2.0

## Early Childhood Education

### EC 209: Learning Environment for Children

This course examines methods for creating and maintaining environments that emphasize safety, promote wellness, and encourage exploration and learning. Topics include hazard assessment, safety education, responding to injuries and emergencies, sanitation, meal planning, health education, organizing the environment, and utilizing appropriate materials, plans, and routines.

Credits	3.0
Semester Offered	Spring

### EC 210: Introduction to Early Childhood Education

This course provides comprehensive coverage of early childhood professions, the field's historical, philosophical, and social foundations, and the conditions that affect programs for children. In addition, the course examines stages of development and current childcare topics and issues.

Credits	3.0
Semester Offered	Fall

### EC 211: Observation, Assessment, and Interpretation Techniques

This course emphasizes the importance of skillful observation when planning appropriate activities and experiences for children. In addition, the course explores the use of informal and formal assessment strategies to plan and individualize activities and lessons and the use of assessments for determining the ability level of children.

Credits	3.0
Prerequisites	
	<a href="#">EC 210</a>
Corequisites	
	<a href="#">EC 210</a>
Semester Offered	Spring

### EC 213: Language & Literacy in ECE

This course is designed to teach students major content areas of early literacy development, instructional strategies, and appropriate early experiences that support early literacy development in preschool children. Emphasis is placed on speaking and listening, as well as reading and writing. Upon completion of the course, students will be able to select, plan, implement, and evaluate appropriate early literacy experiences.

Credits	3.0
Semester Offered	Fall

**EC 222: Administration & Leadership in ECE**

This course examines methods for creating, analyzing, and administering effective programs including financial management, licensing requirements, staff supervision, enrollment procedures, health and safety issues, and publicity procedures. Students learn to communicate effectively with parents about their children. The NAEYC Code of ethics and accreditation criteria from professional, state, and national organizations are reviewed. Childcare standards are used to develop a philosophy for childcare and to define program goals.

Credits	3.0
Semester Offered	Fall

**EC 233: Pre-K Methods & Materials**

This course focuses on the physical and cognitive development of children, the promotion of literacy, and the utilization of creative experiences in childcare settings. Topics include developmental needs of children, age-appropriate activities, cognitive theory, and brain research; creative environments, language arts, music/movement, art, and aesthetic experiences. Students will evaluate, plan, and implement activities that focus on children's needs and interests.

Credits	3.0
Semester Offered	Spring

**EC 236: Social/Emotional Development & Guidance**

This course involves the study of classroom management, motivation, building self-esteem, positive discipline strategies, and social and emotional development in children. Topics include approaches to guiding children's behavior, managing the environment, rules and limits, problem behaviors, appreciating oneself and others, dealing with separation, providing appropriate support for children, preventing child abuse, promoting success with appropriate materials and activities, interacting through play and developing friendships. Students develop a personal philosophy of child guidance.

Credits	3.0
Semester Offered	Fall

**EC 238: Home, School & Communication Relations**

Students will learn how to establish and maintain positive collaborative relationships with families, how to apply family system theories, and how to communicate effectively not only with parents but also with other professionals and agencies that support children's development. Students will learn how to provide families with information regarding a range of family-oriented services that are designed to help families' identified needs. Students will learn to affirm and respect the diversity of individual families.

Credits	3.0
Prerequisites	<a href="#">EC 210</a>
Semester Offered	Spring

## Economics

### ECON 201: Principles of Microeconomics

This course studies the nature, method, and scope of economic analysis, economic scarcity, resources, specialization of labor; supply-demand analysis, production and cost analysis, product and resource market structures; distribution of income; international trade.

Credits	3.0
Semester Offered	Fall, Spring
General Education Area	(ND: SS)

### ECON 202: Principles of Macroeconomics

This course studies aggregate income and employment analysis, business cycles, unemployment, inflation and economic growth, fiscal policy, money and monetary policy, U.S. and world economies.

Credits	3.0
Semester Offered	Fall, Spring
General Education Area	(ND: SS)

## Education

### EDUC 101: Introduction to Para Education

This course provides an overview of the field of Para education. Topics include roles and responsibilities of a para-educator, professional and ethical conduct, creating a positive and safe learning environment, understanding the diverse needs of students, interacting with families and working collaboratively as a part of a team.

Credits	1.0
Semester Offered	Fall, Spring

### EDUC 220: Classroom Management

This course is an introduction to K-6 classroom management techniques for the paraeducator. Topics include physical space, behavioral norms, safety, time management, managing student work, and managing other special classroom needs.

Credits	3.0
Semester Offered	Spring

### EDUC 250: Introduction to Education

A study of teachings as a profession including the historical, philosophical, social, and psychological foundations of education.

Credits	2.0
Semester Offered	Fall

**EDUC 260: Educational Psychology**

This course provides the student with knowledge about the field of educational psychology and particularly how those ideas apply to effective teaching practices in the classroom.

Credits	3.0
Semester Offered	Spring

**EDUC 297: Internship**

An internship is required of most AAS programs. This course is available to AA and AS students as well. The students combine course learning with practical, professional work experience in their chosen field of study. The employer does an evaluation of the work experience: The faculty advisor supervises the students; the students are required to complete a project assigned by the faculty advisor. A minimum of 40 hrs of work is required to earn one credit. A grade of S/U is given by the faculty.

Credits	1.0-6.0
Prerequisites	
Instructor Approval	2.0 GPA
Semester Offered	Fall, Spring

**EDUC 298: Introduction to Educational Practicum**

Pre-professional observation of elementary and secondary teachers accompanied by group seminar.

Credits	1.0
Prerequisites	
	<a href="#">EDUC 250</a>
Corequisites	
	<a href="#">EDUC 250</a>
Semester Offered	Fall

**Emergency Medical Services****EMS 208: Introduction to Emergency Pre-Hospital**

This is an introductory course for paramedic students. It will build on the knowledge gained during the student's EMT-Basic education and experiences as well as introducing the student to the expanded role of the Paramedic. Topics include roles and responsibilities, EMS systems, the well-being of the paramedic, illness and injury prevention, medical/legal issues, ethics, general principles of pathophysiology, therapeutic communications, and life span development.

Credits	1.0
Semester Offered	Summer

**EMS 210: Pre-Hospital Pharmacology**

This course introduces the paramedic student to specific medications used in the prehospital setting that are focused on respiratory and shock emergencies, mechanism of action, indications, contraindications, dosing, and correct administration.

Credits	2.0
Prerequisites	
<a href="#">EMS 208</a>	
Corequisites	
<a href="#">EMS 208</a>	
Semester Offered	Summer

**EMS 214: Pre-Hospital Patient Assessment**

This course introduces the paramedic student to a comprehensive physical examination and assessment, which includes history taking, clinical decision making, communications, and documentation.

Credits	3.0
Prerequisites	
<a href="#">EMS 208</a>	
Corequisites	
<a href="#">EMS 208</a>	
Semester Offered	Summer

**EMS 215: Airway/Ventilatory Management**

This course provides the paramedic student with critical airway management skills that will be the most critical steps in the initial assessment of every patient. The student will be proficient in both basic and advanced airway maneuvers and skills.

Credits	2.0
Prerequisites	
<a href="#">EMS 208</a>	
Corequisites	
<a href="#">EMS 208</a>	
Semester Offered	Fall

### EMS 216: Trauma Management

This course prepares the student to identify, assess, manage, and treat various types of trauma emergencies. Topics include Trauma Systems, Mechanism of Injury, Soft-Tissue Trauma, Burns, Head and Face Trauma, Spinal Trauma, Thoracic Trauma, Abdominal Trauma, and Musculoskeletal Trauma. Skills include, but are not limited to, assessment, splinting, bandaging, spinal immobilization, IV therapy, chest decompression, and associated pharmacological intervention.

Credits	2.0
Prerequisites	
<a href="#">EMS 214</a>	
Corequisites	
<a href="#">EMS 214</a>	
Semester Offered	Spring

### EMS 218: Respiratory Emergencies

This course prepares the student to assess, manage and treat various respiratory emergencies. Respiratory emergencies are some of the most common conditions EMS personnel encounter. This course will focus on the most frequently encountered respiratory emergencies and prepare the student for prompt management including the skill of rapid sequence intubation.

Credits	2.0
Prerequisites	
<a href="#">EMS 215</a>	
Corequisites	
<a href="#">EMS 215</a>	
Semester Offered	Fall

### EMS 220: Cardiac Emergencies

This course prepares the student to identify single and multi-lead cardiac rhythms and treat those rhythms considered to be life threatening. Skills include, but are not limited to, cardiac rhythm interpretation assessment, defibrillation, and cardioversion.

Credits	5.0
Prerequisites	
<a href="#">EMS 214</a>	
Corequisites	
<a href="#">EMS 214</a>	
Semester Offered	Fall

**EMS 222: Medical Emergencies**

This course prepares the paramedic student to identify, assess, manage, and treat various emergencies. Topics include Neurology, Endocrinology, Allergies and Anaphylaxis, Respiratory, Gastroenterology, Urology, Toxicology, Environmental Conditions, Infectious and Communicable Diseases, Behavioral and Psychiatric Disorders, Gynecological and obstetrical Emergencies, and associated pharmacological intervention.

Credits	3.0
Prerequisites	
	<a href="#">EMS 214</a>
Corequisites	
	<a href="#">EMS 214</a>
Semester Offered	Spring

**EMS 224: Special Considerations**

This course prepares the paramedic student to identify, assess, manage, and treat age related emergencies and other special challenges. The student will also be introduced to the concept of assessment-based management. Topics include Neonatology, Pediatrics, Geriatrics, Abuse and Assault, Patients with Special Challenges, Acute Interventions for the Chronic Care Patient, Assessment-Based Management, and associated pharmacological interventions.

Credits	2.0
Prerequisites	
	<a href="#">EMS 214</a>
Corequisites	
	<a href="#">EMS 214</a>
Semester Offered	Fall

**EMS 235: EMS Operations**

This course introduces the paramedic student to the concepts of medical incident command, ambulance and rescue operations, hazardous materials incidents, and crime scene awareness. This course will also result in the awarding of certification in Emergency Vehicle Operations and Extrication.

Credits	2.0
Prerequisites	
	<a href="#">EMS 208</a>
Corequisites	
	<a href="#">EMS 208</a>
Semester Offered	Spring

**EMS 240: Hospital Clinical**

This course allows the paramedic student to apply learned classroom skills and knowledge in clinical settings such as laboratory, preoperative holding, emergency department, anesthesia department, and triage. The student will function under the direction of a preceptor. The student will input patient contact information into the Fisdap Internet data collection system.

Credits	4.0
Prerequisites	
	<a href="#">EMS 275</a>
Corequisites	
	<a href="#">EMS 275</a>
Semester Offered	Fall

**EMS 250: Hospital Clinical II**

This course allows the paramedic student to apply learned classroom skills and knowledge under the direction of a preceptor in a pre-hospital setting. The student will be stationed with a license ALS ambulance service. The student will input patient contact information into the Fisdap data collection system.

Credits	4.0
Prerequisites	
	<a href="#">EMS 275</a> , <a href="#">EMS 240</a>
Corequisites	
	<a href="#">EMS 275</a> , <a href="#">EMS 240</a>
Semester Offered	Spring

**EMS 275: Introduction to Clinical Experience**

This course is designed to introduce the paramedic student to BLS and ALS prehospital operations. The student will become familiar with basic ambulance operations, equipment and how an EMS system works. The student will also become familiar with procedures and care provided by paramedics in the field and function as the team leader on BLS calls. The student will function under the direction of a preceptor. The student will input patient contact information into the Fisdap Internet data collection system.

Credits	2.0
Prerequisites	
	<a href="#">EMS 208</a>
Corequisites	
	<a href="#">EMS 208</a>
Semester Offered	Summer

**EMS 276: Field Clinical I**

This course allows the paramedic student to apply learned classroom skills and knowledge in clinical settings such as anesthesia, emergency department, same day surgery, operating room, and respiratory care. The student will function under the direction of a preceptor. The student will input patient contact information into the FISDAP Internet data collection system.

Credits	2.0
Prerequisites	
	<a href="#">EMS 275</a>
Corequisites	
	<a href="#">EMS 275</a>
Semester Offered	Fall

**EMS 277: Field Clinical II**

This course allows the paramedic student to apply learned classroom skills and knowledge under the direction of a preceptor in a pre-hospital setting. The student will also function as a team leader on selected BLS calls. The student will be stationed with a licensed ALS ambulance service. The student will input patient contact information into the FISDAP Internet data collection system.

Credits	4.0
Prerequisites	
	<a href="#">EMS 275</a> , <a href="#">EMS 276</a>
Corequisites	
	<a href="#">EMS 275</a> , <a href="#">EMS 276</a>
Semester Offered	Spring

**EMS 297: Internship**

An internship is required of most AAS programs. This course is available to AA and AS students as well. The students combine course learning with practical, professional work experience in their chosen field of study. The employer does an evaluation of the work experience: The faculty advisor supervises the students; the students are required to complete a project assigned by the faculty advisor. A minimum of 40 hrs of work is required to earn one credit. A grade of S/U is given by the faculty.

Credits	1.0-6.0
Prerequisites	
	Instructor Approval 2.0 GPA
Semester Offered	Fall, Spring

# English

## ENGL 110: College Composition I

Guided practice in college-level reading, writing and critical thinking.

Credits	3.0
Prerequisites	Appropriate English placement test score or <a href="#">ASC 87</a> with a grade of C or higher.
Corequisites	<a href="#">ASC 88</a>
Semester Offered	Fall, Spring
General Education Area	(ND: ENGL)

## ENGL 120: College Composition II

Advanced practice in college-level writing from sources and in applying rhetorical strategies.

Credits	3.0
Prerequisites	<a href="#">ENGL 110</a>
Semester Offered	Fall, Spring
General Education Area	(ND: ENGL)

## ENGL 125: Introduction to Professional Writing

Introduction to the process and techniques for creating workplace writing. Letters, memos, formal and informal reports, and instructions.

Introduction to the rhetoric of workplace writing.

Credits	3.0
Prerequisites	<a href="#">ENGL 110</a>
Semester Offered	Fall, Spring
General Education Area	(ND: ENGL)

**ENGL 211: Introduction to Creative Writing**

Guided practice of writing skills related to the imaginative uses of language.

Credits	3.0
Prerequisites	
<a href="#">ENGL 110</a>	
Semester Offered	Fall, Spring
General Education Area	(ND: HUM)

**ENGL 220: Introduction to Literature**

Reading and discussion of representative examples of poetry, drama, and fiction, with emphasis on the use of common literary terminology.

Credits	3.0
Semester Offered	Fall, Spring
General Education Area	(ND: HUM)

**ENGL 221: Introduction to Drama**

Reading and discussion of representative dramatic works from ancient Greek times to the present.

Credits	3.0
Semester Offered	Fall
General Education Area	(ND: HUM)

**ENGL 222: Introduction to Poetry**

An examination of poetic forms including the uses of figurative language and the techniques of rhythm and meter.

Credits	3.0
Prerequisites	
<a href="#">ENGL 120</a>	
Semester Offered	Fall

**ENGL 224: Introduction to Fiction**

The study of representative short stories and novels and their historical and literary backgrounds.

Credits	3.0
Prerequisites	
<a href="#">ENGL 110</a>	
Semester Offered	Spring
General Education Area	(ND: HUM)

**ENGL 225: Introduction to Film**

A general introduction to film studies, including analysis of narrative and stylistic elements of films.

Credits	3.0
Semester Offered	Fall
General Education Area	(ND: HUM)

**ENGL 236: Women and Literature**

The study of literary texts by and about women including gender roles as a literary theme.

Credits	3.0
Semester Offered	Fall, Spring
General Education Area	(ND: HUM)

**ENGL 238: Children's Literature**

The study of texts suitable for reading by elementary-aged school children with emphasis on the analysis of literary characteristics which determine age-appropriateness.

Credits	3.0
Semester Offered	Fall, Spring
General Education Area	(ND: HUM)

**ENGL 261: American Literature I**

A survey of major works and writers in American Literature from the British Colonial Period through the Civil War.

Credits	3.0
Semester Offered	Fall
General Education Area	(ND: HUM)

**ENGL 262: American Literature II**

A survey of major works and writers in American Literature from the Civil War to the present.

Credits	3.0
Semester Offered	Fall
General Education Area	(ND: HUM)

**ENGL 278: Alternative Literature**

This course examines literary works in genres frequently judged "outside" the literary canon, such as science fiction, detective stories, ethnic and beat literature and focuses on the literary qualities they share with "high" literature.

Credits	3.0
Semester Offered	Fall, Spring
General Education Area	(ND: HUM)

**Environmental Technology****ENVT 110: Introduction to GPS**

This course provides an overview of geographic positioning systems (GPS), including theory, implementation and operations of GPS data gathering systems.

Credits	2.0
Semester Offered	Fall

**ENVT 255: Introduction to GIS**

This course covers underlying geographic concepts including world coordinate systems and projections, vector map topology, tiled and layered maps, standard computer map file formats, urban applications, and emphasis will be given to natural resource applications. This course also provides computer lab tutorials and case studies using the GIS software, ArcGIS 10 from Environmental Systems Research Institute (ESRI).

Credits	4.0
Prerequisites	
	<a href="#">ENVT 110</a>
Semester Offered	Spring

**ENVT 296: Capstone: Environmental Technology**

A problem-based learning experience that focuses on a multi-disciplinary approach to solving real world environmental problems.

Credits	1.0
Prerequisites	
Instructor Approval and Sophomore Standing	
Semester Offered	Spring

**ENVT 297: Internship**

An internship is required of most AAS programs. This course is available to AA and AS students as well. The students combine course learning with practical, professional work experience in their chosen field of study. The employer does an evaluation of the work experience: The faculty advisor supervises the students; the students are required to complete a project assigned by the faculty advisor. A minimum of 40 hrs of work is required to earn one credit. A grade of S/U is given by the faculty.

Credits	1.0-6.0
Prerequisites	
Instructor Approval 2.0 GPA	
Semester Offered	Fall, Spring

**Forestry****FORS 250: Diseases of Trees & Shrubs**

In Diseases of Trees & Shrubs, students will learn how to properly diagnose and treat specific diseases, abiotic disorders, and insect pests which attack woody plants.

Credits	3.0
Semester Offered	Fall

**FORS 255: Urban Trees and Shrubs**

A study of nomenclature, identification, and landscape characteristics of native and introduced deciduous and evergreen woody plants.

Credits	4.0
Semester Offered	Fall

**FORS 260: Parks and Urban Greenspaces**

Students will explore the benefits of parks and innovative ways to incorporate parks and greenspace into cities. Such as building trails on abandoned train tracks, establishing community gardens, removing parking, and adding rooftop gardens.

Credits	3.0
Semester Offered	Fall

**FORS 263: Urban Forest Management**

Students will learn the principles of effective urban forest management including planning, cultural practices, organization, financial management and regulations affecting the management of urban trees.

Credits	3.0
Semester Offered	Spring

**FORS 265: Arboriculture Practices**

Students will learn about the different types of climbing equipment and how it is used for pruning and tree removal. They will also be introduced to industry safety and quality standards, as well as how to recognize potential hazards and how to use these skills to create a safe work environment.

Credits	3.0
Semester Offered	Fall

**FORS 273: Arboriculture I**

Students taking arboriculture will learn how to properly care for trees and shrubs. They will also learn about the biology, development, and growth of woody plants. A main focus of this course will be on modern principles of plant health care.

Credits	3.0
Semester Offered	Fall

**FORS 275: Arboriculture II**

Students will learn advanced arboriculture practices such as the transplanting of large trees, preserving existing trees on construction sites, cabling, bracing, and the evaluation of hazardous trees.

Credits	3.0
Semester Offered	Spring

**FORS 280: Principles of Pruning**

Students will learn how to make effective pruning cuts and how trees respond to them. They will learn which tools are used and the proper timing for different pruning methods. The concept of structural pruning will be discussed, as well as how to prune shrubs, roots and storm-damaged trees.

Credits	3.0
Semester Offered	Spring

**FORS 290: Capstone: Urban Forestry**

Urban Forestry Capstone will focus on the development of an urban forest management plan. Students will address problems such as Dutch elm disease, major flooding, and Emerald ash borer, which plague urban forests. Students will present a written plan to deal with these and other urban forestry issues.

Credits	1.0
Semester Offered	Spring

**FORS 297: Internship**

An internship is required of most AAS programs. This course is available to AA and AS students as well. The students combine course learning with practical, professional work experience in their chosen field of study. The employer does an evaluation of the work experience: The faculty advisor supervises the students; the students are required to complete a project assigned by the faculty advisor. A minimum of 40 hrs of work is required to earn one credit. A grade of S/U is given by the faculty.

Credits	1.0-6.0
Prerequisites	
Instructor Approval 2.0 GPA	
Semester Offered	Fall, Spring

## Geology

**GEOL 100: Earth Science**

A lecture and laboratory course which surveys topics in geology, oceanography, meteorology, and astronomy. Through field experiences and labs, students will focus on the cycles and processes that shape the earth and our universe. This class meets the requirements for a general education science, especially appropriate as a science for educator's course.

Credits	4.0
Semester Offered	Fall

**GEOL 105: Physical Geology**

A lecture and laboratory study of the Earth as a physical body; its structure, composition, and the geologic processes acting on and within the Earth.

Credits	4.0
Semester Offered	Fall, Spring
General Education Area	(ND: LABSC)

## Health, Physical Education, and Recreation

**HPER 100: Concepts of Wellness and Fitness**

This course is designed to teach the role of physical activity in maintaining adequate health and improving health and wellness. It is designed to incorporate ideas through lectures and activity. The class is intended for students of all ages, teaches facts about exercise and improving quality of life.

Credits	2.0
Semester Offered	Fall, Spring

**HPER 101: Activity - Canoeing**

This course enables students to learn the basic techniques of canoeing. The class will include canoeing at one of the local lakes.

Credits	0.5
Semester Offered	Fall

**HPER 101: Activity - Golf**

This course will include basic swing instruction, course etiquette, and participation at the local country club.

Credits	0.5
Semester Offered	Spring

**HPER 101: Activity - Running**

This is an activity course designed to help participants learn about the benefits of running, explain how running can be a part of a safe and realistic fitness plan, and discuss how to maintain or improve their fitness level by running.

Credits	0.5
Semester Offered	Fall, Spring

**HPER 101: Activity - Weight Training**

This introductory course teaches students the importance of a weight training program, weight room safety, etiquette, and lifelong fitness.

Credits	0.5
Semester Offered	Fall

**HPER 101: Activity - Walking**

The purpose of this class is to assist the student in the improvement of their cardiovascular fitness through walking.

Credits	0.5
Semester Offered	Fall, Spring

**HPER 102: Activity - Martial Arts**

This course is a study of Martial Science. Taijutsu means “body technique” and is a term used to refer to the body dynamics or body mechanics of a self-defense technique. It is used to refer to the entire technique itself. Taijutsu can be divided into dakentaijutsu, or striking techniques, and jutaijutsu, grappling techniques. Martial Science is the study of these techniques and the principals and dynamics that make them work.

Credits	1.0
Semester Offered	Fall, Spring

**HPER 110: Sports Officiating**

This course will acquaint students with the rules, qualifications, ethics, techniques, conduct, proper signals, and appearance in officiating various sports. Students earning credit in the class and passing the appropriate rules test will become apprentice officials in that sport.

Credits	1.0
Semester Offered	Spring

**HPER 150: Varsity Athletics - Freshman**

This course requires first year active participation in a varsity sport. The varsity sports for which students may register during the fall semester are volleyball, hockey, fast pitch softball, baseball, clay target shooting and basketball. Students in varsity sports may register for hockey, baseball, basketball, fastpitch softball, volleyball and clay target shooting during the spring semester.

Credits	1.0
Semester Offered	Fall

**HPER 151: Varsity Athletics - Freshman**

This course requires first year active participation in a varsity sport. The varsity sports for which students may register during the fall semester are volleyball, hockey, fastpitch softball, baseball, clay target shooting and basketball. Students in varsity sports may register for hockey, baseball, basketball, volleyball, fast pitch softball and clay target shooting during the spring semester.

Credits	1.0
Semester Offered	Spring

**HPER 205: Physical Education for Elementary Children**

A study of the elementary school physical education program with emphasis on the content, purposes, and techniques of an elementary program. Students will observe and critique elementary physical education classes as well as develop and instruct an elementary physical education unit.

Credits	2.0
Semester Offered	Spring

**HPER 207: Prevention and Care of Injuries**

This course will acquaint the student with the field of athletic training, its attendant administrative problems and the type of scientific knowledge and duties necessary for instituting a program of injury management. It will include information on the cause of injury, the basis for training and conditioning and injury prevention, the psychogenetic and metabolic factors in sports, bandaging techniques, first aid operational and organizational procedures related to staff relationships, legal implications, budgeting, record keeping and insurance.

Credits	2.0
Prerequisites	<a href="#">HPER 210</a> or Instructor Approval
Semester Offered	Spring

**HPER 208: Introduction to Physical Education**

The nature and scope of physical education and sports by means of a critical examination of sports, play, exercise, coaching, and social issues dealing with sports.

Credits	2.0
Semester Offered	Spring

**HPER 210: First Aid/CPR**

First aid basics, CPR and AED instruction with hands-on practice in accordance with the American Heart Association guidelines. Certification cards for Heart saver first aid and CPR/AED will be issued upon successful completion of the course.

Credits	1.0
Semester Offered	Fall, Spring

**HPER 213: Taping and Bracing**

Taping and Bracing will focus on the stabilizing procedures used to assist in the healing process of athletic injuries. A hands-on approach will be used throughout the course.

Credits	2.0
Semester Offered	Fall

**HPER 217: Personal and Community Health**

A course designed to acquaint the student with those principles and practices which will ensure the maintenance of conditions necessary for wholesome personal and community living. Economic, social, and legal aspects of health preservation and disease prevention will be emphasized.

Credits	3.0
Semester Offered	Fall

**HPER 224: Intramural Sports Administration**

This course will include theories of intramural sports management, tournament development and activities planning. Students will benefit from hands-on experience by managing the fall/spring intramural season.

Credits	2.0
Semester Offered	Fall

**HPER 225: Intramural Sports Administration**

This course will include theories of intramural sports management, tournament development and activities planning. Students will benefit from hands-on experience by managing the fall/spring intramural season.

Credits	2.0
Semester Offered	Spring

**HPER 250: Varsity Athletics - Sophomore**

The students involved will be in their second year of active participation in a varsity sport. The varsity sports for which students may register during the fall semester are volleyball, hockey, fast pitch softball, baseball, clay target shooting and basketball. Students in a varsity sport may register for hockey, baseball, basketball, volleyball, clay target shooting and fast-pitch softball during the spring semester.

Credits	1.0
Semester Offered	Fall

**HPER 251: Varsity Athletics - Sophomore**

The students involved will be in their second year of active participation in a varsity sport. The varsity sports for which students may register during the fall semester are volleyball, hockey, fast pitch softball, baseball, clay target shooting and basketball. Students in a varsity sport may register for hockey, baseball, basketball, volleyball, clay target shooting and fast-pitch softball during the spring semester.

Credits	1.0
Semester Offered	Spring

**HPER 297: Internship**

An internship is required of most AAS programs. This course is available to AA and AS students as well. The students combine course learning with practical, professional work experience in their chosen field of study. The employer does an evaluation of the work experience: The faculty advisor supervises the students; the students are required to complete a project assigned by the faculty advisor. A minimum of 40 hrs of work is required to earn one credit. A grade of S/U is given by the faculty.

Credits	1.0-6.0
Prerequisites	
Instructor Approval	2.0 GPA
Semester Offered	Fall, Spring

**History****HIST 103: United States History to 1877**

A survey of United States history to 1877.

Credits	3.0
Semester Offered	Fall
General Education Area	(ND: HIST)

**HIST 104: United States History Since 1877**

A survey of United States history since 1877.

Credits	3.0
Semester Offered	Spring
General Education Area	(ND: HIST)

**HIST 105: World Civilizations to 1500**

An introductory survey of world civilizations to 1500

Credits	3.0
Semester Offered	Fall
General Education Area	(ND: HIST)

**HIST 106: World Civilizations Since 1500**

An introductory survey of world civilizations since 1500.

Credits	3.0
Semester Offered	Spring
General Education Area	(ND: HIST)

**HIST 220: North Dakota History**

A survey of North Dakota history.

Credits	3.0
Semester Offered	Fall, Spring
General Education Area	(ND: HIST)

**HIST 224: American Studies 1**

American Studies is an interdisciplinary seminar class in the culture of the United States. Subjects vary from year to year and will be topical focusing on either a specific era or theme in American history.

Credits	3.0
Semester Offered	Fall
General Education Area	(ND: HIST)

**HIST 225: American Studies II**

American Studies is an interdisciplinary seminar class in the culture of the United States. Subjects vary from year to year and will be topical focusing on a specific era or theme in American Culture.

Credits	3.0
Semester Offered	Spring
General Education Area	(ND: HIST)

**Horticulture****HORT 136: Residential Landscape Design**

This is an exploratory course for all majors who may be interested in landscape design or landscaping as a career. The course introduces and applies the fundamentals of landscape design as it pertains to private residential-scale projects. The theory, graphics, and design process of landscape architecture are covered. Students will learn the elements and principles of design, spatial composition, and graphic representation relevant to landscape architecture and design.

Credits	3.0
Semester Offered	Fall

**HORT 151: Introduction to Plants and Pests (Online)**

This course is an introduction to basic soil science, plant anatomy and physiology, diseases, and pests as it pertains to agricultural and ornamental plants. Students will learn basic plant growth, organization, function, adaptations, and reproduction along with basic soil composition and how it affects plant growth and health.

Credits	1.0
Semester Offered	TBA

**HORT 152: Integrated Pest Management (Online)**

This course provides students with the knowledge and tools necessary to identify various pests found in specialty crops. Subjects covered include – pest identification techniques, pest-scouting methods, sampling techniques, and economic thresholds.

Credits	2.0
Semester Offered	TBA

**HORT 175: Foliage Plant ID**

Foliage Plant Identification is designed to give students a background to the tropical plants that are commonly sold in the floral and greenhouse industry. Students will learn to identify plants by common and scientific name and will learn how these plants can be used indoors and in the outdoor landscape.

Credits	2.0
Semester Offered	Fall

**HORT 181: Specialty Food Crops**

Production and physiological principles involved in growing fruit and vegetable crops will be discussed. Emphasis will be placed on plants suitable for marketing at roadside and farmers' markets.

Credits	2.0
Semester Offered	Spring

**HORT 182: Specialty Crop Farming**

This course will provide students with a clear perspective on vegetable farm management, field operations, soil fertility, season extension, pest management and marketing of sustainable agriculture in our local and global communities. Students will be introduced to sustainable agriculture focusing on production that renews resources.

Credits	3.0
Semester Offered	Fall

**HORT 243: Good Agricultural Practices**

Good Agricultural Practices (GAP) prevents the public from illness and protects farm businesses from the economic consequences of food contamination. Sanitary operational practices are necessary for the production of safe, wholesome vegetables. This course will discuss strategies that can be put in place to reduce the risk of microbial contamination on the farm.

Credits	1.0
Semester Offered	Fall, Spring

**HORT 249: Greenhouse Operations**

Course will focus on the development, organization, infrastructure, and operation of production greenhouses while examining different greenhouse structures. Production techniques such as watering, fertilizing, growth regulators, and insect and disease identification and control will be covered.

Credits	4.0
---------	-----

**HORT 281: Floral Retail and Management (Online)**

This course deals with owning and operation of a retail flower shop. Objectives are to make students aware of business challenges and to help develop a marketing prospective that meets consumer demands today.

Credits	2.0
Prerequisites	HORT 177
Semester Offered	TBA

**HORT 282: Garden Planning**

Garden Planning will explore the history of gardens and provide students with a background in types of gardens. Students will gain experience in measuring plots, using color in the garden, choosing proper plants for the site and proper spacing of plants. Students will be required to design a formal and informal style garden for a residential site and a formal and informal garden for a public garden.

Credits	2.0
Semester Offered	Spring

**HORT 296: Field Studies - Horticulture**

An intensive examination of a research topic in horticulture. The subject of investigation is designed to meet the specific needs of individual students on an independent study basis.

Credits	1.0-3.0
Prerequisites	
Departmental Consent	
Semester Offered	Fall, Spring, Summer

**HORT 297: Internship**

An internship is required of most AAS programs. This course is available to AA and AS students as well. The students combine course learning with practical, professional work experience in their chosen field of study. The employer does an evaluation of the work experience: The faculty advisor supervises the students; the students are required to complete a project assigned by the faculty advisor. A minimum of 40 hrs of work is required to earn one credit. A grade of S/U is given by the faculty.

Credits	1.0-6.0
Prerequisites	
Instructor Approval 2.0 GPA	
Semester Offered	Fall, Spring

**HORT 298: Horticulture Practicum**

Course provides students with hands-on experiences within the different aspects of the Horticulture Industry that happens primarily during the Fall. Students will apply concepts discussed in the various Horticulture courses offered in the Horticulture Program. Students will work directly with production, daily operations, and management in greenhouse technology, Specialty crops, hydroponics, aquaponics, pest management and herbaceous landscape. Course study will be based on common activities performed during the Fall season.

Credits	2.0
Semester Offered	Fall

# Human Resource Management

## HRM 100: Human Relations and Organizations

This course covers an introduction to basic principles of human resource functions and services. It provides a background and understanding for further human resource management courses.

Credits	3.0
Semester Offered	Fall, Spring

## HRM 120: Introduction to Human Resource Management

This course covers an introduction to basic principles of human resource functions and services. It provides a background and understanding for further human resource management courses.

Credits	3.0
Semester Offered	Fall

## HRM 140: Employment Life Cycle

This course covers basic knowledge of the factors to be considered and strategies used in the employees' journey with the employment process of an organization. Topics include recruitment, on-boarding, development, retention, and separation.

Credits	3.0
Semester Offered	Fall

## HRM 160: Compensation Administration

This course covers basic knowledge and understanding of wage/salary administration, employee compensation, payroll process and regulations, and federal and state laws related to compensation and benefits.

Credits	3.0
Semester Offered	Fall

## HRM 170: Employment Training and Development

This course covers basic information about the characteristics of effective orientation programs and the scope of organizations, training, and continuing development programs in building an effective work force.

Credits	3.0
Semester Offered	Spring

## HRM 200: Benefits Administration

This course covers basic knowledge and information about various types of benefits typically offered by employers to their employees.

Credits	3.0
Semester Offered	Fall

### HRM 210: Employee and Labor Relations

The employee and labor relations function of human resources are commonly associated with matters such as investigations, counseling, and disciplinary actions. This course covers basic information about the history and current roles of labor unions and labor laws, worker's compensation laws, and the rights of employees.

Credits	3.0
Semester Offered	Spring

### HRM 230: Employment Policy Administration

This course covers basic information and understanding of the need for human resources policies in an organization, types of policies, the process of policy formulation, and how policies are used.

Credits	3.0
Semester Offered	Spring

### HRM 270: Human Resource Portfolio and Information Systems

This course reviews and reinforces the principles covered in the human resources program through the development of a comprehensive student portfolio and simulated activities related to program outcomes and systems found in human resources. Students will apply basic concepts, terminology, functions and outputs in a human resource information system for operations and strategic planning.

Credits	3.0
Semester Offered	Spring

### HRM 280: Human Resource Management and Emerging Issues

This course covers risk management in human resources and introduces basic risk management concepts to avoid or mitigate potential liabilities in an organization. Topics include legal compliance, crisis management, employment and discrimination issues, and emerging issues in human resources through case studies and application.

Credits	3.0
Semester Offered	Spring

### HRM 297: Internship

An internship is required of most AAS programs. This course is available to AA and AS students as well. The students combine course learning with practical, professional work experience in their chosen field of study. The employer does an evaluation of the work experience: The faculty advisor supervises the students; the students are required to complete a project assigned by the faculty advisor. A minimum of 40 hrs of work is required to earn one credit. A grade of S/U is given by the faculty.

Credits	1.0-6.0
Prerequisites	Instructor Approval 2.0 GPA
Semester Offered	Fall, Spring

**HRM 297: Internship**

An internship is required of most AAS programs. This course is available to AA and AS students as well. The students combine course learning with practical, professional work experience in their chosen field of study. The employer does an evaluation of the work experience: The faculty advisor supervises the students; the students are required to complete a project assigned by the faculty advisor. A minimum of 40 hrs of work is required to earn one credit. A grade of S/U is given by the faculty.

Credits	3.0
Prerequisites	
Instructor approval and 2.0 GPA	

**Humanities****HUM 101: Introduction to Humanities I**

This course is designed to introduce beginning university students to the major disciplines of the Humanities: philosophy, history, religion, drama, music, and art.

Credits	3.0
Semester Offered	TBA
General Education Area	(ND: HUM)

**HUM 102: Introduction to Humanities II**

This course is designed to introduce beginning university students to the major disciplines of the Humanities: philosophy, history, religion, drama, music, and art.

Credits	3.0
Semester Offered	TBA
General Education Area	(ND: HUM)

**Independent Study****XXXX 294: Independent Study or Directed Study**

This course calls for the supervised preparation and completion of individual research or creative projects. Not to exceed three credits towards a degree.

Credits	1.0-3.0
Prerequisites	
Departmental Approval	
Semester Offered	Fall, Spring

**XXXX 294: Undergraduate Research**

This course is intended to guide undergraduate students from all disciplines through the stages of writing a proposal and conducting a research project. Topics include planning research and documentation, prose style and editing, document design, ethics, abstracts and oral presentation of the proposal. Because the course will enroll from different disciplines, students will also become acquainted with research topics, ways of framing arguments, and making points outside their fields of study, which will help them develop a more interdisciplinary perspective of research.

Credits	1.0-3.0
Prerequisites	
Departmental Approval	
Semester Offered	Fall, Spring

**Mathematics****MATH 103: College Algebra**

Relations and functions, equations and inequalities, complex numbers; polynomial, rational, exponential, and logarithmic functions and systems of equations.

Credits	4.0
Prerequisites	
	<a href="#">ASC 94</a> with a grade of C or higher, or appropriate Math Placement Test Score
Semester Offered	Fall, Spring
General Education Area	(ND: MATH)

**MATH 104: Finite Math**

This course addresses areas that have application in the economic, behavioral, social, and life sciences. Topics include linear modeling, systems of linear equations and inequalities; matrix operations; linear programming; mathematics of finance; combinatorics, probability, and expected value; and descriptive statistics. Appropriate use of mathematical technology will be integrated throughout the course.

Credits	3.0
Prerequisites	
	<a href="#">ASC 94</a> with a grade of C or higher, or appropriate Math Placement Test Score
Semester Offered	Fall, Spring
General Education Area	(ND: MATH)

**MATH 105: Trigonometry**

Angle measure, trigonometric and inverse trigonometric functions, trigonometric identities and equations, parametric and polar coordinates, and general applications.

Credits	3.0
Prerequisites	
<a href="#">MATH 103</a> or Appropriate Math Placement Test Scores	
Semester Offered	Spring
General Education Area	(ND: MATH)

**MATH 107: Precalculus**

Equations and inequalities; polynomial, rational, exponential, logarithmic, and trigonometric functions; applications.

Credits	4.0
Prerequisites	
<a href="#">MATH 103</a> or Appropriate Math Placement Test Scores	
Semester Offered	Fall, Spring
General Education Area	(ND: MATH)

**MATH 110: Mathematics in Society**

This course covers a broad range of mathematics that a person would encounter in their daily life. Topics include: statistical interpretation, data visualization, probability, growth models, finance, politics and voting, logic and sets, and the intersection of mathematics and the arts. Throughout, appropriate use of mathematical technology will be emphasized.

Course includes proctored exam(s) with possible identity verification and fees.

Credits	3.0
Prerequisites	
<a href="#">ASC 94</a> with a grade of C or higher, or appropriate Math Placement Test Score	
Semester Offered	Fall, Spring
General Education Area	(ND: MATH)

**MATH 165: Calculus I**

Limits, continuity, differentiation, Mean Value Theorem, integration, Fundamental Theorem of Calculus, and applications.

Course includes proctored exam(s) with possible identity verification and fees.

Credits	4.0
Prerequisites	
<a href="#">MATH 105</a> or <a href="#">MATH 107</a> , appropriate Math Placement Test Score, or instructor approval	
Semester Offered	Spring
General Education Area	(ND: MATH)

**MATH 166: Calculus II**

Applications and techniques of integration, polar equations, parametric equations, sequences and series, power series and applications.

Credits	4.0
Prerequisites	
<a href="#">MATH 165</a>	
Semester Offered	TBA
General Education Area	(ND: MATH)

**MATH 210: Elementary Statistics**

An introduction to statistical methods of gathering, presenting, and analyzing data. Topics include probability and probability distributions, confidence intervals, hypothesis testing, and linear regression and correlation.

Course includes proctored exam(s) with possible identity verification and fees.

Credits	4.0
Prerequisites	
<a href="#">ASC 94</a> or <a href="#">MATH 103</a> or Appropriate Math Placement Test Score	
Semester Offered	Fall, Spring
General Education Area	(ND: MATH)

**MATH 265: Calculus III**

Multivariate and vector calculus including partial derivatives, multiple integration and its applications, line and surface integrals, Green's Theorem and Stoke's Theorem

Credits	4.0
Prerequisites	
<a href="#">MATH 166</a>	
Semester Offered	TBA

**MATH 266: Introduction to Differential Equations**

Solution of elementary equations by elementary techniques. Laplace transforms, systems of equations, matrix methods, numerical techniques, and applications.

Credits	4.0
Prerequisites	
<a href="#">MATH 265</a>	
Semester Offered	Spring

**MATH 277: Math for Elementary Teachers**

A mathematics content course for prospective elementary school teachers. Topics include problem solving, numeration systems, real numbers, and elementary number theory. Calculators, computers, and manipulatives are used in the course.

Credits	3.0
Prerequisites	
<a href="#">MATH 103</a>	
Semester Offered	Fall

**MATH 278: Mathematics for Elementary Teachers II**

A mathematics content course for prospective elementary school teachers that integrates the understanding of content and development of processes. Topics include real numbers, algebraic thinking, functions, probability, statistics/data analysis, geometry, and linear measure (unit analysis).

Credits	2.0
Prerequisites	
<a href="#">MATH 277</a>	
Semester Offered	Spring

# Nursing

## NURS 100: Nurse Assistant Training

The Nurse Assistant Training program provides instruction and supervised clinical practice to those preparing for employment as a nurse assistant in a skilled nursing facility, acute care, or home health care.

Credits	3.0
Semester Offered	Fall, Spring

## NURS 120: Foundations of Nursing

Develop an understanding of the multidimensional base of nursing knowledge, including basic human needs, nursing process, nursing judgment, informatics, ethical and professional, health promotion and disease prevention concepts. Gain an understanding of the role of the practical nurse within the interdisciplinary team, the vital importance of communication while providing safe and quality client care, and how nurses use evidence-based information in their practice.

Credits	2.0
Semester Offered	Fall

## NURS 121: Practical Nursing I

Explore core concepts of health assessment and mental health as they relate to client care. Learn how the nurse incorporates this knowledge in caring for the diverse client from the moment they begin care for an individual to any point along the health-illness continuum.

Credits	4.0
Corequisites	<a href="#">NURS 120</a> , <a href="#">NURS 122</a>
Semester Offered	Fall

## NURS 122: Clinical Practice II

Apply the social, biological, behavioral, and nursing science principles to simulated and actual client care in the nursing lab and during clinical in health care facilities. Students will see practice and perform demonstrations of basic nursing skills and procedures in a supervised setting. Includes the study of math and medical terminology and use of the nursing process and critical thinking skills to organize and provide safe and effective client care.

Credits	3.0
Corequisites	<a href="#">NURS 120</a> , <a href="#">NURS 121</a>
Semester Offered	Fall

**NURS 124: Clinical Practice II**

Gain additional nursing skills in the laboratory and apply those advanced skills in the clinical setting. Utilize the tools of informatics, nursing process, clinical reasoning, therapeutic communication, evidence-based practice, and management concepts to provide safe and culturally sensitive client care for individuals across the lifespan in a variety of medical facilities.

Credits	3.0
Prerequisites	
<a href="#">NURS 120</a> , <a href="#">NURS 121</a> , <a href="#">NURS 122</a>	
Corequisites	
<a href="#">NURS 127</a> , <a href="#">PHRM 215</a>	
Semester Offered	Spring

**NURS 126: Clinical Practice III**

Refine nursing knowledge, skills, and ethical comportment in the role of a practical nursing student to provide safe and effective care for clients across the lifespan with stable or predictable health problems and assisting with those whose conditions are critical or unpredictable. Critical thinking, effective and therapeutic communication, nursing process, management of nursing care, and delegation of unlicensed assistive persons are incorporated into the clinical experience.

Credits	3.0
Prerequisites	
<a href="#">NURS 120</a> to <a href="#">NURS 124</a> , <a href="#">PHRM 215</a>	
Corequisites	
<a href="#">NURS 129</a>	
Semester Offered	Summer

**NURS 127: Practical Nursing II: Introduction to Medical Surgical Nursing**

Examine safe and effective client care of the bio-psychosocial individual along the health-illness continuum. Students will be involved in teaching and learning activities that enhance critical thinking skills, examine aspects of self-determination, health promotion, disease prevention and evidence-based practice. Students will increase their understanding of nursing process and prioritization in the care of culturally unique clients across the lifespan in an ethical and legal manner.

Credits	2.0
Prerequisites	
<a href="#">NURS 120</a> , <a href="#">NURS 121</a> , <a href="#">NURS 122</a>	
Corequisites	
<a href="#">NURS 124</a> , <a href="#">PHRM 215</a>	
Semester Offered	Spring

**NURS 129: Practical Nursing III**

Focus on the nursing care of the woman, newborn, child, and families. Examine health maintenance and study the diseases and disorders affecting women, newborns, and children. Gain an understanding of pediatric growth and development and common illnesses. Use knowledge of family centered care, teaching and learning principles, and therapeutic communication while working within the interdisciplinary team to assist clients to use self-determination in decisions affecting their health.

Credits	3.0
Prerequisites	<a href="#">NURS 120</a> to <a href="#">NURS 124</a> , <a href="#">PHRM 215</a>
Corequisites	<a href="#">NURS 126</a>
Semester Offered	Summer

**NURS 145: Introduction to Maternal Child Nursing**

Focus on the nursing care of the woman, newborn, child, and families. Examine health maintenance and study the diseases and disorders affecting women, newborns, and children. Gain an understanding of pediatric growth and development and common illnesses. Use knowledge of family centered care, teaching and learning principles, and therapeutic communication while working within the interdisciplinary team to assist clients to use self-determination in decisions affecting their health.

Credits	2.0
Prerequisites	<a href="#">NURS 120</a> , <a href="#">NURS 121</a> , <a href="#">NURS 122</a>
Semester Offered	Spring

**NURS 224: Professional Role Development**

Investigate the role of the RN. Students will learn about historical trends, increase their knowledge of the background and current application of safety goals and competencies, and use previous skills in management to refine leadership skills. Students will start the process of analyzing individual performance and system effectiveness.

Credits	2.0
Prerequisites	Admission to ADN Program
Corequisites	<a href="#">NURS 225</a> , <a href="#">NURS 226</a> , <a href="#">NURS 227</a> , NCLEX Review
Semester Offered	Fall

**NURS 225: Alterations in Health I**

Explore the pathophysiology and nursing interventions, used in caring for individuals experiencing acute and chronic alterations in health, that build on concepts, knowledge and skills introduced in practical nursing courses and the supporting sciences. Utilize evidence-based practice, nursing judgment, therapeutic communication, and the nursing process as a framework for providing and managing nursing care to diverse individuals along the health-illness continuum.

<b>Credits</b>	<b>3.0</b>
<b>Prerequisites</b>	
<b>Admission to ADN Program</b>	
<b>Corequisites</b>	
	<a href="#">NURS 224</a> , <a href="#">NURS 225</a> , <a href="#">NURS 226</a> , NCLEX Review
<b>Semester Offered</b>	<b>Fall</b>

**NURS 226: Maternal Child Nursing**

Integrate prior learning while expending knowledge of the neonate, developing child, women's health, and childbearing family. Health maintenance and study of diseases and disorders affecting diverse neonates, children, women, and families along the health illness continuum and during the end stages of life are examined. Emphasis is placed on therapeutic communication, the role of the registered nurse, ethical/legal issues, and health promotion and maintenance during life stages of growth and development for neonates, children, and women.

<b>Credits</b>	<b>3.0</b>
<b>Prerequisites</b>	
<b>Admission to ADN Program</b>	
<b>Corequisites</b>	
	<a href="#">NURS 224</a> , <a href="#">NURS 225</a> , <a href="#">NURS 227</a> , NCLEX Review
<b>Semester Offered</b>	<b>Fall</b>

**NURS 227: Clinical Applications I**

Participate collaboratively with members of the interdisciplinary health care team to provide safe and culturally sensitive client centered care in the lab, clinical area and simulation lab. Practice parenteral medication therapies and demonstrate professional and leadership competencies while incorporating evidence-based practices and sound nursing judgment.

<b>Credits</b>	<b>4.0</b>
<b>Prerequisites</b>	
<b>Admission to ADN Program</b>	
<b>Corequisites</b>	
	<a href="#">NURS 224</a> , <a href="#">NURS 225</a> , <a href="#">NURS 226</a> , NCLEX Review
<b>Semester Offered</b>	<b>Fall</b>

**NURS 228: Alterations in Health II**

Continue the study of acute and chronic alterations in health across a variety of health care environments. Discuss the principles of clinical judgment, leadership and delegation while prioritizing and providing safe, effective, and culturally sensitive client care for individuals experiencing complex alterations in health. Analyze ethical health care, quality improvement processes and effective work practices within the health care system.

Credits	4.0
Prerequisites	
<a href="#">NURS 224</a> to <a href="#">NURS 227</a> , <a href="#">BIOL 202</a> , NCLEX Review	
Corequisites	
<a href="#">NURS 229</a> , <a href="#">NURS 237</a> , Elective, NCLEX Review	
Semester Offered	Spring

**NURS 229: Health Promotion and Psychosocial Nursing**

Examine safe and effective client care in the areas of health promotion for individuals and groups in communities and in care of the client experiencing psychosocial issues. Expand skills in promoting a client's self-determination, advocating for clients, and working within the interdisciplinary health care team while making evidence-based decisions to improve the safety and quality of client care.

Credits	2.0
Prerequisites	
<a href="#">NURS 224</a> to <a href="#">NURS 227</a> , NCLEX Review	
Corequisites	
<a href="#">NURS 228</a> , <a href="#">NURS 237</a> , Elective, NCLEX Review	
Semester Offered	Spring

**NURS 237: Clinical Applications II**

Prioritize safe, effective, and culturally competent client care in acute and community settings during this clinical and simulation lab course. Clients with complex alterations in health and psychosocial issues are managed with a spirit of inquiry and collaboration to make evidence based clinical judgments. Quality improvement practices related to national safety goals are examined. Students will be challenged with a precepted activity during the latter part of this course.

Credits	5.0
Prerequisites	
<a href="#">NURS 224</a> to <a href="#">NURS 227</a> , NCLEX Review	
Corequisites	
<a href="#">NURS 228</a> , <a href="#">NURS 229</a> , Elective, NCLEX Review	
Semester Offered	Spring

**NURS 259: RN Role Transition**

Examine the process of identifying and obtaining a position as a registered nurse. Explore the legislative process and reflect on the art and science of nursing. Investigate what it takes to prepare for and be successful in passing the NCLEX RN® examination. Be part of developing an evidence-based research question, use technology to prepare a portfolio, and reflect on what it means to be accountable and responsible

Credits	1.0
Prerequisites	
Admission to ADN Program	
Semester Offered	Spring

**Nutrition****NUTR 240: Principles of Nutrition**

Course content includes the science and application of nutrition, nutrition interventions in chronic and acute illness, promoting health and wellness throughout the life span and national nutrition concerns.

Credits	3.0
Semester Offered	Fall, Spring

**Office & Technology Education****BOTE 108: Business Mathematics**

Review of mathematical fundamentals with emphasis on business applications and problem solving.

Credits	3.0
Semester Offered	Fall, Spring

**BOTE 147: Word Processing**

Use of current word processing software to create professional business documents including letters, memos, reports, tables, forms, brochures, and graphic aids. Advanced features in printing and merging are also practiced.

Credits	3.0
Prerequisites	
Keyboarding Skills	
Semester Offered	Fall, Spring

**BOTE 152: Keyboarding II**

Development of speed and accuracy in keyboarding straight copy and production activities. Emphasis placed on formatting and keying various business documents including memos, letters, reports and tables from straight copy, rough drafts and unarranged material.

Credits	3.0
Semester Offered	Fall

**BOTE 209: Office Management**

Introduction of office management concepts and technology, including office facilities development, office systems, human relations, office ethics and etiquette, and various administrative duties and responsibilities.

Credits	3.0
Semester Offered	Fall

**BOTE 210: Business Communications**

Study of oral and written communication in business settings. Includes exploration of nonverbal and group communication, listening and research skills, cross-cultural communication, job search techniques, ethics, technology, and preparation of business correspondence.

Credits	3.0
Prerequisites	<a href="#">ASC 87</a> , <a href="#">ENGL 110</a> or Instructor Approval
Semester Offered	Fall, Spring

**BOTE 217: Records Management**

Study of the systematic control of business records through manual and electronic applications. Records creation, distribution, utilization, retention, storage, protection, preservation, and final disposition are discussed. Materials presented conform to ARMA.

Credits	3.0
Semester Offered	Spring

**BOTE 218: Desktop Publishing**

Software application course providing students skills in electronic layout, editing, and production of documents.

Credits	3.0
Semester Offered	Fall, Spring

**BOTE 247: Spreadsheet Applications**

Intermediate and advanced use of application software for creation of spreadsheets, graphs, databases, and macros. Integration with other software applications is also reviewed.

Credits	3.0
Semester Offered	Spring

## Pharmacy

### PHRM 215: Introduction to Pharmacology

A fundamental discussion of the scope of pharmacology, including terminology used. Drug laws, dosage forms and patient variabilities that affect drug usage will be covered. Important drugs used in practice will be studied including basic principles, therapeutic uses, and adverse effects.

Credits	3.0
Semester Offered	Fall, Spring

## Photography

### PHOT 150: The Digital Darkroom

In this course, students will learn basic digital darkroom techniques and digital workflow. Students will be introduced to processing digital image files using postproduction software including Adobe Photoshop, Bridge, Camera Raw, and Light room. Techniques students will learn include workflow, retouching, image correction, color correction, and image manipulation.

Credits	3.0
Semester Offered	Fall, Spring

### PHOT 180: Photography I

Introduction to basic photography. In this class students will learn the basics of photography and how to use an interchangeable lens camera. This class will cover the digital workflow – including capture, download, file storage and organization. Students will be introduced to all aspects of the interchangeable lens camera including exposure settings, digital camera settings, and menus. Students will also learn the basics of visual communication – including an introduction to 2D design and composition.

Credits	3.0
Semester Offered	Fall, Spring
General Education Area	(ND: FA)

### PHOT 190: Principles of Lighting

In this course, students are trained on the basic principles of lighting and how to use a variety of light sources including natural lighting, dedicated flash units, and studio lighting.

Credits	3.0
Prerequisites	<a href="#">PHOT 180</a>
Corequisites	<a href="#">PHOT 180</a>
Semester Offered	Fall, Spring

**PHOT 210: Intermediate Photography**

This is an intermediate level photography course in which students will focus on visual communication while exploring a variety of design principles and photographic styles. Students will explore techniques, principles of design, and aesthetics while photographing a variety of subject matter. Students will work on understanding and strengthening their individual photographic vision and style. The emphasis in this class is learning to “see” creatively and creating with intent.

DSLR or interchangeable lens camera required.

<b>Credits</b>	<b>3.0</b>
<b>Prerequisites</b>	
<a href="#">PHOT 150</a> , <a href="#">PHOT 180</a>	
<b>Corequisites</b>	
<a href="#">PHOT 150</a> , <a href="#">PHOT 180</a>	
<b>Semester Offered</b>	<b>Fall, Spring</b>

**PHOT 232: Advertising Photography**

This class covers the basics in product photography for advertising and marketing. In this course, students will learn all aspects of commercial product photography including lighting, equipment, locations, techniques, postproduction, and careers. Students will work with advanced studio lighting and a wide variety of subject matter related to commercial product photography for advertising.

DSLR or interchangeable lens camera required.

<b>Credits</b>	<b>3.0</b>
<b>Prerequisites</b>	
<a href="#">PHOT 180</a> , <a href="#">PHOT 190</a> , <a href="#">PHOT 150</a>	
<b>Semester Offered</b>	<b>Fall, Spring</b>

**PHOT 234: Portrait Photography**

In this course, students will learn all aspects of commercial portrait photography including lighting, equipment, locations, posing, techniques, postproduction, and careers. Students will work in a professional studio environment to learn all aspects of commercial portraiture including head shots, school photography, groups, sport memory mates, kids, families, pets, senior pictures, and weddings.

DSLR or interchangeable lens camera required.

<b>Credits</b>	<b>3.0</b>
<b>Prerequisites</b>	
<a href="#">PHOT 180</a> , <a href="#">PHOTE 190</a> , <a href="#">PHOT 150</a>	
<b>Semester Offered</b>	<b>Fall, Spring</b>

**PHOT 240: Outdoor Photography**

In this course, students will learn all aspects of outdoor photography including lighting, equipment, locations, techniques, postproduction, and careers. Students will explore a variety of subject matter including landscapes, scenic, wildlife, rustic, rural, and urban photography.

Credits	3.0
Prerequisites	
<a href="#">PHOT 180</a> , <a href="#">PHOT 150</a> or instructor approval	
Semester Offered	Fall, Spring

**PHOT 285: Photography Concepts**

This is an intellectually and experientially involved class in which students will learn to create images from conceptual ideas. Rather than using photography purely as a mimetic process, students will instead use creativity to find visual solutions to concepts while strengthening their visual communication skills. This course will push students beyond the technical aspects of photography and into the realm of creative and intellectual image making.

Credits	3.0
Prerequisites	
<a href="#">PHOT 180</a> , <a href="#">PHOT 190</a> , <a href="#">PHOT 150</a>	
Semester Offered	Fall, Spring

**PHOT 287: Documentary Photography**

In this course, students will learn all aspects of documentary photography including choosing a project, accessibility, funding, release forms, legal issues, output for the projects, and trends such as social media, the internet, and video. Students will work independently on an eight-week documentary project. This is a photo intensive class, so the students will produce a high volume of photos each week and gain valuable editing skills as well as developing their photographic skills.

Credits	3.0
Prerequisites	
<a href="#">PHOT 180</a> , <a href="#">PHOT 190</a> , <a href="#">PHOT 150</a>	
Semester Offered	Fall, Spring

**PHOT 289: Photography Portfolio**

In this course, students will create a professional portfolio in their desired area of focus. Emphasis will be placed on ideation and concept while developing a personal style with a high standard of professionalism and technical proficiency. The final project will be a professional portfolio the students will use to enter their photographic careers.

DSLR or interchangeable lens camera required.

Credits	3.0
Prerequisites	
Instructor Approval	
Semester Offered	Fall, Spring

**PHOT 293: Photography Practicum IV**

In this course, students will work independently on practical assignments as they relate to their future careers in professional photography. Students will choose one of three options for completing practicum. An internship with a professional studio, working as self-employed, or doing freelance/stock photography work. This course is designed to meet the practicum requirements for online students only.

DSLR or interchangeable lens camera required.

Credits	3.0
Prerequisites	
	<a href="#">PHOT 150</a> , <a href="#">PHOT 180</a> , <a href="#">PHOT 190</a>
Corequisites	
	<a href="#">PHOT 150</a> , <a href="#">PHOT 180</a> , <a href="#">PHOT 190</a>
Semester Offered	Fall, Spring

**Physics****PHYS 120: Fundamentals of Physics**

An application of the concepts and principles of physics to the real world. Topics selected form mechanics, heat, electricity, magnetism, optics, and atomic and nuclear physics.

Credits	4.0
Prerequisites	
	High School Algebra
Semester Offered	Spring
General Education Area	(ND: LABSC)

**PHYS 211: College Physics I**

The non-calculus physics course sequence recommended for pre-medical and preprofessional students. Topics: Newtonian mechanics and gravitation, work and energy, solids and fluids, heat and thermodynamics includes lab.

Credits	4.0
Prerequisites	
<a href="#">MATH 103</a>	
Semester Offered	Fall
General Education Area	(ND: LABSC)

**PHYS 212: College Physics II**

The non-calculus general physics course sequence recommended for pre-medical and pre-professional students. Topics: vibration and waves, electricity and magnetism, light and optics, and an introduction to modern physics, includes lab.

Credits	4.0
Prerequisites	
<a href="#">PHYS 211</a>	
Semester Offered	Spring
General Education Area	(ND: LABSC)

**PHYS 251: University Physics I**

The general physics course sequence for students majoring in chemistry, physics, or engineering. Topics: Newtonian mechanics and gravitation, work and energy, solids and fluids, heat, and thermodynamics. Includes lab.

Credits	5.0
Prerequisites	
<a href="#">MATH 165</a>	
Semester Offered	TBA
General Education Area	(ND: LABSC)

**PHYS 252: University Physics II**

The general physics course sequence for students majoring in chemistry, physics, or engineering. Topics: vibration and waves, electricity and magnetism, light and optics, and an introduction to modern physics, includes lab.

Credits	5.0
Prerequisites	<a href="#">PHYS 251</a>
Semester Offered	TBA
General Education Area	(ND: LABSC)

**Plant Science****PLSC 110: World Food Crops**

Scientific principles of crop growth, worldwide production, management alternatives, and processing for domestic and international consumption. Course includes a lab component.

Credits	3.0
Semester Offered	Fall

**PLSC 210: Horticulture Science**

Principles of plant classification, structure, function, growth, propagation, culture, and use of horticultural crops. Covers vegetable and fruit production in the home garden, growing flowers and planting flower beds, and landscaping principles and materials.

Credits	4.0
Semester Offered	Fall

**PLSC 223: Introduction to Weed Science**

Introduction of a basic knowledge of weeds, herbicide groups, the use of pesticides, economic and environmental considerations, personal safety, modes of action and terminology.

Credits	3.0
Semester Offered	Spring

**PLSC 225: Principles of Crop Production**

Principles of field crop production with emphasis on relationships of crops to their climate and production considerations as a means of managing resources and the environment.

Credits	3.0
Semester Offered	Spring

**PLSC 235: Field Scouting Techniques**

The purpose of this course is to provide students the skills necessary for proper pest identification and crop scouting techniques. Information such as crop growth and development, pest life cycles, damage symptoms and economic thresholds will be covered. Communications skills and presentation techniques will also be emphasized.

Credits	1.0
Semester Offered	TBA

**PLSC 255: Plant Disease Management**

Plant Disease Management is an introductory course to plant pathology. Students will learn which organisms cause plant diseases, the plants response, and how these diseases can be treated or prevented.

Credits	3.0
Semester Offered	Spring

**PLSC 268: Plant Propagation**

Students learn the principles and practices of seed propagation and of asexual propagation--cuttings, layering division, specialized structures, grafting, budding and micropropagation.

Credits	2.0
Semester Offered	Spring

**PLSC 297: Internship**

An internship is required of most AAS programs. This course is available to AA and AS students as well. The students combine course learning with practical, professional work experience in their chosen field of study. The employer does an evaluation of the work experience: The faculty advisor supervises the students; the students are required to complete a project assigned by the faculty advisor. A minimum of 40 hrs of work is required to earn one credit. A grade of S/U is given by the faculty.

Credits	1.0-6.0
Prerequisites	
Instructor Approval 2.0 GPA	
Semester Offered	Fall, Spring

## Psychology

**PSYC 111: Introduction to Psychology**

This course involves the scientific study of behavior and mental processes. It is a basic prerequisite to most other psychology classes.

Credits	3.0
Semester Offered	Fall, Spring
General Education Area	(ND: SS)

**PSYC 207: Introduction to Sport and Performance Psychology**

This course will provide practical knowledge to improve personal performance and the performance of others. It examines topics of performance including inner drive factors such as motivation and goals, mental and emotional skill development such as focus and imagery, and interactive skills such as coaching and teamwork.

Credits	3.0
Semester Offered	Fall
General Education Area	(ND: SS)

**PSYC 250: Developmental Psychology**

A survey of the psychology of human life span development. Includes a study of human development through the lifespan with an emphasis on physical, cognitive, social, emotional and personality development.

Credits	3.0
Prerequisites	
	<a href="#">PSYC 111</a>
Semester Offered	Fall, Spring
General Education Area	(ND: SS)

**PSYC 270: Abnormal Psychology**

A survey of the classification, symptoms, and etiology of psychological disorders. This class focuses on the entire range and scope of human behavior, including theoretical, etiological, epidemiological, and phenomenological approaches to mental illness. It is intended that the student increases their understanding of psychopathology in general and learn more about basic psychological disorders. The course will also explore the aspects of social consequences and treatment options offered in the past and at the current time.

Credits	3.0
Prerequisites	
	<a href="#">PSYC 111</a>
Semester Offered	Fall, Spring
General Education Area	(ND: SS)

**PSYC 280: Introduction to Health Psychology**

Describes the interaction of psychology and health, including the ways in which thoughts, emotions, and behavior influence one's health.

Credits	3.0
Prerequisites	
<a href="#">PSYC 111</a>	
Semester Offered	Fall, Spring
General Education Area	(ND: SS)

**Range Science****RNG 225: Introduction to Natural Resources**

This course explores the history, ecological, and social foundations of the conservation movement regarding natural resources at a state, national, and global levels. A wide range of perspectives is presented to help students develop a personal philosophy towards natural resources. Topics covered will include resource management of soil, water, forests, wetlands, coasts, wildlife, and food systems. The course also explores jobs in the Natural Resources world and offers opportunities to investigate career paths. Introduction to scientific theories and their relation to natural resources and agriculture. Influence of these theories on current perspectives toward the environment.

Credits	3.0
Semester Offered	Fall

**RNG 236: Introduction to Range Management**

Principles of range management, range evaluation, and range improvement.

Credits	4.0
Prerequisites	
<a href="#">BIOL 150</a> , <a href="#">BIOL 211</a> or Instructor Approval	
Semester Offered	Fall

**RNG 250: ND Range Plants**

Identification, taxonomy, distribution, and forage value, and ecological relationships of important ND range plants.

Credits	2.0
Prerequisites	
RNG 236	
Corequisites	
RNG 236	
Semester Offered	Fall

## Recreation and Leisure Services

### RLS 110: Foundations of Recreation

This course explores the history, ecological, and social foundations of the conservation movement regarding natural resources at a state, national, and global levels. A wide range of perspectives is presented to help students develop a personal philosophy towards natural resources. Topics covered will include resource management of soil, water, forests, wetlands, coasts, wildlife, and food systems. The course also explores jobs in the Natural Resources world and offers opportunities to investigate career paths. Introduction to scientific theories and their relation to natural resources and agriculture. Influence of these theories on current perspectives toward the environment.

Credits	3.0
Semester Offered	Fall

### RLS 210: Environmental Education

An introduction to the fields of environmental education including nature education, outdoor education, and conservation education. Philosophies and methodologies appropriate for a basic understanding of environmental education.

Credits	3.0
Semester Offered	Fall

### RLS 212: Principles of Interpretation

A study of interpretive program preparation and physical site planning for interpretive services. Focus on principles and methods to interpret natural and cultural history in parks and other outdoor settings.

Credits	3.0
Semester Offered	Spring

### RLS 215: Recreation Areas & Facilities

Design, operation, and maintenance of recreation areas and facilities.

Credits	3.0
Semester Offered	Fall, Spring

### RLS 222: Recreation Program Planning

Development of programming skills for recreation programs in various settings, i.e., public, non-profit, and private, with emphasis on planning, implementation, and evaluation.

Credits	3.0
Semester Offered	Fall & Spring Odd Years

**RLS 271: Fundamentals of Recreation and Resource Management**

An overview of the use of natural environments as formal and informal settings for leisure and recreation involvement and the interrelationship among people, the environment and leisure. Focuses on the principles of managing outdoor recreation sites and visitor systems where the natural environment provides the dominant attraction.

Credits	3.0
Semester Offered	Spring Even Years

**RLS 280: Community & Commercial Recreation**

A study of the various forms of commercial recreation, businesses and facilities providing recreational opportunities.

Credits	3.0
Semester Offered	Spring Even Years

**RLS 285: Natural Resource Law**

The course will provide a basic overview of the laws concerned with the environment and human activities, focusing on conservation and land use. Areas of specific concentration include the Endangered Species Act, National Environmental Policy Act, Antiquities Act, Migratory Bird and Conservation Act and the consequences of activities such as timber harvesting, grazing, recreation, and wilderness preservation. In addition to gaining knowledge of federal environmental laws, students will also gain an understanding of why the laws are necessary and how to apply the laws to real life situations.

Credits	3.0
Semester Offered	Spring Odd Years

**RLS 286: Recreation Administration**

Development of understanding of and ability to utilize leadership and group facilitation strategies to enhance and evaluate recreation and leisure experiences. Examination of theories and principles of administration in recreation.

Credits	3.0
Semester Offered	Fall, Spring

**RLS 288: Accessibility and Public Policy in Leisure Services**

This course will introduce students to the concept of programmatic and physical accessibility in parks, recreation, and leisure services. This course will also discuss the American with Disabilities Act (ADA), The Rehabilitation Act of 1973 Section 504 and other laws that apply to parks and recreation and leisure services. The course will explore the history and value of accessibility for individual with disabilities and the responsibilities of the agency providing services.

Credits	3.0
Semester Offered	Fall, Spring

**RLS 290: Introduction to Inclusive Recreation**

Concepts, methods, and settings involving recreation services as applied to groups that may need adaptations, i.e., physically, emotionally, or intellectually challenged persons, and the elderly.

Credits	3.0
Semester Offered	Fall

**RLS 297: Internship**

An internship is required of most AAS programs. This course is available to AA and AS students as well. The students combine course learning with practical, professional work experience in their chosen field of study. The employer does an evaluation of the work experience: The faculty advisor supervises the students; the students are required to complete a project assigned by the faculty advisor. A minimum of 40 hrs of work is required to earn one credit. A grade of S/U is given by the faculty.

Credits	2.0-4.0
Prerequisites	
Instructor Approval 2.0 GPA	
Semester Offered	Fall, Spring

**Sociology****SOC 110: Introduction to Sociology**

An introductory analysis of the nature of society, the interrelationship of its component groups and the process whereby society persists and changes.

Credits	3.0
Semester Offered	Fall, Spring
General Education Area	(ND: SS)

**SOC 115: Social Problems**

A sociological analysis of major social problems.

Credits	3.0
Semester Offered	Spring
General Education Area	(ND: SS)

**SOC 220: The Family**

The social institution of the family will be analyzed by the sociological perspective. Analyzation and evaluation of the factors (courtship, marriage, child-parent relationships, divorce) that create, maintain, or change social problems in our society will be a focus. We will study and learn about the contemporary American family by considering social class, ethnic background, and diverse family situations.

Credits	3.0
Semester Offered	Fall, Spring
General Education Area	(ND: SS)

**SOC 251: Gerontology**

This course includes the analysis of aging within the context of the life cycle with emphasis on the major concerns of the elderly and social policies, especially Social Security, and health care, which have an impact on the lives of the elderly.

Credits	3.0
Semester Offered	Spring
General Education Area	(ND: SS)

**Soil Science****SOIL 210: Introduction to Soil Science**

The physical, chemical, and biological properties of soils as they are related to use, conservation and plant growth in rural and urban environments will be discussed.

Credits	3.0
Semester Offered	Fall, Spring

**Special Education****SPED 101: Introduction to Developmental Disabilities**

This course examines the diverse forms of developmental disabilities (DD), legal and ethical factors when working in the DD profession, common philosophies of service to individuals with DD, and developing/planning a team when providing service to individuals with DD.

Credits	3.0
Semester Offered	Fall

**SPED 110: Introduction to Exceptional Children**

The course introduces and examines exceptionalities of learning with a focus on understanding current social and educational responsibilities.

Credits	3.0
Semester Offered	Spring

## Special Topics

### XXXX 199: Special Topics or Reading Course

This course will generally involve experience with a practical career-oriented topic and is intended to provide flexibility in the career-technical programs.

Credits	1.0-3.0
Prerequisites	
Curriculum committee Consent & Departmental Approval	
Semester Offered	Fall, Spring

### XXXX 299: Special Topics or Reading Course

This course will generally involve experience with a practical career-oriented topic and is intended to provide flexibility in the career-technical programs.

Credits	1.0-3.0
Prerequisites	
Curriculum committee Consent & Departmental Approval	
Semester Offered	Fall, Spring

## Theatre

### THEA 201: Theatre Practicum

Participation in various activities of theatrical production. This course may be repeated.

Credits	3.0
Semester Offered	TBA
General Education Area	(ND: HUM)

## Tourism

### TOUR 212: Principles of Tourism

Overview of tourism including historical issues and current trends, travel behavior, tourism planning and policy, tourism impacts and tourism promotion.

Credits	3.0
Semester Offered	Fall even years

## University Studies

### UNIV 101: Leadership Through Service

The development of occupational knowledge and skills through activities that may include seminars, field trips, public service, and/or work experience. Individual and Group meetings are held to monitor each student's assigned activities. Students will be introduced methods of improving social, political, community, and family life. The purpose of the service-learning experience is to give the students the opportunity to apply course concepts in a real world setting and provide needed services while collaborating with community partners.

Credits	1.0
Semester Offered	Fall, Spring

### UNIV 102: Leadership Through Service

The development of occupational knowledge and skills through activities that may include seminars, field trips, public service, and/or work experience. Individual and Group meetings are held to monitor each student's assigned activities. Students will be introduced methods of improving social, political, community, and family life. The purpose of the service-learning experience is to give the students the opportunity to apply course concepts in a real world setting and provide needed services while collaborating with community partners.

Credits	1.0
Semester Offered	Spring

### UNIV 105: First Year Experience

This course will be required for all freshmen students and is intended to provide them with insight and information about what the institution deems are the most important concepts in student retention and positive student outcomes.

Credits	1.0
Semester Offered	Fall, Spring

### UNIV 110: College Study Skills

This course emphasizes learning skills that are essential for success in college work. Includes study techniques, goal setting, memory and concentration, information literacy, time management, learning styles, note taking, critical thinking, reading, civility and other techniques for improving student performance.

Credits	1.0
Semester Offered	Fall, Spring

### UNIV 120: College Success

This course is intended to prepare students for the academic and social rigors of college life. In this course students will learn to develop effective academic skills by focusing on goal setting, time management, note-taking, communication, critical thinking, and problem-solving skills. Guest speakers will introduce students to campus services such as library and research, transportation, health and wellness, disability services, and other services critical to achieving college success.

Credits	1.0
Semester Offered	Fall

**UNIV 121: Life Skills**

This course is intended to prepare individuals for the roles and responsibilities of independent living. Individualized segments will be based on the students' needs, and could focus on areas such as safety, housing, transportation and cooking, laundry, grocery shopping and setting appointments, budgeting and financial management, and other independent living skills as needed or required.

Credits	1.0
Semester Offered	Fall, Spring

**Unmanned Aircraft Systems****UAS 101: Introduction to UAS Operations**

This course explores the history, designs, regulations, and economics of small Unmanned Aircraft Systems (sUAS). Students will explore common uses of sUAS's such as precision agriculture, public safety, communications, aerial filming, resource management, and research. Legal and environmental considerations will be discussed as well as the business opportunities and growth areas. The course will also examine future applications of sUAS operations, with an emphasis on commercial and public applications.

Credits	3.0
Semester Offered	Fall

**UAS 102: Basic UAS Flight Training**

The course provides hand-on training in pre-flight, post-flight, pilot in command (PIC) responsibilities, spotter responsibilities, and hazard avoidance. Students will gain an understanding of spatial orientation and become proficient in basic sUAS operations such as ascent, descent, altitude hold, and directional change. Students will gain experience by demonstrating level flight, horizontal, vertical, circle, and figure-8 patterns. Numerous stage checks will be utilized to ensure student understanding and proficiency in basic operations and maneuvers.

Credits	1.0
Prerequisites	<a href="#">UAS 101</a>
Corequisites	<a href="#">UAS 101</a>
Semester Offered	Fall

**UAS 107: Commercial UAS Operations**

This course gives students the knowledge needed to earn a Commercial UAS Certificate as outlined in Chapter 14 CFR Part 107 of the Federal Aviation Administration regulations. Topics such as weather, airspace, on and off airport operations, emergency procedures and human factors will be explored in detail.

Credits	2.0
Semester Offered	Spring

**UAS 118: UAS Repair and Maintenance**

This course provides students with the knowledge and skills required to repair and maintain drones. Topics include hardware identification, basic maintenance, troubleshooting, software and firmware updates, soldering, and replacing consumable parts.

Credits	3.0
Prerequisites	
<a href="#">UAS 101</a>	
Semester Offered	Spring

**UAS 210: UAS Applications in Agriculture**

This course explores the use of small Unmanned Aircraft Systems (sUAS) in precision agriculture. Crop monitoring, crop scouting, yield assessments, weather damage, and precision crop spraying will be investigated. sUAS software and agricultural image processing will also be examined. Legal and environmental considerations will be reviewed as it pertains to safe and ethical use of sUAS in precision agriculture.

Credits	2.0
Semester Offered	Spring

**UAS 212: UAS Applications in Natural Resources**

This course explores the use of small Unmanned Aircraft Systems (sUAS) in natural resources management. Natural hazards, remote sensing and monitoring of natural resources, pest and disease management, and regulations and licensure policies will be investigated. UAS software and image processing will also be examined. Legal and environmental considerations will be reviewed regarding safe and ethical use of sUAS regarding our natural resources.

Credits	2.0
Semester Offered	Spring

**UAS 230: UAS Crew Resource Management**

This course covers key crew resource management (CRM) principles, including communication, decision-making, and crew coordination. Students will learn how to apply CRM best practices to real-world drone scenarios. By the end of the course, participants will be equipped with the CRM skills needed to work effectively as part of a drone crew.

Credits	3.0
Prerequisites	
<a href="#">UAS 101</a> , <a href="#">UAS 102</a>	

**UAS 273: UAS Data Management, Analysis, and Mapping**

This course examines the handling of data, imagery, and other information collected from small unmanned aircraft systems. Storage, backup, cleaning, and processing of data will be discussed and practiced. Legal issues with data and information ownership will also be discussed.

<b>Credits</b>	2.0
<b>Semester Offered</b>	Fall

**UAS 297: Internship**

An internship is required of most AAS programs. This course is available to AA and AS students as well. The students combine course learning with practical, professional work experience in their chosen field of study.
